The global pharmaceutical industry is currently estimated to be worth 1 trillion Contributors chart the rise of scientific marketing within the industry from 1920 1980 This is the first comprehensive study into pharmaceutical marketing demonstrating that many new techniques were actually developed in Europe before being exported to America Global Health Governance and the Fight Against HIV/AIDS W. Hein,S. Bartsch,L. Kohlmorgen,2007-08-09 The devastating effects of HIV AIDS have propelled a multiplicity of activities at global national and local level This book is based on in depth studies of the major global institutions in health the role of pharmaceutical corporations the functions of NGOs and national responses to HIV AIDS in two key case studies Brazil and South Africa *Economy* Ron Martin,2017-11-30 Economic geographers have always argued that space is key to understanding the economy that the processes of economic growth and development do not occur uniformly across geographic space but rather differ in degree and form as between different nations regions cities and localities with major implications for the geographies of wealth and welfare This was true in the industrial phase of global capitalism and is no less true in the contemporary era of post industrial knowledge driven global capitalism Indeed the marked changes occurring in the structure and operation of the economy in the sources of wealth creation in the organisation of the firm in the nature of work in the boundaries between market and state and in the regulation of the socio economy have stimulated an unprecedented wave of theoretical conceptual and empirical enquiry by economic geographers Even economists who traditionally have viewed the economy in non spatial terms as existing on the head of the proverbial pin are increasingly recognising the importance of space place and location to understanding economic growth technological innovation competitiveness and globalisation This collection of previously published work though containing but a fraction of the huge explosion in research and publication that has occurred over the past two decades seeks to convey a sense of this exciting phase in the intellectual development of the discipline and its importance in grasping the spatialities of contemporary economic life **Leading Pharmaceutical Innovation** Oliver Gassmann,Alexander Schuhmacher,Max von Zedtwitz,Gerrit Reepmeyer,2018-05-10 Pharmaceutical giants have been doubling their investments in drug development only to see new drug approvals to remain constant for the past decade This book investigates and highlights a set of proactive strategies aimed at generating sustainable competitive advantage for its protagonists based on value generating business practices We focus on three sources of pharmaceutical innovation new management methods in the drug development pipeline new technologies as enablers for cutting edge R D and new forms of internationalisation such as outside in innovation in the early phases of R D The Spatial and Economic Transformation of Mountain Regions Manfred Perlik,2019-01-03 Mountain regions are subject to a unique set of economic pressures they act as collective enterprises

which have to valorize rare resources such as spectacular landscapes While primarily rural in nature they often border large cities and the development of industries such as hydroelectric power and the rapid development of tourism can bring about sweeping socio economic change and vast demographic alterations The Spatial and Economic Transformation of Mountain Regions describes the socio economic changes and spatial impacts of the last four decades with the transformation of mountain areas held up as an example Much of the real world context draws on the Alps spanning as they do the significant economies of France Italy Germany Switzerland and Austria Chapters address academic discourse on regional development in these mountain areas and suggest alternative approaches to the liberal productivist societal model This book will be essential reading for professionals institutions and NGOs searching for counter models to the existing marketing approaches for peripheral areas It will also be of interest to students of regional development economic geography environmental studies and industrial economics

Transitioning to Decent Work and Economic Growth Philipp Aerni, Marianthe Stavridou, Isabelle Schlupe, 2021-06-25 According to the United Nations Development Program UNDP and the United Nations Conference on Trade and Development UNCTAD the private sector plays a key role in achieving the UN Sustainable Development Goals SDGs After all sustainable and inclusive economic growth is essential to enable more people to participate in global prosperity Encouraging entrepreneurship and job creation are key to SDG 8 as are effective measures to eradicate forced labor slavery and human trafficking Since more than 90 percent of jobs are created by the private sector more attention must be paid to entrepreneurs that help create dynamic and responsible enterprises that often generate positive externalities for society and the environment through investments in scalable innovations and a commitment to local embeddedness As such they help lift people out of poverty through new and relatively well paid jobs and enable local economies to become more sustainable through global value chain integration Transitioning to Decent Work and Economic Growth explores the prospects for SDG 8 in the Global South as well as the Global North It especially considers the positive role the private sector may play as an enabler of human rights creator of decent work and engine for inclusive development in different contexts Further it examines how the institutional environment can facilitate economic change which may lead to social empowerment and enhanced economic opportunities A key question the volume explores is how in an entrepreneurial context innovation and scientific knowledge contribute to the creation of scalable innovation that help to decouple economic growth from the use of natural resources Transitioning to Decent Work and Economic Growth is part of MDPI's new Open Access book series Transitioning to Sustainability With this series MDPI pursues environmentally and socially relevant research which contributes to efforts toward a sustainable world Transitioning to Sustainability aims to add to the conversation about regional and global sustainable development according to the 17 SDGs The book series is intended to reach beyond disciplinary even academic boundaries For use of the SDG logos and design please see the according Guidelines for the use of the SDG logo color wheel and 17 icons

Cultivating Corporate Innovation Bertelsmann

Stiftung,2010-07-30 Innovation over the last years has become one of the most used terms in corporate practice and management theory Companies hardly have an alternative to constantly fostering innovation if they want to survive in the long run In order to achieve constant willingness and capacity for innovations taking along employees on this path establishing transparency about the necessity of innovation and creating the framework conditions for creative motivated performance with the help of corporate culture are necessary preconditions Granting entrepreneurial freedom within as decentral structures as possible delegating responsibility in combination with profit sharing and leading a partnership based dialogue among all stakeholders transports identification with the company and the tasks This again encourages the willingness to perform and change among employees as well as the competitiveness of the company Three case studies of internationally successful corporations prove this context and give impulses to shape an innovation friendly corporate culture
