Global Tobacco Control Power Policy Governance And Transfer:

Global Tobacco Control P. Cairney,D. Studlar,H. Mamudu,2011-12-02 The first major book by political scientists explaining global tobacco control policy It identifies a history of minimal tobacco control then charts the extent to which governments have regulated tobacco in the modern era It identifies major policy change from the post war period and uses theories of public policy to help explain the change **Tobacco Control Policy in the Netherlands** Marc C.

Willemsen,2018-05-15 Governments have known since the 1960s that smoking results in irreversible health damage This open access book examines why governments have done so little to combat this when they have been aware of the problem and its solutions for decades What are the strategies and decisions that make a difference given that policy environments are often not conducive to change Taking the Netherlands as an example this book helps to understand the complex policy process at the national level and why it so often appears irrational to us It is the most sophisticated analysis of tobacco control policy to date applying insights from political sciences to the field of tobacco control **Law and Global Health**

Michael Freeman,Sarah Hawkes,Belinda Bennett,2014-05-29 Current Legal Issues like its sister volume Current Legal Problems now available in journal format is based upon an annual colloquium held at University College London Each year leading scholars from around the world gather to discuss the relationship between law and another discipline of thought Each colloquium examines how the external discipline is conceived in legal thought and argument how the law is pictured in that discipline and analyses points of controversy in the use and abuse of extra legal arguments within legal theory and practice Law and Global Health the sixteenth volume in the Current Legal Issues series offers an insight into the scholarship examining the relationship between global health and the law Covering a wide range of areas from all over the world articles in the volume look at areas of human rights vulnerable populations ethical issues legal responses and governance

Weaponising Evidence Margherita Melillo,2024-02-01 Weaponising Evidence provides the first analysis of the history of the international law on tobacco control By relying on a vast set of empirical sources it analyses the negotiation of the WHO Framework Convention on Tobacco Control FCTC and the tobacco control disputes lodged before the WTO and international investment tribunals Philip Morris v Uruguay and Australia Plain Packaging The investigation focuses on two main threads the instrumental use of international law in the warlike confrontation between the tobacco control advocates and the tobacco industry and the use of evidence as a weapon in the conflict The book unveils important lessons on the functioning of international organizations the role of corporate actors and civil society organizations and the importance and limits of science in law making and litigation Secondary Rules of Primary Importance in International Law Gábor

Kajtár,Basak Çali,Marko Milanovic,2022-10-31 The focus of this edited volume is the often overlooked importance of secondary rules of international law Secondary rules of international law such as attribution causality and the standard and burden of proof have often been neglected in scholarly literature and have seen fragmented application in international legal

practice Yet the systemic nature of international law entails that coherent and consistent application of such rules is a key element in reinforcing the legitimacy of decisions of international courts and tribunals Accelerated development of international law and international litigation coupled with the fragmented nature of the adjudicatory terrain calls for theoretical scrutiny and systemic analysis of the developments in the judicial treatment of secondary rules This publication makes three important contributions to the study of secondary rules First it offers a comprehensive expert doctrinal analysis of how standard of review causation evidentiary rules and attribution operate in the case law of international courts or tribunals in fields spanning human rights trade investment and humanitarian law Second it comparatively evaluates the divergent layers of meanings and normative expectations attached to secondary rules in international law scholarship as well as in the judicial practice of international courts and tribunals Finally the book investigates the role that secondary rules play in the development of the primary rules in international law and for the legitimacy of the decisions of international courts and tribunals Earlier scholarly works have not problematized the role of secondary rules of international law in adjudication thoroughly *Secondary Rules of Primary Importance in International Law* seeks to fill this gap by emphasizing the consequential nature of these secondary rules and argues that the outcome of litigation is fundamentally shaped by the exact standard of proof standard of review or attribution basis that is chosen by adjudicators As such the book offers an important resource for the study and practice of international law against the backdrop of the wide ranging and fragmented nature of international adjudication

The Politics of Trade and Tobacco Control H. Jarman, 2014-12-22 This book uses the concept of political conflict to examine the effects of globalization on tobacco control policies Analyzing a range of challenges to policies enacted by Australia Canada the United States the European Union and Uruguay the book examines how the global trading system has narrowed the scope of conflicts over tobacco control

