Sanctuary Cities, Communities, and Organizations Melvin Delgado, 2018-08-29 The term sanctuary city gained a new level of national recognition during the 2016 United States

presidential election and immigration policies and debates have remained a top issue since the election of Donald Trump. The battle over immigration and deportation will be waged on many fronts in the coming years but sanctuary cities municipalities that resist the national government's efforts to enforce immigration laws are likely to be on the front lines for the immediate future and social workers and others in the helping professions have vital roles to play. In this book Melvin Delgado offers a compelling case for the centrality of sanctuary cities cause to the very mission and professional identity of social workers and others in the human services and mental health professions. The text also presents a historical perspective on the rise of the sanctuary movements of the 1970s and 2000s thereby giving context to the current environment and immigration debate. *Sanctuary Cities: Communities and Organizations* serves as a helpful resource for human service practitioners academics and the general public alike.

The Oxford Handbook of Migration Crises Dr. Cecilia Menjivar, Dr. Marie Ruiz, Dr. Immanuel Ness, 2019-01-16. The objective of *The Oxford Handbook of Migration Crises* is to deconstruct question and redefine through a critical lens what is commonly understood as migration crises. The volume covers a wide range of historical economic social political and environmental conditions that generate migration crises around the globe. At the same time it illuminates how the media and public officials play a major role in framing migratory flows as crises. The volume brings together an exceptional group of scholars from around the world to critically examine migration crises and to revisit the notion of crisis through the context in which permanent and non permanent migration flows occur. *The Oxford Handbook of Migration Crises* offers an understanding of individuals in societies socio economic structures and group processes. Focusing on migrants departures and arrivals in all continents this comprehensive handbook explores the social dynamics of migration crises with an emphasis on factors that propel these flows as well as the actors that play a role in classifying them and in addressing them. The volume is organized into nine sections. The first section provides a historical overview of the link between migration and crises. The second looks at how migration crises are constructed while the third section contextualizes the causes and effects of protracted conflicts in producing crises. The fourth focuses on the role of climate and the environment in generating migration crises while the fifth section examines these migratory flows in migration corridors and transit countries. The sixth section looks at policy responses to migratory flows. The last three sections look at the role media and visual culture gender and immigrant incorporation play in migration crises.

Asylum-Seeking, Migration and Church Susanna Snyder, 2016-04-15. *Asylum Seeking Migration and Church* addresses one of the most pressing issues confronting contemporary society. How are we to engage with migrants? Drawing on studies of church engagement with asylum seekers in the UK and critical immigration and refugee issues in North America Snyder presents an extended theological reflection on both the issue of asylum seeking and the fears of established populations surrounding immigration. This book outlines ways in which churches are currently supporting asylum seekers encouraging closer engagement with people seen as other and more thoughtful responses to newcomers. Creatively exploring biblical and theological traditions surrounding the stranger Snyder argues that

as well as practising a vision of inclusive community churches would do well to engage with established population fears Trends in global migration and the dynamics of fear and hostility surrounding immigration are critically and creatively explored throughout the book Inviting more complex nuanced responses to asylum seekers and immigrants this book offers invaluable insights to those interested in Christian ethics practical theology social work mission and faith and social action as well as those working in the field of migration

No Strangers Here Judy Chin Chan, 2017-10-13 Churches are traditionally among the first to respond to the call to aid strangers in distress In this age of globalization one group of strangers in particular asylum seekers and refugees is in urgent need of welcome as they flee their homelands in search of safety This same group however faces hostility and rejection in many places What should be the church's response This book argues that Christian hospitality offers a powerful theological and pastoral response to such vulnerable strangers in our midst For that to happen the church must answer two questions What is Christian hospitality and How do we put it into practice with refugees and asylum seekers Part One answers the first question with a cross disciplinary study of sacred hospitality in both ancient and modern times Part Two tackles the second with a fascinating case study of the church's outreach to refugees and asylum seekers in an international Chinese city As communities worldwide receive refugees and asylum seekers this book offers Christian hospitality and the Hong Kong experience as one hopeful response to needy strangers at our doorstep It is a welcome theological and practical resource for refugee ministry in the twenty first century

Extracting Honduras James J. Phillips, 2022-01-04 With a focus on Honduras James J Phillips explores the deeper causes of the massive emigration of Central Americans to the United States Going beyond the frequently given reasons for migration Phillips provides a detailed account of how the frenzied extraction of natural resources has created massive community displacement dependency poverty and vulnerability while encouraging corruption violence gang recruitment drug trafficking militarization of Honduran society and systematic repression of popular protest and resistance Highlighting how this situation is tied to the colonial or imperial extractive relationship of Honduras to the United States Phillips contends that the usual policy of development aid and investment to stem migration will only worsen the conditions that create migration With this book Phillips depicts how the Central American immigration crisis shapes life in the United States and Honduras while making clear that the effects are not what populist politics imagine

