Deleuze And Theology Philosophy And Theology:

Deleuze and Theology Christopher Ben Simpson, 2012-11-02 What can a theologian do with Deleuze While using philosophy as a resource for theology is nothing new Gilles Deleuze 1925 1995 presents a kind of limit case for such a theological appropriation of philosophy a thoroughly modern philosophy that would seem to be fundamentally hostile to Christian theology a philosophy of atheistic immanence with an essentially chaotic vision of the world Nonetheless Deleuze s philosophy can generate many potential intersections with theology opening onto a field of configurations a fractious middle between radical Deleuzian theologies that would think through theology and reinterpret it from the perspective of some version of Deleuzian philosophy and other theologies that would seek to learn from and respond to Deleuze from the perspective of confessional theology to take from the encounter with Deleuze an opportunity to clarify and reform an orthodox Christian self understanding

Rethinking Philosophy and Theology with Deleuze Brent Adkins, Paul R. Hinlicky, 2013-06-06 The debate between faith and reason has been a dominant feature of Western thought for more than two millennia This book takes up the problem of the relation between philosophy and theology and proposes that this relation can be reconceived if both philosophy and theology are seen as different ways of organising affects Brent Adkins and Paul R. Hinlicky break new ground in this timely debate in two ways Firstly they lay bare the contemporary dependence on Kant and propose that our Kantian inheritance leaves us with an insuperable dualism Secondly the authors argue that the philosophy of Gilles Deleuze provides a way of resolving the debate between faith and reason that does justice to philosophy and theology by reconceiving of both as assemblages Deleuze s philosophy differentiates domains of thought in terms of what they create This seems like a particularly fruitful way to pursue the problem of the relations among philosophy and theology because it allows their distinction without at the same time placing them in opposition to one another

Iconoclastic Theology F. LeRon Shults, 2015-02-12 F LeRon Shults explores Deleuze s fascination with theological themes and shows how his entire corpus can be understood as a creative atheist machine that liberates thinking acting and feeling

Theology After Deleuze Kristien Justaert, 2012-06-28 Deleuze s relationship with theology is a complex one Indeed there seem to be many possible objections to such an assemblage taking place In the first book of its kind to engage with this seemingly problematic dialogue Kristien Justaert shows the ways in which Deleuze s thought can in fact advance issues in political and liberation theology in particular while also exploring the important theological and spiritual aspirations contained in Deleuze s philosophy itself as part of his lifelong quest for the Absolute Justaert examines the theological components in Deleuze s writings investigating the theological potential of four notions that circle around the central Deleuzian concept of Life immanence spirituality creativity and politics The book goes on to connect Deleuze with both established theologies and possible theologies for the future identifying areas in which Deleuze can contribute to the dynamics of contemporary theology and argues that aspects of Deleuze s philosophy can enable theology to become more meaningful in a globalised

world This is the ideal introduction to Deleuzian theologies and Deleuze's own theology for advanced undergraduate and postgraduate students *Deleuze and Religion* Mary Bryden, 2002-01-04 Despite the ever expanding body of Deleuzian scholarship single volume has explored the religious dimensions of Deleuze's writing Now Mary Bryden has assembled a team of international scholars to do just that Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate as well as the ways in which it contributes to those debates This volume will be invaluable for researchers teachers and students of theology philosophy critical theory cultural studies and literary criticism as well as to students of French who read Deleuze's work in its original language *Deleuze and Theology* Christopher Ben Simpson, 2012-11-22 An exploration of the thought of Gilles Deleuze and its relevance to theology *Mysticism as Revolt* Petra Carlsson Redell, 2014

Deleuze and the Schizoanalysis of Religion F. LeRon Shults, Lindsay Powell-Jones, 2016-09-22 This volume brings together some of the leading voices in the field of Deleuze studies to explore and practice a variety of approaches to the schizoanalysis of religion The authors share an enthusiasm for applying Deleuze and Guattari's schizoanalytic project to religion but they display significantly different ways of carrying out its creative and destructive tasks As a whole the book addresses the relevance of Deleuze for contemporary developments in political theology liberation theology Christian doctrine and the recent growth of interest in spirituality and atheism Opening up new lines of flight for Deleuze studies *Deleuze and the Schizoanalysis of Religion* makes rhizomic connections that will be of interest to scholars in other fields including theology psychology of religion philosophy of religion and the history and practice of Western esotericism