Researching Corporations and Global Health Governance Kelley Lee, Benjamin Hawkins, 2016-12-12 The profound changes to the world economy since the late twentieth century have been characterised by a growth in the number and size of transnational corporations In this context there is now increasing evidence of unprecedented reversals in health indicators among populations around the world Research in this area has focused on documenting the global health impacts arising from the economic activity of corporations The challenge for public health researchers is to understand the ways in which corporations are regulated by and participate in global health governance and implications for health and well being across the globe This book is an introductory guide to conducting research on the role of corporations in global health governance from a range of disciplinary perspectives and gives an overview of different approaches methodologies and data sources Also for case studies providing interdisciplinary empirical analysis of the impact of corporations on global health and global health governance see the partner volume <http://www.rowmaninternational.com/books/case-studies-on-corporations-and-global-health-governance>

Global Anti-Vice Activism, 1890-1950 Jessica R. Pliley, Robert Kramm, Harald Fischer-Tiné, 2016-07-04 Vice was one of the

primary shared interests of the global community at the turn of the twentieth century Anti vice activists worked to combat noxious substances such as alcohol drugs and cigarettes and immoral sexual activities such as prostitution Nearly all of these activists approached the issue of vice by expressing worries about the body its physical health and functionality By situating anti vice politics in their broader historical contexts *Global Anti Vice Activism 1890 1950* sheds fresh light on the initiatives of various actors organizations and institutions which have previously been treated primarily within national and regional boundaries Looking at anti vice policy from both social and cultural historical perspectives it illuminates the centrality of regulating vice in imperial and national modernization projects The contributors argue that vice and vice regulation constitute an ideal topic for global history because they bridge the gap between discourse and practice and state and civil society

Understanding Public Policy Paul Cairney, 2019-11-08 The fully revised second edition of this textbook offers a comprehensive introduction to theories of public policy and policymaking The policy process is complex it contains hundreds of people and organisations from various levels and types of government from agencies quasi and non governmental organisations interest groups and the private and voluntary sectors This book sets out the major concepts and theories that are vital for making sense of the complexity of public policy and explores how to combine their insights when seeking to explain the policy process While a wide range of topics are covered from multi level governance and punctuated equilibrium theory to Multiple Streams analysis and feminist institutionalism this engaging text draws out the common themes among the variety of studies considered and tackles three key questions what is the story of each theory or multiple theories what does policy theory tell us about issues like evidence based policymaking and how universal are policy theories designed in the Global North This book is the perfect companion for undergraduate and postgraduate students studying public policy whether focussed on theory analysis or the policy process and it is essential reading for all those on MPP or MPM programmes New to this Edition New sections on power feminist institutionalism the institutional analysis and development framework the narrative policy framework social construction and policy design A consideration of policy studies in relation to the Global South in an updated concluding chapter More coverage of policy formulation and tools the psychology of policymaking and complexity theory Engaging discussions of punctuated equilibrium the advocacy coalition framework and multiple streams analysis

The Oxford Handbook of Classics in Public Policy and Administration Steven J. Balla, Martin Lodge, Edward Page, 2015 This Handbook brings together a collection of leading international authors to reflect on the influence of central contributions or classics that have shaped the development of the

field of public policy and administration The Handbook reflects on a wide range of key contributions to the field selected on the basis of their international and wider disciplinary impact Focusing on classics that contributed significantly to the field over the second half of the 20th century it offers insights into works that have explored aspects of the policy process of particular features of bureaucracy and of administrative and policy reforms Each classic is discussed by a leading international scholars They offer unique insights into the ways in which individual classics have been received in scholarly debates and disciplines how classics have shaped evolving research agendas and how the individual classics continue to shape contemporary scholarly debates In doing so this volume offers a novel approach towards considering the various central contributions to the field The Handbook offers students of public policy and administration state of the art insights into the enduring impact of key contributions to the field *Great Policy Successes* Paul 't Hart, Mallory E. Compton, 2019 Despite their many failings and the perennial political controversies that surround them governments sometimes get it right in a big way We can learn much from examining when and how this occurs This book tells the story of 15 instances of highly successful government reforms programmes and projects from around the world **The Politics of Evidence-Based Policy Making** Paul Cairney, 2016-04-11 The Politics of Evidence Based Policymaking identifies how to work with policymakers to maximize the use of scientific evidence Policymakers cannot consider all evidence relevant to policy problems They use two shortcuts rational ways to gather enough evidence and irrational decision making drawing on emotions beliefs and habits Most scientific studies focus on the former They identify uncertainty when policymakers have incomplete evidence and try to solve it by improving the supply of information They do not respond to ambiguity or the potential for policymakers to understand problems in very different ways A good strategy requires advocates to be persuasive forming coalitions with like minded actors and accompanying evidence with simple stories to exploit the emotional or ideological biases of policymakers *The Scottish Political System Since Devolution* Paul Cairney, 2012-01-30 This book presents a narrative of Scottish politics since devolution in 1999 It compares eight years of coalition government under Scottish Labour and the Scottish Liberal Democrats with four years of Scottish National Party minority government It outlines the relative effect of each government on Scottish politics and public policy in various contexts including high expectations for new politics that were never fully realised the influence of and reactions from the media and public the role of political parties the Scottish Government's relations with the UK Government EU institutions local government quasi governmental and non governmental actors and the finance available to fund policy initiatives It then considers how far Scotland has travelled on the road to constitutional change comparing the original devolved framework with calls for independence or a new devolution settlement The book draws heavily on information produced since 1999 by the Scottish Devolution Monitoring project which forms one part of the devolution monitoring project led by the Constitution Unit UCL and is supplemented by new research on public policy minority government intergovernmental relations and constitutional

