Quero, 2023-11-24 Focused on a set of overlapping international orders of regional scope present in the Middle East and North Africa this book argues that rules and primary institutions have sanctioned the foreign behavior of the sub system s international actors since 1945 The author avoids recent IR trends focused on narrow case studies instead providing a comprehensive overview of the MENA s regional politics The normative content and evolution of multiple international orders are examined constituting the intra Arab order the Arab Israeli order and the Arab Iranian order as well as the expression of the global order in regional interactions Drawing on Area Studies and English School and constructivist IR theories the author argues that a plurality of overlapping regional orders have coexisted since 1945 not just one as is commonly suggested in the literature Each of these orders is integrated by different participants and has developed its own differentiated norms and institutions setting parameters on legitimate behavior This analytical proposal helps make sense of foreign relations otherwise labeled as incoherent The book has wide appeal accessible both to students wishing to learn about the politics history and sociology of the Middle East as well as to specialists seeking original research on the functioning of the MENA s regional orders *Conflict and War in the Middle East* Bassam Tibi, 1998-09-28 Few studies of

Middle East wars go beyond a narrative of events and most tend to impose on this subject the rigid scheme of superpower competition The Gulf War of 1991 however challenges this view of the Middle East as an extension of the global conflict The failure of the accord of both superpowers to avoid war even once regional superpower competition in the Middle East had ceased must give rise to the question Do regional conflicts have their own dynamic Working from this assumption the book

examines local regional constraints of Middle East conflict and how through escalation and the involvement of extra regional powers such conflicts acquire an international dimension The theory of a regional subsystem is employed as a framework for conceptualising this interplay between regional and international factors in Tibi s examination of the Middle East wars in the period 1967-91 Tibi also provides an outlook into the future of conflict in the Middle East in the aftermath of the most recent Gulf War

War and Conflict in the Middle East and North Africa Ariel I. Ahram, 2020-09-29 For much of the last half century the Middle East and North Africa MENA has seemed the outlier in global peace Today Iraq Libya Israel Palestine Yemen and Syria are not just countries but synonyms for prolonged and brutal wars But why is MENA so exceptionally violent More importantly can it change Exploring the causes and consequences of wars and conflicts in this troubled region Ariel Ahram helps readers answer these questions In Part I Ahram shows how MENA s conflicts evolved with the formation of its states Violence varied from civil wars and insurgencies to traditional interstate conflicts and affected some countries more frequently than others The strategies rulers employed to stay in power constrained how they recruited trained and equipped their armies Part II explores dynamics that trap the region in conflict oil dependence geopolitical interference and embedded identity cleavages The catastrophic wars of the 2010s reflect the confounding effects of these traps culminating in state collapse and intervention from the US and Russia as well as regional powers like Iran Saudi Arabia and the UAE Finally Ahram considers the possibilities of peace highlighting the disjuncture between local peacebuilding and national and internationally backed mediation War and Conflict in the Middle East and North Africa will be an essential resource for students of peace and security studies and MENA politics and anyone wanting to move beyond headlines and soundbites to understand the historical and social roots of MENA s conflicts
