Defending Democracy And Securing Diversity:

Defending Democracy and Securing Diversity Christian Leuprecht, 2013-09-13 Old sergeants say we're here to defend democracy not to practice it. But are they right? The special mandate with which defence and security organizations are tasked imposes unique constraints with respect to the accommodation of diversity which differs from those faced by any other public or private organization. Yet the compound effect of demographic, political, economic, social and legal pressures is making diversity as inevitable in the defence and security sector as in any other organization in advanced industrialized democracies. Owing in part to a dearth of research on the way the defence and security sectors can leverage diversity to enhance their functional imperatives, such sectors have been reticent about diversity. The chapters in this volume strive to enlighten the debate by laying out the concepts, clarifying theoretical issues and providing empirical evidence. The case studies draw on Canada, Guyana, the Netherlands, South Africa and the United Kingdom. They examine ethno-cultural, gender and sexual minority diversity in a variety of missions including Bosnia Herzegovina and Afghanistan. The chapters are notable for their methodological pluralism and interdisciplinary range including political science, sociology, anthropology and psychology. Although scholarly in nature, the book is readily accessible to professionals and practitioners alike. This book was published as a special issue of *Commonwealth and Comparative Politics*.

Democracy Promotion in the EU's Neighbourhood Sandra Lavenex, Frank Schimmelfennig, 2013-09-13 EU external democracy promotion has traditionally been based on linkage, i.e. bottom-up support for democratic forces in third countries and leverage, i.e. the top-down inducement of political elites towards democratic reforms through political conditionality. The advent of the European Neighbourhood Policy and new forms of association have introduced a new third

model of democracy promotion which rests in functional cooperation between administrations This volume comparatively defines and assesses these three models of external democracy promotion in the EU's relations with its eastern and southern neighbours It argues that while linkage has hitherto failed to produce tangible outcomes and the success of leverage has basically been tied to an EU membership perspective the governance model of democracy promotion bears greater potential beyond the circle of candidate countries This third approach while not tackling the core institutions of the political system as such but rather promoting transparency accountability and participation at the level of state administration may turn out to remain the EU's most tangible form of democratic governance promotion in the future This book was originally published as a special issue of *Democratization*

New Armies from Old Roy Licklider, 2014-04-15 Negotiating a peaceful end to civil wars which often includes an attempt to bring together former rival military or insurgent factions into a new national army has been a frequent goal of conflict resolution practitioners since the Cold War In practice however very little is known about what works and what doesn't work in bringing together former opponents to build a lasting peace Contributors to this volume assess why some civil wars result in successful military integration while others dissolve into further strife factionalism and even renewed civil war Eleven cases are studied in detail Sudan Zimbabwe Lebanon Rwanda the Philippines South Africa Mozambique Bosnia Herzegovina Sierra Leone Democratic Republic of the Congo and Burundi while other chapters compare military integration with corporate mergers and discuss some of the hidden costs and risks of merging military forces *New Armies from Old* fills a serious gap in our understanding of civil wars their possible resolution and how to promote lasting peace and will be of interest to scholars and students of conflict resolution international affairs and peace and security studies

Strengthening the Canadian Armed Forces through Diversity and Inclusion Alistair Edgar, Rupinder Mangat, Bessma Momani, 2019-11-20 The Canadian Armed Forces has not always embraced diversity and inclusion but its future depends on it As the country's demographic makeup changes its military must adapt to a new multicultural reality and diminishing pools of people from which it can recruit Canada's population is increasingly urbanized immigrant and not necessarily Christian white or bilingual To attract and retain CAF personnel the military will have to embrace and champion diversity while demonstrating that it is inclusive Using a number of cases to highlight both challenges and opportunities *Strengthening the Canadian Armed Forces through Diversity and Inclusion* provides a timely look at an established Canadian institution in a rapidly changing world The editors explore how Canadian Muslim youth LGBTQ individuals women racialized minorities Indigenous communities and people of non-Christian faiths see their experiences in the CAF While diversity is a reality inclusion is still a work in progress for the Canadian Armed Forces as it is for society at large

Women, Warfare and Representation Emerald M. Archer, 2017-07-13 Women Warfare and Representation considers the various ways the American servicewoman has been represented throughout the 20th century and how those representations impact the roles she is permitted to inhabit While women have a relatively short history in the American military the last century shows an evolution of women s direct participation in war despite the need to overcome societal sex role expectations The primary focus is on the American case but Emerald Archer also introduces a comparative element showing how women s integration in the military differs in other countries including Great Britain Canada and Israel Adopting an interdisciplinary approach the book draws on military history theory and social psychology to offer a more complete and integrated history of women in the military and their representation in society

