DEFENDING IDENTITY

ITS INDISPENSABLE ROLE IN PROTECTING DEMOCRACY

Defending Identity Its Indispensable Role In Protecting Democracy

Steven Rosefielde, Daniel Quinn Mills

Defending Identity Its Indispensable Role In Protecting Democracy:

Defending Identity Andrew A. Rooney, Natan Sharansky, 2010-10 Who is better prepared to confront challenges and defend principles in a volatile modern world Those with strong national religious ethnic or tribal identities who accept democracy or democrats who renounce identity as a kind of divisive prejudice Natan Sharansky building on his personal experience as a dissident argues that valueless cosmopolitanism even in democracies is dangerous Better to have hostile identities framed by democracy than democrats indifferent to identity In a vigorous insightful challenge to the left and right alike Natan Sharansky as he has proved repeatedly is at the leading edge of the issues that frame our times Defending Identity Natan Sharansky, 2008-06-03 Who is better prepared to confront challenges and defend principles in a volatile modern world Those with strong national religious ethnic or tribal identities who accept democracy or democrats who renounce identity as a kind of divisive prejudice Natan Sharansky building on his personal experience as a dissident argues that valueless cosmopolitanism even in democracies is dangerous Better to have hostile identities framed by democracy than democrats indifferent to identity In a vigorous insightful challenge to the left and right alike Natan Sharansky as he has proved repeatedly is at the leading edge of the issues that frame our times *Leo Strauss and Anglo-American Democracy* Grant N. Havers, 2013-10-15 Leo Strauss and Anglo American Democracy critically interprets Strauss's political philosophy from a conservative perspective Most mainstream readers of Strauss have either condemned him from the Left as an extreme right wing opponent of liberal democracy or celebrated him from the Right as a traditional defender of Western civilization Rejecting both portrayals Grant N Havers shifts the debate beyond the conventional parameters stating that Strauss was neither a man of the Far Right nor a conservative but in fact a secular Cold War liberal In *Leo Strauss and Anglo American Democracy* Havers contends that the most troubling implication of Straussianism is that it provides an ideological rationale for the aggressive spread of democratic values on a global basis while ignoring the preconditions that make these values possible Concepts such as the rule of law constitutional government Christian morality and the separation of church and state are not easily transplanted beyond the historic confines of Anglo American civilization as recent wars to spread democracy have demonstrated Globalization against Democracy Guoguang Wu, 2017-04-27 This book explores how global capitalism has reconfigured state market relations and how interactions among capital labor and consumption threaten democracy It is for specialists in political economy political science economics sociology international relations and development studies and for supplemental use on undergraduate and graduate courses on globalization capitalism development and democracy Sovereignty or Submission John Fonte, 2011-09-06 The Twenty First Century is witnessing an epic struggle between the forces of global governance and American constitutional democracy Transnational progressives and pragmatists in the UN EU post modern states of Europe NGOs corporations prominent foundations and most importantly in America's leading elites seek to establish global governance Further they understand that in order to achieve global

governance American sovereignty must be subordinated to the global rule of law The U S Constitution must incorporate evolving norms of international law Sovereignty or Submission examines this process with crystalline clarity and alerts the American public to the danger ahead Global governance seeks legitimacy not in democracy but in a partisan interpretation of human rights It would shift power from democracies U S Israel India to post democratic authorities such as the judges of the International Criminal Court Global governance is a new political form a rival to liberal democracy that is already a significant actor on the world stage America faces serious challenges from radical Islam and a rising China Simultaneously it faces a third challenge global governance that is internal to the democratic world is non violent but nonetheless threatens constitutional self government Although it seems unlikely that the utopian goals of the globalists could be fully achieved if they continue to obtain a wide spread influence over mainstream elite opinion they could disable and disarm democratic self government at home and abroad The result would be the slow suicide of American liberal democracy Whichever side prevails the existential conflict of global governance versus American sovereignty and democratic self government in general will be at the heart of world politics as far as the eye can see