change **Smoking Geographies** Ross Barnett, Graham Moon, Jamie Pearce, Lee Thompson, Liz Twigg, 2017-02-09 Smoking Geographies provides a research led assessment of the impact of geographical factors on smoking The contributors uncover how geography can show us not only why people smoke but also broader issues of tobacco control providing deeper clarity on how smoking and tobacco is governed The text centres on one of the most important public health issues worldwide and a major determinant of preventable mortality and morbidity in developed and developing countries Records the outcomes of a long term research collaboration that brings a geographical lens to smoking behaviour Uncovers how geography can play a part in understanding not only why people smoke but also broader issues of tobacco control Provides a deeper understanding of how smoking and tobacco is governed regarding where people may smoke but also more subtle governance as a climate is produced in which smoking becomes denormalised Brings both quantitative and qualitative perspectives to bear on this major source of mortality and morbidity **European Union Public Health Policy** Scott Greer, Paulette Kurzer, 2013-02-11 Ranging from influence over world trade laws affecting health to population health issues such as obesity to the use of comparative data to affect policy the EU s public health policies are increasingly important visible expensive and effective They also provide an invaluable case study for those who want to understand the growth and impact of the EU as well as how states can affect their populations lives and health European Union Public Health Policy capitalizes on extensive new research providing an introduction to the topic and indicating new intellectual directions surrounding the topic An introductory section and extended conclusion explore the meaning of public health the relationship of EU public health policy to health care policy and the place of public health in the study of European integration and Europeanization Focusing on health system transformation global health governance and population health the chapters address Relevant policy issues and EU policies Effects of the EU policies on practice or outcomes An explanation of the policy trajectory Current issues and likely future directions or conflicts Drawing together an international and multidisciplinary selection of experts this volume is an important contribution for all those interested in public health policy EU health policy and EU governance Life-Course Smoking Behavior Dean R. Lillard, Rebekka Christopoulou, 2015-05-26 Despite efforts to curb tobacco use global tobacco addiction remains as strong as ever Smoking rates are declining very slowly in advanced countries and they are increasing in the developing world Yet researchers still do not fully understand what drives smoking decisions Life Course Smoking Behavior presents smoking trajectories of different generations of women and men from ten of the world s most visible countries with nation specific representative samples spanning more than eighty years of recent history To inspire hypotheses on the determinants of smoking behavior the authors place these data in economic political social and cultural contexts which differ greatly both across countries at a particular time and over time in a given country Though significant research has been conducted on smoking statistics and tobacco control policies most descriptions of smoking behavior rely on cross sectional snapshot data that do not track individuals habits throughout their lifespan Lillard and Christopoulou s

work is a unique and necessary text in its comparative life course approach making it a long overdue complement to the existing literature

Life-course Smoking Behavior Dean Reginald Lillard, Rebekka Christopoulou, 2015 This resource presents smoking trajectories of different generations of women and men from ten of the world's most visible countries with nation specific representative samples spanning more than eighty years of recent history To inspire hypotheses on the determinants of smoking behaviour the authors place these data in economic political social and cultural contexts which differ greatly both across countries at a particular time and over time in a given country

Moral Jeopardy Peter J. Adams, 2016-06-06 Tobacco alcohol and gambling corporations have been highly effective in stalling diverting and blocking public health measures This book provides an original and engaging expos of the ethical issues faced by people and organizations when they accept industry money in ways that facilitate corporate influence with the public and with policy makers It starts with a detailed examination of the risks of accepting such profits and what might be done to reduce them then moves on to introduce the concept of a continuum of moral jeopardy which shifts the emphasis from accept not accept binaries to a focus on the extent to which people are willing to accept funding This shift encourages people to think and speak more about the risks and to develop clearer positions for themselves The content will be helpful to those working in government agencies addiction services community organizations or anyone interested in reducing the harms of addictive consumption