There Was Another Country W. Forje, 2021-08-11 In this comprehensive well reasoned critical richly documented and boldly argued account on the Anglophone Southern Cameroons Ambazonia crisis John Forje a foremost scholar of identity politics in Cameroon offers insightful explorations and explanations of histories and cultures of telling truth to power that have come to

be associated with the people of the English speaking region of Cameroon The book offers realistic perspectives for the reinstitution of justice equality and democratic governance in a country of plenty but lavishing in endemic underdevelopment Forje argues among other things that the current Anglophone crisis is the exhibition of one reality that more than half a century after independence and unification most Cameroonians are grossly disillusioned with their leaders The country has had only two presidents since independence Ahmadou Ahidjo and Paul Biya with the latter occupying the presidency for 40 years since 1982 and counting If something concrete is not undertaken now the cleavages of division would widen to a dangerous end Dark clouds hang over the future of the country Uncertainty about national unity and stability is hardly a solid foundation for a country aspiring to be an emerging polity by 2035 There is an urgent need for a broader dimension of political dispensation in Cameroon The book calls for proper soul searching critical analysis and a new comprehensive and visionary mindset to build a new country out of the ashes of the existing crumbling or failed polity The need to re rail Cameroon on the democratic train and on the path of sustainable development cannot be overemphasized The Oxford Handbook of Diversity in Organizations Regine Bendl, Inge Bleijenbergh, Elina Henttonen, Albert J. Mills, 2015-11-12 In the last decades diversity and its management has become a feature of modern and postmodern organizations Different practices have spread around the globe focusing on the organizing and management of inclusion and exclusion of persons and identities based on different genders sexual orientations racial and ethnic backgrounds ages and disabilities as well as religious beliefs However although increasingly recognized as important the discourses of diversity are multifaceted and not without controversy Furthermore diversity management practices have the potential to reproduce both inclusion and exclusion The book presents the foundations of organizing and managing diversities offers multidisciplinary intersectional and critical analyses on key issues and opens up fresh perspectives in order to advance the diversity debate It also inspires new debates on diversity by encouraging scholars to broaden their research agendas and assists students and scholars to increase their understanding of the field and its current discussions The contributors are a team of leading diversity scholars from all over the world *Singapore And Multilateral Governance: Securing Our Future* Noeleen Heyzer, 2022-10-26 Dr Noeleen Heyzer is the Institute of Policy Studies 10th S R Nathan Fellow for the Study of Singapore This book is an edited collection of her three IPS Nathan Lectures delivered in November and December 2021 and includes highlights of her question and answer segments with our audience Dr Heyzer examines how Singapore can continue to contribute to multilateral governance amid 21st century global challenges Highly dependent on multilateral governance Singapore has to engage the region and contribute to the multilateral global order Dr Heyzer highlights the need for Singapore to build a mindset of solidarity as self interest contribute to a normative future that is equitable inclusive and sustainable and rethink our current multilateral governance framework What does a renewed multilateralism look like Can Singapore become an epicentre for this new multilateralism And critically how can we secure our common future and shape what we become as a

nation The IPS Nathan Lecture series was launched in 2014 as part of the S R Nathan Fellowship for the Study of Singapore named after Singapore's sixth and longest serving president It seeks to advance public understanding and discussion of issues of critical national interest for Singapore

Europe in the Global Age Anthony Giddens, 2013-05-02 Europe's social model its system of welfare and social protection is regarded by many as the jewel in the crown It is what helps to give the European societies their distinctive qualities of social cohesion and care for the vulnerable Over recent years however the social model has come under great strain in many states within the European Union unemployment for example remains stubbornly high The resulting tensions have fuelled dissatisfaction with the European project as a whole culminating in the rejection of Europe's proposed new constitution Reform of the social model is therefore a matter of urgency It has to go hand in hand with the quest to regenerate economic growth The weaker performers in Europe over the past few years can learn a good deal from states that have coped more effectively But more radical changes need to be contemplated in the face of the impact of globalization rapidly increasing cultural diversity and changing demography The author argues that the traditional welfare state needs to be rethought We have to bring lifestyle change into

the heart of what welfare means Moreover environmental issues must be directly connected to other citizenship obligations These innovations have to be made at the same time as Europe's competitive position is upgraded This original and path breaking book will rank alongside *Beyond Left and Right* The Third Way and other works by Anthony Giddens that have helped reshape social and political thinking over recent decades *Speeches and Proceedings Bali Democracy Forum II*
