Novels Charles Dickens,1870 *Identity and the Failure of America* John Michael,2008 From Thomas Jefferson to John Rawls justice has been at the center of America s self image and national creed At the same time for many of its peoples from African slaves and European immigrants to women and the poor the American experience has been defined by injustice oppression disenfranchisement violence and prejudice In *Identity and the Failure of America* John Michael explores the contradictions between a mythic national identity promising justice to all and the realities of a divided hierarchical and frequently iniquitous history and social order Through a series of insightful readings Michael analyzes such cultural moments as the epic dramatization of the tension between individual ambition and communal complicity in *Moby Dick* attempts to effect social change through sympathy in the novels of Lydia Marie Child and Harriet Beecher Stowe Ralph Waldo Emerson s antislavery activism and Frederick Douglass s long fight for racial equity and

the divisive figures of John Brown and Nat Turner in American letters and memory Focusing on exemplary instances when the nature of the United States as an essentially conflicted nation turned to force Michael ultimately posits the development of a more cosmopolitan American identity one that is more fully and justly imagined in response to the nation's ethical failings at home and abroad John Michael is professor of English and of visual and cultural studies at the University of Rochester He is the author of *Anxious Intellects Academic Professionals Public Intellectuals and Enlightenment Values and Emerson and Skepticism The Cipher of the World* **A Century of the English Novel** Cornelius Weygandt, 1925 Novel Cleopatras Nicole Horejsi, 2019-04-08 Advocating a revised history of the eighteenth century novel Novel Cleopatras showcases the novel's origins in ancient mythology its relation to epic narrative and its connection to neoclassical print culture Novel Cleopatras also rewrites the essential role of women writers in history who were typically underestimated as active participants of neoclassical culture often excluded from the same schools that taught their brothers Greek and Latin However as author Nicole Horejsi reveals a number of exceptional middle class women were actually serious students of the classics In order to dismiss the idea that women were completely marginalized as neoclassical writers Horejsi takes up the character of Dido from ancient Greek mythology and her real life counterpart Cleopatra the queen of Egypt Together the legendary Dido and historical Cleopatra serve as figures for the conflation of myth and history Horejsi contends that turning to the doomed queens who haunted the Roman imagination enabled eighteenth century novelists to seize the productive overlap among the categories of history romance the novel and even the epic An Outcast on the Island Joseph Conrad, 2024-05-09 Joseph Conrad's *An Outcast of the Islands* 1896 his second novel functions as a prequel to *Almayer's Folly* revisiting the decaying world of European colonialism in the Malay Archipelago The narrative traces the downfall of Peter Willems a disgraced European trader whose moral weakness and arrogance lead him to betray multiple communities first his Dutch employers then the Indigenous people who shelter him Stranded in a remote river settlement Willems becomes entangled with Aissa the daughter of a local leader his obsession with her amplifying his self-destructive spiral Conrad dissects the corrosive effects of racial and cultural entitlement as Willems' belief in his inherent superiority blinds him to the consequences of his actions The novel's dense atmospheric prose mirrors the suffocating isolation of the jungle where human pettiness clashes with the indifferent vastness of nature While critiquing colonial exploitation the text remains entangled in period stereotypes particularly in its exoticized portrayal of Aissa and Malay societies Structurally it experiments with shifting perspectives and moral ambiguity foreshadowing Conrad's later modernist innovations This modern edition of Conrad's classic novel includes a fresh Afterword extensive reference materials including a timeline of Conrad's life and works character glossary and group discussion questions on this literary classic The text of the novel has been slightly edited to remove archaic terminology and make it more readable to the modern reader Where *Almayer's Folly* hinted at moral failure *Outcast* dives fully into its waters showing Willems as a man both driven and devoured by ego With

hypnotic prose and a growing sense of fatalism Conrad paints a vivid portrait of a man unraveling and the treacherous currents that drag him down He is not merely corrupt but corrupted by pride by lust by the very desperation of being cut adrift The jungle looms not just as setting but as psychic terrain lush labyrinthine and indifferent Around Willems native cultures observe and adapt while European figures like Captain Lingard attempt futilely to enforce order on an alien world What emerges is a deeply ironic vision of empire where so called civilization brings not enlightenment but chaos The novel unravels the myth of European exceptionalism through Willems disintegration His initial fall embezzlement and exile is framed not as tragedy but as inevitability the logical endpoint of a man who views himself as inherently entitled to transgress boundaries The jungle dense and unyielding becomes a psychological landscape its labyrinthine rivers and impenetrable foliage mirror Willems escalating delusions of control A ssa though reduced to a colonial trope of the dangerous native woman inadvertently exposes the fragility of his identity Her agency limited by Conrad s Eurocentric lens still disrupts Willems fantasies revealing his dependence on the very cultures he claims to dominate Lingard the merchant captain who alternately rescues and abandons Willems embodies the capriciousness of colonial power a force that creates and discards outcasts to maintain its mythos The narrative s irony is relentless Willems final act of betrayal meant to reclaim power only cements his irrelevance Conrad strips away the romance of going native presenting cross cultural entanglement as a collision of mutual exploitation Even redemption is denied the jungle absorbs Willems failures without notice leaving only the faintest ripple in its indifferent expanse

The Development of the English Novel Wilbur Lucius Cross,1927 *Narrative Framing in Contemporary American Novels* Sławomir Studniarz,2017-05-11 This volume examines a range of novels and novellas published over the course of nearly forty years from 1968 to 2014 including E L Doctorow s Andrew s Brain John Gardner s The King s Indian Paul Auster s Travels in the Scriptorium Peter Straub s Mr X and Joyce Carol Oates Expensive People These texts display one crucial unifying thread they are doubly mediated fictions fictions in parentheses so to speak The application of narrative framing and embedding has been commonly acknowledged and abundantly researched in various works belonging to the Western literary heritage However its use in the twentieth and twenty first century fiction has not been adequately explored perhaps with the exception of the literary creations of such giants as Vladimir Nabokov and John Barth Despite this critical oversight narrative frames prove to be a major resource for modern day novelists who adapt this literary device and very effectively put it to their own uses The essays collected in this volume will serve to spark the revival of interest in this time honored narrative tool demonstrating its validity for research into more recently created novels
