Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09 Our nation's schools stand at an important inflection point in the history of education Taken together the implementation of common college and career standards the shift to next generation assessments the availability of affordable devices and the growing number of high quality digital instructional tools create an unprecedented

opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student

Digital Learning Now DLN a national initiative under the Foundation for Excellence in Education **ExcelinEd** in association with **Getting Smart** brings **Navigating the Digital Shift Implementation Strategies for Blended and Online Learning** to readers interested in exploring the implementation challenges at the intersection of these shifts Co authored by John Bailey Carri Schneider and Tom Vander Ark **Navigating the Digital Shift** offers updated versions of the eight papers originally released in the **DLN Smart Series** including contributions from 11 additional co authors representing leading organizations such as **Public Impact** the **International Association for K 12 Online Learning iNACOL** and **The Learning Accelerator** Topics include blended learning implementation teaching conditions and careers competency based learning student data online learning myths and student based funding Jeb Bush Governor of Florida from 1999 2007 and Chairman of **ExcelinEd** contends that the book provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement **AASA 2013 Superintendent of the Year Dr Mark Edwards** believes the collection provides meaningful practical and poignant advice as well as commentary regarding the move to college and career ready standards associated with the shift to personal online learning and digital resources **Rhode Island s Commissioner of Elementary and Secondary Education Deborah Gist** describes the book as an invaluable resource that will help educators re imagine what our schools can look like and what our students can accomplish

Over-Tested and Under-Prepared Bob Sornson, 2015-12-07 The curriculum driven instructional model has been the standard method of teaching for more than a century but it is consistently failing to produce well educated citizens and lifelong learners Pressured by standardized testing and rigid pacing guidelines teachers are forced to cover too much content too quickly without being able to meet the needs of individual students In this powerful new book from acclaimed author and speaker **Bob Sornson** you ll learn how shifting from curriculum based instruction to competency based learning can help students become more successful confident and engaged learners Topics include Understanding the curriculum driven model and the problems with cover and sort methodology Making the transition from curriculum driven to competency based learning Identifying crucial learning outcomes and giving students all the time and instruction needed to fully master these outcomes Building a positive teaching and learning environment And more Each chapter is short and easy to digest and provides compelling research strategies and anecdotes to inspire conversation and action Teachers administrators and community leaders will all find helpful resources and arguments for re working our current educational system into a new dynamic model of teaching and learning

The Power of Many Patrick Duignan, Helen Cannon, 2011-09-01 Among the many challenges faced by educational systems in the 21st century leadership succession is universally recognised as being a major concern Rather than retain the current paradigm of a single figure at the top of the school hierarchy leading researchers **Patrick Duignan** and **Helen Cannon** argue the case for a more inclusive collaborative and distributed leadership within schools In this book they offer a series of alternative models and gather views

from existing school principals to demonstrate what might be possible and what might work better than the model followed today The Power of Many emphasises how a new paradigm must work to retain those who are already in the job but must also act to encourage potential candidates to apply for the job The book offers specific recommendations and advice to system policy makers human resource personnel and to practitioners in schools especially school principals and deputy principals on new models and paradigms Practical guidelines are proposed that offer sustainable leadership solutions and promote educational systems and schools as communities of learning Ultimately The Power of Many shows how a shortage of principals can and must be substantially reduced and the collective capacity of leadership in schools enhanced and sustained
