It is positioned diagonally across the cover, with its head pointing towards the top right and its tail towards the bottom left.

Defeating Darwinism by Opening Minds Phillip E. Johnson, 1997-07-07 Phillip E Johnson provides an easy to understand guide on how to effectively engage the debate over creation and evolution [Darwinism Defeated?](#) Phillip E. The Right Questions Phillip E. Johnson, 2009-09-20 An ECPA 2003 Gold Medallion Finalist Phillip E Johnson pries the lid off public debate about questions of ultimate concern questions often suppressed by our society's intellectual elite Moving far beyond matters of creation and evolution Johnson outlines the questions we all ought to be asking about the meaning of human history the limits of scientific inquiry religion and education in a pluralistic society truth liberty and moral choices and God and His Word Jesus Christ Johnson deftly demonstrates how the reigning naturalistic philosophy not only squelches public debate but also constrains us to ask the wrong questions Unless we start with the right questions Johnson argues our discussions will be framed by the assumptions of that very philosophy which must be challenged Johnson asserts that even the Christian church has much too often passively accepted this limiting frame of mind to the detriment of all But Christian faith and conviction instead ought to lead in opening up the search for truth and meaning through the kind of public education that teaches in controversy Then all of us will be prepared to engage in lively informed and civil debate about the questions that really matter Why is it always wrong to mix science and religion What is the ultimate premise the beginning point from which logic should proceed How can a college education prepare students to understand the ultimate purpose or meaning for which life should be lived and to choose rightly from among the available possibilities What is the appropriate understanding of religion in a pluralistic nation where substantial numbers of Christians agnostics Jews and Muslims all need to live together in peace How can democratic liberalism remain viable when severed from its Christian roots What is the most important event in human history Provocative personal persuasive and prophetic Johnson is certain to help us break free from our intellectual and spiritual captivity

Reading Genesis after Darwin Stephen C Barton, David Wilkinson, 2009-11-11 Charles Darwin's *On the Origin of Species* has changed the landscape of religious thought in many ways There is a widespread assumption that before Darwin all Christians believed that the world was created some 6 000 years ago over a period of 6 days After Darwin the first chapters of Genesis were either rejected totally by skeptics or defended vehemently in scientific creationism This book tells a very different story Bringing together contributions from biblical scholars historians and contemporary theologians it is demonstrated that both Jewish and Christian scholars read Genesis in a non literal way long before Darwin Even during the nineteenth century there was a wide range of responses from religious believers towards evolution many of them very positive Stephen C Barton and David Wilkinson argue that being receptive to the continuing relevance of Genesis today regarding questions of gender cosmology and the environment

Worldviews and Christian Education W. Shipton,2013-08-14 Christ's instruction to his disciples was to witness to others about his plan of salvation. This may be relatively easy when it involves our contemporaries and peers. But when we are working with people from a different cultural background or belief system it can be difficult or seemingly impossible. In *Worldviews and Christian Education* editors W. A. Shipton, E. Coetzee, and R. Takeuchi have brought together works by experts in cross-cultural religious education. The authors and editors have a wealth of personal experience in presenting the gospel to individuals with various worldviews that differ greatly from those held by Christians who take the Bible as authoritative. They focus on the beliefs and issues associated with witnessing to seekers for truth coming from backgrounds as diverse as animism, Buddhism, Confucianism, Hinduism, Islam, Marxism, Taoism, and postmodernism. The emphasis is on educational settings, but the sensitivities highlighted and lessons learned are applicable to situations outside this area. Leaders, pastors, teachers, and laypersons will find valuable conceptual models, practical ideas, and bibliographic references presented here. *Worldviews and Christian Education* challenges all readers to be faithful to the biblical worldview and to approach everyone with sensitivity so that like the apostle Paul they may reach some. **God and Humanity at Marshall** Mark

Coppenger,2020-09-21 The movie *We Are Marshall* brought national attention to the tragic loss and dramatic reconstitution of the school's football team. But neither this film nor the Emmy-winning documentary *Marshall University: Ashes to Glory* explores the spiritual context and effect of the plane crash. Few know that a visiting campus preacher touched the life of a popular defensive lineman the week before his ill-fated flight; that a campus minister was surprised several weeks later by a nighttime visit from students who'd come to ask the Jesus man how to be saved; that two years before the crash a new young professor with a doctorate from India enlisted five students to help evangelize the campus; and that three decades later a devout linebacker urged the coach to change the name of a play since it was demeaning to women. The story extends back to the school's log-church beginnings up through the decades when campus Ys generated foreign missionaries to the national championship years when key players testified freely to their faith, nearly two centuries of spiritual highs and yes, lows in the life of this remarkable school. **Essays and Thoughts** Lorin C. Saunders,2021-01-26 This book has been written to my

posterity so that they can learn of my thoughts and philosophy. It is not written with any order in mind; it's just a collection of some of the thoughts that are important to me and will give the reader a glimpse of how I think and express my feelings. The reader will even find three of my stories I made up while I was traveling around Switzerland sitting in the back seat with my grandchildren. I included them in this book because my granddaughter Brooke asked me to. She was one of those who originally heard the stories. Besides, I liked them, and when I remember or re-read them, it reminds me of a joyful time in my life.
