**Politics without Stories** David Ricci,2016-10-27 Conservatives use great stories to prescribe government policy Liberals engage the world via science and pragmatism rendering liberalism less inspiring This book examines this difference *Teaching for Dissent* Sarah Marie Stitzlein,2015-11-17 *Teaching for Dissent* looks at the implications of new forms of dissent for educational practice The reappearance of dissent in political meetings and street protests opens new possibilities for improved democratic life and citizen participation This book argues that this possibility will not be fulfilled if schools do not cultivate the skills necessary for our citizens to engage in political dissent The authors look at how practices in schools such as the testing regime and the hidden curriculum suppress students ability to voice ideas that stand in opposition to the status quo *Teaching for Dissent* calls for a realignment of the curriculum and the practices of schooling with a guiding vision of democratic participation

*Bernie or Bust* @BernieOrBust,Patrick Walker,2018-01-30 *Bernie or Bust* By BernieOrBust with Patrick Walker Author BernieOrBust and Patrick Walker started the Bernie or Bust movement of 2016 This book is an effort to tell the story of how they accomplished this feat and to correct the record of distortion created by the media about the movement The authors include a manifesto for their movement going forward They want readers to understand the need for revolution in the U S

and to join the leverage movement Bernie or Bust *Pioneers of Electoral Revolt* provides a unique look at the initiation and operation of a grassroots political campaign that gives a remarkably nuts and bolts picture which will be of interest to other activists to voters and to all those who want to better comprehend the provocative dynamics of the recent election **We Are All On Flight 93** Derek Joe Tennant, 2013-11-03 We are prisoners trapped in a dominant racist culture We don't know that outside life is different loving cooperative with enough for everyone Remaining within this culture we are less than whole ourselves It's a lie that model prisoners escape Note everything you have done to save the world has failed Meanwhile every 28 hours another black man is gunned down by authorities We talk about gun control but don't teach conflict resolution take guns away from police or solve problems of race and class Just recycling or driving an electric car is not enough It is hard actively seeking ways to monkey wrench us into collapse while we still have life resources and energy to rebuild with It is critical that we address our spiritual life What if every moment were a meditation every act a blessing I know what it feels like to give up my struggle and acknowledge that someone I dearly love has died and that I failed to save them I will not give up again **The Devil's Marriage** Gary Brumback, 2011 America is becoming a ruin Nation The reason well known psychologist Dr Gary Brumback tells us is the corpocracy the Devil's Marriage between powerful corporations and patronizing politicians He proposes Democracy Power a revolutionary but civil peaceful force to break up the corpocracy publisher description *My Father's Bonus March* Adam Langer, 2009-10-20 To his friends Seymour Langer was one of the brightest kids to emerge from Chicago's Depression era Jewish West Side To his family he was a driven and dedicated physician a devoted father and husband But to his Adam youngest son Seymour was also an enigma a somewhat distant figure to whom Adam could never quite measure up a worldly man who never left the city of Chicago during the last third of his life a would be author who spoke for years of writing a history of the Bonus March of 1932 when twenty thousand World War I veterans descended on the nation's capital to demand compensation Using this dramatic but overlooked event in U.S. history as a means of understanding his relationship with his father Adam Langer sets out to uncover why the Bonus March intrigued Seymour Langer whose personal history seemed to be artfully obscured by a mix of evasiveness and exaggeration The author interweaves the story of the Bonus March and interviews with such individuals as history aficionado Senator John Kerry and the writer and critic Norman Podhoretz with his own reminiscences and those of his father's relatives colleagues and contemporaries In the process he explores the nature of memory while creating a moving multilayered portrait of both his father and his father's generation **Civic Education in the Twenty-First Century** Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville's analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic

education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

and emphasises the need for a new public culture of obligations owed to people with disabilities highlighting both the prospects and difficulties of achieving the ideal of disability justice that continues to elude the lived experiences of millions of Africans today Oche Onazi's *An African Path to Disability Justice* is the first book length exploration of disability in the light of African ethics as contrasted with the human rights and capabilities frameworks Of particular interest are Onazi's thoughtful reflections on how various conceptions of community salient in African moral philosophy including group based reciprocal and relational bear on what we owe to the disabled Thaddeus Metz Distinguished Professor University of Johannesburg