Beleaguered Superpower: Biden's America Adrift Steven Rosefielde, Daniel Quinn Mills, 2021-07-29 As a new president takes over in Washington three intertwined threats imperil the world One is internal The others are external The internal threat is a potent and increasingly anti patriotic anti competitive anti meritocratic and sky is the limit federal deficit spending political current that is simultaneously diminishing and destabilizing American and global economic vitality The two major external threats are the rising military power of Russia China North Korea and Iran and a global economic malaise sowing the seeds of discontent America's role in containing the spread of new wave authoritarianism and fostering competitiveness and global prosperity is critical but domestic politics is preventing the Biden administration from adequately responding to these challenges Biden's America is adrift America is key to the survival of the free world America is currently a beleaguered superpower This book is possibly the first to address the politics shaping the likely course of America's new president in world affairs It is politics not idealist and realist abstractions which determine international security The world is concerned about what course Biden will take and the likely consequences It will be the most carefully researched of such books The book deals explicitly and extensively with issues such as spreading authoritarianism the emerging new Cold War global growth retardation civic discord economic sanctions arms control soft power and the deteriorating correlation of forces The China weapons section of the book draws from the latest assessment made by the American Department of Defense The book also includes a section on China's new technology generating innovation model and a chapter on Covid 19

The Jewish Odyssey of George Eliot Gertrude Himmelfarb, 2009 Provocation to readers and critics alike

Through the Global Lens Michael Strada, 2021-04-14 Through the Global Lens uses a global perspective to analyze human affairs This text looks at each of the six social sciences sociology anthropology political science economics psychology and geography and uses case studies feature film analyses

maps and photos to highlight important historical events and concepts throughout **Shakespeare and Faulkner** Karl F. Zender, 2021-06-02 Shakespeare and Faulkner explores the moral and ethical dilemmas that characters face inside themselves and in their interactions with others in the works of these two famed authors Karl F Zender's characterological study offers insightful critically rigorous and at times quite personal analyses of the complicated figures who inhabit several major Shakespeare plays and Faulkner novels The two parts of this book the first of which focuses on the English playwright the second on the Mississippi novelist share a common methodology in that they originate in Zender's history as a teacher of and writer on the two authors who until now he generally approached separately He emphasizes the evolving insights gleaned from reading these authors over several decades situating their texts in relation to shifting trends in criticism and highlighting the contemporary relevance of their works The final chapter an extended discussion of Faulkner's *Intruder in the Dust* attempts something unusual in Zender's critical practice It relies less on the close textual analysis that characterizes his previous work and instead explores the intersections between events depicted in the novel and his own life both as a child and as an adult Shakespeare and Faulkner speaks to the power of literature as a form of pleasure and of solace With this work of engaged and thoughtful scholarly criticism Zender reveals the centrality of storytelling to human beings efforts to make sense both of their journey through life and of the circumstances in which they live *We're in Danger! Who Will Help Us?* James N. Purcell Jr., 2019-03-19 Victims of wars oppression and famine depend on well prepared interventions for their basic survival Yet in the twenty first century the world's conscience has gone dormant and governments have been left free to ignore or trivialize their moral obligations to humankind Caring societies cannot hide from these daunting humanitarian challenges As in the past only experienced bold leadership can marshal allies for proposed twenty first century solutions *We're in DANGER Who Will HELP Us* is the chronicle of one humanitarian leader's experience working on behalf of civilian victims of war oppression and famine fully revealed in American know how initiative and grit James N Purcell Jr writes from leadership perspectives gained directing global humanitarian organizations and shares his and his team's daring interventions into the humanitarian crisis in Indochina following the Vietnam War and in other world regions interventions that saved protected and restored the lives of millions of refugees Presidents feisty congressional debates and strong volunteer groups helped Purcell and his team marshal allies for twentieth century solutions and today he makes the case for the same unyielding spirit for humanitarian crises in Syria the Middle East Africa Asia and Central America Civilization's new test is whether we can help free the world's conscience and regain a sense of moral outrage purpose and resolve to face our responsibilities directly and to act As caring members of the international community we must determine our appropriate and equitable roles in solving systemic dysfunctions that bring people to the brink of despair and help those we can *A State Beyond the Pale* Robin Shepherd, 2009-09-10 *A State Beyond the Pale* looks at the roots of anti Israeli sentiment in Europe The Jewish state of Israel has now acquired the status of a pariah across much of the West and especially in Europe