Theology and the Absurdity of Faith Elijah Prewitt-Davis, 2024-10-14 The constant inundation of the affect and information experienced by contemporary individuals exposes the tragic nature of the world making nihilism an epistemologically reasonable response To counter the threat of nihilism Elijah Prewitt Davis argues that knowledge must be replaced by belief Against the common protestant concept of belief as strictly personal and interior he proposes believing in the world as an absurd and immanent faith in the impossible a belief that allows one to see and feel the potentialities simmering within the world as it is Following Gilles Deleuze call to transform belief Prewitt Davis explores how belief

heightens an affective attachment to our embeddedness on the world revealing the potentialities with which time is always pregnant. Believing in the world as it is paradoxically becomes the mode of transforming the world inasmuch as the potential for something impossibly new is always immanently present.

Theology After Deleuze Kristien Justaert, 2020 Deleuze's relationship with theology is a complex one. Indeed there seem to be many possible objections to such an assemblage taking place. In the first book of its kind to engage with this seemingly problematic dialogue Kristien Justaert shows the ways in which Deleuze's thought can in fact advance issues in political and liberation theology in particular while also exploring the important theological and spiritual aspirations contained in Deleuze's philosophy itself as part of his lifelong quest for the Absolute. Justaert examines the theological components in Deleuze's writings investigating the theological potential of four notions that circle around the central Deleuzian concept of Life: immanence, spirituality, creativity and politics. The book goes on to connect Deleuze with both established theologies and possible theologies for the future identifying areas in which Deleuze can contribute to the dynamics of contemporary theology and argues that aspects of Deleuze's philosophy can enable theology to become more meaningful in a globalised world. This is the ideal introduction to Deleuzian theologies and Deleuze's own theology for advanced undergraduate and postgraduate students.

Theology and the Political Abstract Creston Davis, John Milbank, Slavoj Žižek, 2005-06-17 The essays in *Theology and the Political* written by some of the world's foremost theologians, philosophers and literary critics analyze the ethics and consequences of human action. They explore the spiritual dimensions of ontology considering the relationship between ontology and the political in light of the thought of figures ranging from Plato to Marx, Levinas to Derrida and Augustine to Lacan. Together the contributors challenge the belief that meaningful action is simply the successful assertion of will; that politics is ultimately reducible to might makes right. From a variety of perspectives they suggest that grounding human action and politics in materialist critique offers revolutionary possibilities that transcend the nihilism inherent in both contemporary liberal democratic theory and neoconservative ideology.

Bell Jr, Phillip Blond, Simon Critchley, Conor Cunningham, Creston Davis, William Desmond, Hent de Vries, Terry Eagleton, Rocco Gangle, Philip Goodchild, Karl Hefty, Eleanor Kaufman, Tom McCarthy, John Milbank, Antonio Negri, Catherine Pickstock, Patrick Aaron Riches, Mary Jane Rubenstein, Regina Mara Schwartz, Kenneth Surin, Graham Ward, Rowan Williams, Slavoj Žižek.

Deleuze and the Naming of God Daniel Colucciello Barber, 2013-12-11 Deleuze's philosophy of immanence with its vigorous rejection of every appeal to the beyond is often presumed to be indifferent to the concerns of religion. Daniel Barber shows that this is not the case. Addressing the intersection between Deleuze's thought and the notion of religion he proposes an alliance between immanence and the act of naming God. In doing so he gives us a way out of the paralysing debate between religion and the secular. What matters is not to take one side or the other but to create the new in this world.

New Materialism and Theology Sam Mickey, 2022-05-16 *New Materialism and Theology* reflects on questions of human embodiment, nonhuman agency,

technological innovation and what really matters now and in possible futures Bringing theological inquiry together with the philosophical movement of new materialism Sam Mickey points toward a variety of ways for thinking about matter and everything that materializes in human and more than human worlds Mickey provides introductory definitions and historical context for understanding the relationship between various theological and materialist ideas and practices He examines the self declared novelty and materiality of new materialism noting the limitations of those labels while articulating the very new and quite material challenges that new materialism does indeed pose challenges of urgent existential importance that demand theological responses New Materialism and Theology faces the theological implications and material possibilities facing humanity while ecological and technological realities seem to be pointing toward posthuman or transhuman futures or perhaps something else entirely