**What It Was All About** Steven H. Propp, 2015-12-07 The year is 1970 The Supreme Court has legalized abortion Equal Pay for Equal Work is now the law and Affirmative Action programs attempt to redress past injustices and inequities Women are coming together nationwide in consciousness raising groups sharing their knowledge and experiences with each other A group of six women in Stentoria California bond through such a group and support each other as women in this new Movement are forming collectives publishing their own books and periodicals creating an exciting new genre of Womens Music as well as starting their own bookstores to make these new materials readily available to the community New spiritual movements focused on the Divine Feminine principle are also beginning Even some men are sympathetic and supportive of these ideals But as the 1980s arrive the situation changes the backlash against the womens movement in politics and the media seemingly turns into a full fledged war specifically targeting the gains that women have achieved Opposition from traditional religions hardens and womens reproductive rights come under renewed attack the Equal Rights Amendment fails even as women themselves debate controversial questions such as banning pornography and how to view a rising Third Wave of the womens movement Ominously the threat of AIDS seemingly brings the era of sexual freedom to a close The six women deal with all these issues as well as personal challenges including balancing work and family responsibilities As the new century begins they reflect about what the womens movement ultimately accomplished In a world now characterized by growing economic inequality increasing low self esteem for some women exemplified by cosmetic surgery and extreme makeovers legalized same sex marriage and media attention to Transgender issues this book may help you to appreciate not only how far we've come but how far we have yet to go *From Sabotage to Support* Joy L. Wiggins, Kami J.

Anderson, 2019-05-14 Women are acculturated within systems that encourage them to sabotage one another this book shows how they can break free of this cultural programming and use whatever privilege and power they have to raise each other up Joy Wiggins and Kami Anderson advocate that the only way women can successfully support each other is by addressing the varying intersections of our individual power and privileges particularly focusing on how some privileges are inherited along lines of race class sexuality and geography When we fully examine how we have power in certain situations and not in others we start to see where we can lend privilege to create truly inclusive spaces for the historically underrepresented and marginalized Wiggins and Anderson look at how the dynamics of privilege and power have played out in the history of the

feminist movement and identify and break down socialized behaviors and ideologies that trigger implicit bias and microaggressions And they provide tools to interrupt negative thoughts and actions so women can nurture mutual support and show up as their authentic selves Each chapter features a dialogue between them reflecting on how issues of race privilege and power have played out in their lives and their friendship The system of patriarchy has created an environment for women to knowingly and unknowingly sabotage each other it is not inherent in women themselves This book teaches us how to take an active approach to becoming better allies for each other and by so doing improve our world and end the cycle of injustice

*Celebrity and the Feminist Blockbuster* Anthea Taylor, 2017-02-21 In the first book length study of celebrity feminism Anthea Taylor convincingly argues that the most visible feminists in the mediasphere have been authors of bestselling works of non fiction feminist blockbusters *Celebrity* and *The Feminist Blockbuster* explores how the authors of these popular feminist books have shaped the public identity of modern feminism in some cases over many decades Maintaining a distinction between women who are famous because of their feminism and those who later add feminism to their brand Taylor contends that Western celebrity feminism as a political mode of public subjectivity cannot in any simple way be seen as homologous with other forms of stardom Moving deftly from the 1960s to the present focusing on how feminist authors have actively worked to manufacture their public personas she demonstrates that the blockbuster remains crucial to feminist celebrification but is now often augmented with digital media Advancing celebrity studies by placing the figure of the feminist front and centre *Celebrity and the Feminist Blockbuster* is essential reading for all those interested in gender popular feminism and the politics of renown

*Democracy in Decline* Philip Kotler, 2016-06-17 *Democracy in Decline* is an examination by the father of modern marketing into how a long cherished product democracy is failing the needs of its consumers citizens Philip Kotler identifies 14 shortcomings of today s democracy and confronts this gloomy outlook with some potential solutions and a positive message that a brighter future awaits if we can come together and save democracy from its decline Encouraging readers to join the conversation exercise their free speech and get on top of the issues that affect their lives regardless of nationality or political persuasion Suitable for students across a broad range of courses including Political Science Politics Political Marketing and Critical Management Sociology An accompanying website invites those interested to help find and publish thoughtful articles that aid our understanding of what is happening and what can be done to improve democracies around the world

*Heroines in History* Katie Pickles, 2022-07-21 *Heroines in History* A Thousand Faces moves beyond stories of individual heroines taking a thematic synthesising and global in scope approach to challenge previous understandings of heroines in history Responding to Joseph Campbell s Hero with a Thousand Faces Katie Pickles explores the idea of a transcultural heroine archetype that recurs through time Each chapter addresses an archetypal theme important for heroines in history The volume offers a new consideration of the often awkward position of women in history and embeds heroines in the context of their times as well as interpreting and analysing how their stories are told re

told and represented at different moments To do so it recovers and compares some women now forgotten along with well known recent heroines and brings together a diversity of women from around the world Pickles looks at the interplay of gender race heredity status class and politics in different ways and chronicles the emergence of heroines as historical subjects valued for their substance and achievements rather than as objects valued for their image and celebrity In an accessible and original way the book builds upon developments in women s and gender history and is essential reading for anyone interested in this field