For many it has become the contemporary equivalent of apartheid South Africa a system and a state with no legitimate place in the modern world Israel's conflict with the Palestinians and the wider Muslim world also takes place across one of the great fault lines in global politics No one with a serious interest in international affairs can ignore it But why have so many people and institutions of influence in Europe chosen to place themselves on the side of that fault line which opposes Israel Where exactly does all this hostility come from Can this really be put down to a revival of anti-Semitism on a continent which gave the world the Holocaust A State Beyond the Pale Europe's Problem with Israel looks at the roots of anti-Israeli sentiment in Europe and shows why there is now a risk that it may even spread to the United States In the author's view the Israel Palestine conflict can be seen as a test case for the West's ability to stand up for the values it claims as its own In Europe important institutions and individuals are now failing that test This book explains why *Never Alone* Natan Sharansky, Gil Troy, 2020-09-01 A classic account of courage integrity and most of all belonging In 1977 Natan Sharansky a leading activist in the democratic dissident movement in the Soviet Union and the movement for free Jewish emigration was arrested by the KGB He spent nine years as a political prisoner convicted of treason against the state Every day Sharansky fought for individual freedom in the face of overt tyranny a struggle that would come to define the rest of his life *Never Alone* reveals how Sharansky's years in prison many spent in harsh solitary confinement prepared him for a very public life after his release As an Israeli politician and the head of the Jewish Agency Sharansky brought extraordinary moral clarity and uncompromising often uncomfortable honesty His story is suffused with reflections from his time as a political prisoner from his seat at the table as history unfolded in Israel and the Middle East and from his passionate efforts to unite the Jewish people Written with frankness affection and humor the book offers us profound insights from a man who embraced the essential human struggle to find his own voice his own faith and the people to whom he could belong **The Handbook of Global Communication and Media Ethics** Robert S. Fortner, P. Mark Fackler, 2011-03-21 This groundbreaking handbook provides a comprehensive picture of the ethical dimensions of communication in a global setting Both theoretical and practical this important volume will raise the ethical bar for both scholars and practitioners in the world of global communication and media Selected by Choice as an Outstanding Academic Title for 2011 Brings together leading international scholars to consider ethical issues raised by globalization the practice of journalism popular culture and media activities Examines important themes in communication ethics including feminism ideology social responsibility reporting metanarratives blasphemy development and glocalism among many others Contains case studies on reporting censorship responsibility terrorism disenfranchisement and guilt throughout many countries and regions worldwide Contributions by Islamic scholars discuss various facets of that religion's engagement with the public sphere and others who deal with some of the religious and cultural factors that bedevil efforts to understand our world **Theology of the Hebrew Bible, Volume 2** Soo Kim Sweeney, David Frankel, Marvin A. Sweeney, 2024-10-18 This follow up to *Theology of the Hebrew Bible Volume 1*

Methodological Studies focuses on readers engagement with the text and their communities Part 1 offers fresh interpretations of divine images and theological concepts drawn from various theophanies in the text Part 2 focuses on how these insights can form new overarching structures serving as reading strategies or foundations for alternative theologies Part 3 emphasizes the bond between readers and their communities highlighting the active participation of both ancient and modern readers through an analysis of past literature Contributors each an expert in their field include Rachel Adelman Samuel E Balentine Shelly L Birdsong Ginny Brewer Boydston Johanna Etzberger Frances Flannery David Frankel Barry R Huff Hyun Chul Paul Kim Barbara Leung Lai J Richard Middleton Hye Kyung Park Kris Sonek Brent A Strawn David E S Stein Marvin A Sweeney Soo Kim Sweeney Joseph Sykora Daniel C Timmer and Beat Weber This collection of essays guides readers including those well versed in theology to explore innovative and unexpected depictions of divine beings and how human characters respond to them

