Protecting Human Rights Defenders at Risk Alice M. Nah, 2020-11-22 This book assesses the construction operation and effects of the international protection regime for human rights defenders which has evolved significantly over the last twenty years in response to the risks people face as they promote and protect human rights Drawing upon the experiences of human rights

defenders who continue to persevere in their activism in Indonesia Egypt Kenya Mexico and Colombia this edited collection examines the ways in which formal protection mechanisms by state and civil society actors intersect with self protection measures and informal protection initiatives by families and friends It highlights that protection practices are most effective when they are designed to address the specific risks that human rights defenders face which are gendered and intersectional reflect how defenders understand risk security and protection and are appropriate for the dynamic sociopolitical and legal contexts in which defenders operate This book proposes ways in which the protection of human rights defenders at risk should be reimagined and practised This book will be a thought provoking guide for students and scholars of politics international relations law and human rights as well as to practitioners engaged in the protection of human rights defenders at risk