A Theology of the Sublime Clayton Crockett, 2002-01-04 A Theology of the Sublime is the first major response to the influential and controversial Radical Orthodoxy movement Clayton Crockett develops a constructive radical theology from the philosophy of Immanuel Kant a philosophy attacked by Radical Orthodoxy to show Kant's relevance to postmodern philosophy and contemporary theology

A Companion to Social Geography Vincent J. Del Casino, Jr., Mary Thomas, Paul Cloke, Ruth Panelli, 2011-05-06 This volume traces the complexity of social geography in both its historical and present contexts whilst challenging readers to reflect critically on the tensions that run through social geographic thought Organized to provide a new set of conceptual lenses through which social geographies can be discussed Presents an original intervention into the debates about social geography Highlights the importance of social geography within the broader field of geography

Another Way Jeremy Garber, 2019-07-25 How can theologians philosophers and ordinary people think about the Holy Spirit in the twenty first century This volume offers one model the pneumatology of minoritarian communal interpretation the alternative creation of meaning within an oppressive majority context Garber looks at the stories of Saul Ezekiel and Jesus in the Gospels the Radical Reformers of the sixteenth century and a contemporary group of spiritual but not religious artists to see how they understand the Spirit working in their lives He weaves together the theories of John Howard Yoder Deleuze and Guattari and media theorists like Stanley Fish Jeremy Stolow and Thomas Lindlof as a theological and philosophical background to those stories In the end the Holy Spirit is being weird like Jesus together and Garber offers some observations on what that might look like throughout history and today

Radical Political Theology Clayton Crockett, 2013-10-01 In the 1960s the strict opposition between the religious and the secular began to break down blurring the distinction between political philosophy and political theology This collapse contributed to the decline of modern liberalism which supported a neutral value free space for capitalism It also deeply unsettled political religious and philosophical realms forced to confront the conceptual stakes of a return to religion Gamely intervening in a contest that defies simple resolutions Clayton Crockett conceives of the postmodern convergence of the secular and the religious as a basis for emancipatory political thought Engaging themes of sovereignty democracy potentiality law and event

from a religious and political point of view Crockett articulates a theological vision that responds to our contemporary world and its theopolitical realities Specifically he claims we should think about God and the state in terms of potentiality rather than sovereign power Deploying new concepts such as Slavoj Žižek's idea of parallax and Catherine Malabou's notion of plasticity his argument engages with debates over the nature and status of religion ideology and messianism Tangling with the work of Derrida Deleuze Spinoza Antonio Negri Giorgio Agamben Alain Badiou John D Caputo and Catherine Keller Crockett concludes with a reconsideration of democracy as a form of political thought and religious practice underscoring its ties to modern liberal capitalism while also envisioning a more authentic democracy unconstrained by those ties

The Oxford Handbook of Natural Theology Russell Re Manning, 2013-01-17 The Oxford Handbook of Natural Theology is the first collection to consider the full breadth of natural theology from both historical and contemporary perspectives and to bring together leading scholars to offer accessible high level accounts of the major themes The volume embodies and develops the recent revival of interest in natural theology as a topic of serious critical engagement Frequently misunderstood or polemicized natural theology is an understudied yet persistent and pervasive presence throughout the history of thought about ultimate reality from the classical Greek theology of the philosophers to twenty first century debates in science and religion Of interest to students and scholars from a wide range of disciplines this authoritative handbook draws on the very best of contemporary scholarship to present a critical overview of the subject area Thirty eight new essays trace the transformations of natural theology in different historical and religious contexts the place of natural theology in different philosophical traditions and diverse scientific disciplines and the various cultural and aesthetic approaches to natural theology to reveal a rich seam of multifaceted theological reflection rooted in human nature and the environments within which we find ourselves

Theologically Engaged Anthropology J. Derrick Lemons, 2018-08-23 After years of discussion within the field of anthropology concerning how to properly engage with theology a growing number of anthropologists now want to engage with theology as a counterpart in ethnographic dialogue Theologically Engaged Anthropology focuses on the theological history of anthropology illuminating deeply held theological assumptions that humans make about the nature of reality and illustrating how these theological assumptions manifest themselves in society This volume brings together leading anthropologists and theologians to consider what theology can contribute to cultural anthropology and ethnography It provides anthropologists and theologians with a rationale and framework for using theology in anthropological research