The Gulf Cooperation Council States Yousef Khalifa Al-Yousef, 2017-02-27 Since the oil boom of the 1970s the Gulf Cooperation Council States have attempted to achieve economic stability and realise their development goals Such efforts have so far been in vain however as these states autocratic governments have closed off their political systems with the support of international allies especially the United States In this timely and exhaustive analysis of the political economies of the GCC since the 1970s to the present Yousef Khalifa Al Yousef examines the factors responsible for the failure of the states to achieve lasting change in development and security Focusing on institutional structures where oil wealth has been confined to the few and the consequences of failed legitimacy at home that has led to dependence on foreign powers Al Yousef charts the consistent disparities between governance and the needs of the local population to the detriment of genuine development Al Yousef concludes that the only way to ensure stability and growth in the region is to dismantle the alliance of autocracy oil and foreign powers Instead democracy and reform are key to ensuring stability in the region

[Book Review Index - 2009 Cumulation](#) Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year

On Christendom's Far Shore James Larry Hood, 2013-12-18 On Christendom's Far Shore describes and explains American society by first illuminating its foundational stones the traditional western Judeo Christian faith in God and the West's once common understanding of the natural order and the nature and destiny of man It explores the biblical concepts of faith paradox tragedy and grace time gender relations love work play individual and communal responsibilities freedom and the Kingdom of Heaven The book illustrates how these ideas and values underlie more specifically American values and American social and governmental

patterns and structures such as the pursuit of knowledge and wisdom the creation of families and larger social groups and communities the mentoring of future generations and people's understanding of self governance and how to relate to other nations On Christendom's Far Shore depicts the present as a time of twilight with the United States caught up in a cataclysmic clash between a traditional understanding of man and of a God centered universe and a post modern existential man centered multicultural worldview that rejects the old values and structures and determinedly seeks a vast restructuring of the nation's social and political order and character

Comprehending and Confronting Antisemitism Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2019-11-05 This volume provides a compendium of the history of and discourse about antisemitism both as a unique cultural and religious category Antisemitic stereotypes function as religious symbols that express and transmit a belief system of Jew hatred which are stored in the cultural and religious memories of the Western and Muslim worlds migrating freely between Christian Muslim and other religious symbolic systems

The History of the Future Max Singer, 2011-07-16 The History of the Future presents a set of ideas about where we are in history It focuses on the great majority of people in each society and shows that life in the modern world will be almost completely different from all previous human experience The present time is best understood as a period of transition during which one country after another is following along parallel paths from traditional to modern The process of becoming modern is so powerful that it will have similar effects on all countries Therefore one can predict the future of countries still undergoing this change by looking at the history of countries which have already completed their transition Singer asserts that a war system has long existed in which the central concern of nations has been to protect their security by military forces and alliances He makes the dramatic claim that because of the inherent nature of modern countries there will be no war system in any region populated solely by modern countries as illustrated by the current situation in Western Europe even though human character will not have improved However despite the fact that poverty tyranny and war will be largely eliminated the modern world may be worse for people than the traditional world because most of the things that shaped human character will be obsolete

Israeli Statecraft Yehezkel Dror, 2011-05-10 This book offers a systematic examination analysis and evaluation of Israeli national security statecraft in terms of challenges and responses Providing an in depth analysis of Israeli statecraft challenges and responses this interdisciplinary book integrates social science and security studies with public policy approaches within a long term historical perspective on the Arab Israeli conflict These scholarly approaches are synthesized with extensive personal knowledge of the author based on involvement in Israeli political security policy making This book makes use of conceptualizations of statecraft such as fuzzy gambling and interventions with critical mass in ultra dynamic historical processes to help clarify Israel's main statecraft successes and failures alongside the wider theoretical apparatuses these concepts represent While focused on Israel these theoretical frameworks have important implications for the academic study of statecraft and statecraft praxis worldwide This book will

be of much interest to both statecraft practitioners and to students of Israeli politics and security the Middle Eastern conflict strategic studies and IR security studies in general

Unveiling the Magic of Words: A Overview of "**Defending Identity Its Indispensable Role In Protecting Democracy**"
