adding new layers of exclusion to already fragile meanings of citizenship Globalizing Citizens presents expert analysis from cities and villages in India South Africa Nigeria the Philippines Kenya the Gambia and Brazil to explore how forms of global authority shape and build new meanings and practices of citizenship across local national and global arenas **The Oxford Handbook Public Accountability** M. on their good reputations and performance in order to mobilize resources They have fewer opportunities to convert resources into self interested uses Recent experience suggests however that civil society leaders can also be guilty of self interested behavior even though the rewards may be less dramatic than they are in other sectors This is especially a concern as CSOs become more influential in national and international affairs Without legitimacy in the eyes of the public and other key actors CSOs cannot effectively function in the transnational arena Civil society expert L David Brown provides approaches to assessing and enhancing the legitimacy and accountability of CSOs allowing them to reach their full potential in contributions to governance and problem solving Creating Credibility is an essential text for anyone concerned with understanding the challenges to civil society legitimacy and finding ways CSOs can respond to these challenges **Fair**