A Culture of Engagement Cathleen

Kaveny, 2016-03-01 Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture as typified by mainline Protestant churches and defiant rejection of cultural incursions as witnessed by more sectarian movements such as Mormonism and Hassidism However legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility a culture of engagement that accommodates and respects tradition It also recognizes the need to interact with culture to remain relevant and to offer critiques of social political legal and economic practices Kaveny suggests that rather than avoid the crisscross of the religious and secular spheres of life we should use this conflict as an

opportunity to come together and to encounter challenge contribute to and correct one another Focusing on five broad areas of interest Law as a Teacher Religious Liberty and Its Limits Conversations about Culture Conversations about Belief and Cases and Controversies Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich constructive and difficult discussions between moral and cultural traditions This provocative collection of Kaveny s articles from Commonweal magazine substantially revised and updated from their initial publication provides astonishing insight into a range of hot button issues like abortion assisted suicide government sponsored torture contraception the Ashley Treatment capital punishment and the role of religious faith in a pluralistic society At turns masterful and inspirational A Culture of Engagement is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life

The Refugee Crisis and Religion Luca Mavelli,Erin Wilson,2016-12-01 The current refugee

crisis sweeping Europe and much of the world closely intersects with largely neglected questions of religion. Moving beyond discussions of religious differences, what can we learn about the interaction between religion and migration? Do faith-based organisations play a role within the refugee regime? How do religious traditions and perspectives challenge and inform current practices and policies towards refugees? This volume gathers together expertise from academics and practitioners as well as migrant voices in order to investigate these interconnections. It shows that reconsidering our understanding and approaches to both could generate creative alternative responses to the growing global migration crisis. Beginning with a discussion of the secular religious divide and how it shapes dominant policy practices and counter approaches to displacement and migration, the book then goes on to explore and deconstruct the dominant discourse of the Muslim refugee as a threat to the secular Christian West. The discussion continues with an exploration of Christian and Islamic traditions of hospitality, showing how they challenge current practices of securitization of migration and concludes with an investigation of the largely unexplored relation between gender, religion and migration. Bringing together leading and emerging voices from across academia and practice in the fields of International Relations, migration studies, philosophy, religious studies and gender studies, this volume offers a unique take on one of the most pressing global problems of our time.

The Evolution of Humanitarian Protection in European Law and Practice Liv Feijen, 2021-04-01. The last couple of years have witnessed an unprecedented battle within Europe between values and pragmatism and between states' interests and individuals' rights. This book examines humanitarian considerations and immigration control from two perspectives: one broader and more philosophical, the other more practical. The impetus to show compassion for certain categories of persons with vulnerabilities can depend on religious, philosophical and political thought. Manifestation of this compassion can vary from the notion of a charitable act to aid the wretched in their home country to humanitarian assistance for the distant needy in foreign lands and finally to immigration policies deciding who to admit or expel from the country. The domestic practice of humanitarian protection has increasingly drawn in transnational law through the expansion of the EU acquis on asylum and the interpretation of the European Court of Human Rights.

Migration and Health Nadia El-Shaarawi, Stéphanie Larchanché, 2022-06-10. Despite the centrality of migration in our contemporary world, scholarship on mobility and health frequently separates migrants according to legal status, country of origin, destination or health concern. Yet people on the move and health systems face challenges and opportunities that transcend these boundaries, including border fortification, neoliberal agendas and climate change. This volume explores these epistemic borders, recognizing the necessity of a new conversation about migration and health. Each of the empirically grounded chapters introduces readers to pressing questions of migration and health in diverse social, political and geographical settings.

Protection from Refuge Kate Ogg, 2022-03-24. The places in which refugees seek sanctuary are often as dangerous and bleak as the conditions they fled. In response, many travel within and across borders in search of safety. As part of these journeys, refugees are increasingly

turning to courts to ask for protection not from persecution in their homeland but from a place of refuge This book is the first global and comparative study of protection from refugee litigation examining whether courts facilitate or hamper refugee journeys with a particular focus on gender Drawing on jurisprudence from Africa Europe North America and Oceania Kate Ogg shows that courts have transitioned from adopting robust ideas of refuge to rudimentary ones This trajectory indicates that courts can play a powerful role in creating more just and equitable refugee protection policies but have ultimately compounded the difficulties inherent in finding sanctuary perpetuating global inequities in refugee responsibility and rendering refuge elusive

Intersections of Religion and Migration Jennifer B. Saunders, Elena Fiddian-Qasmiyeh, Susanna Snyder, 2016-09-28 This innovative volume introduces readers to a variety of disciplinary and methodological approaches used to examine the intersections of religion and migration A range of leading figures in this field consider the roles of religion throughout various types of migration including forced voluntary and economic They discuss examples of migrations at all levels from local to global and critically examine case studies from various regional contexts across the globe The book grapples with the linkages and feedback between religion and migration exploring immigrant congregations activism among and between religious groups and innovations in religious thought in light of migration experiences among other themes The contributors demonstrate that religion is an important factor in migration studies and that attention to the intersection between religion and migration augments and enriches our understandings of religion Ultimately this volume provides a crucial survey of a burgeoning cross disciplinary interreligious and global area of study
