Maṇḍalas in the Making Michelle C. Wang, 2017-12-18 The first scholarly monograph on Buddhist ma alas in China this book examines the Ma ala of Eight Great Bodhisattvas This iconographic template in which a central Buddha is flanked by eight attendants flourished during the Tibetan 786 848 and post Tibetan Guiyijun 848 1036 periods at Dunhuang A rare motif that appears in only four cave shrines at the Mogao and Yulin sites the ma ala bore associations with political authority and received patronage from local rulers Attending to the historical and cultural contexts surrounding this iconography this book demonstrates that transcultural communication over the Silk Routes during this period and the religious dialogue between the Chinese and Tibetan communities were defining characteristics of the visual language of Buddhist ma alas at Dunhuang

The Oxford Handbook of Tantric Studies Payne, 2023-11-15 Since the earliest encounters between tantric traditions and Western scholars tantra has posed a challenge Representation of tantra has tended to emphasize the antinomian decadent aspects which as attention grabbing as they were for Western audiences hampered the study of the field The Oxford Handbook of Tantric Studies is intended to overcome these obstacles facilitating collaboration between scholars working on different forms of tantra and in different disciplines With more than forty chapters and a global pool of contributors the Handbook aims to be the definitive reference work in the field exploring core topics such as action transformation embodiment art language and social movements The first chapter provides an overview of major issues confronting the field today including debates regarding the definition and category of tantra historical origins and dating and recent developments in gender studies and tantra ethnography and lived tantra and cognitive approaches to the study of tantra Using a topical framework the opening section explores the concept of action one of the most prominent features of

tantra which includes performing rituals practicing meditation chanting embarking on a pilgrimage or reenacting moments from a sacred text From there the sections cover broad topics such as transformation e g soteriology and healing gender and embodiment extraordinary beings such as deities and saints art and visual expressions language and literature social organizations and the history and historiography of tantra Keywords tantric studies tantra Buddhism Hinduism Jainism ritual soteriology meditation embodiment yoga Esoteric Guide Runes and Crystals Alina Rubi,2025-05-27 This book is a practical and mystical guide that unites the ancient power of runes with the vibrant energy of quartz Through its pages you will discover how to interpret runic symbols activate their magic and combine them with crystals to enhance healing protection mental clarity and spiritual manifestation Designed for beginners and advanced seekers alike this compendium teaches you how to create talismans rituals and deep readings that connect with your intuition and the secret rhythms of the Earth An invitation to transform your energy and open the doors of inner knowledge Politics and Transcendent Wisdom Charles D. Orzech,2010-11 Politics and Transcendent Wisdom presents a systematic theoretical framework for understanding the relationship between politics and religion in a variety of contexts This book examines the formation of national protection Buddhism in China and translates the key text of this important movement Showing that Buddhist notions of sovereignty were meant and were taken as more than mere metaphor Orzech examines the profound link between Buddhist notions of transcendence and the deployment of political authority in East Asia To this integration of philosophical tradition and political history is brought a new understanding of Buddhist cosmology The contexts of Buddhism as state religion in fifth and eighth century China are examined in detail through extended consideration of the Transcendent Wisdom Scripture for Humane Kings Who Wish to Protect Their States the text that was the charter for Buddhist state cults in China Korea and Japan into the twentieth century The text first appeared during the fifth century as Buddhists were struggling to understand how their foreign religion and the foreign rulers of north China might be adapted to Chinese religious and political culture The Scripture for Humane Kings and the rites enjoined by it were one answer to these questions Three centuries later in the context of a fully sinified Buddhism the T ang dynasty Tantric master Pu k ung produced a new version of the text with new rites that served as the centerpiece of his vision of a Chinese Buddhist state modeled on esoteric lines The final section of this volume presents for the first time a full annotated translation of this important East Asian Buddhist text **Handbook of the Theosophical Current** Olav Hammer,Mikael Rothstein,2013-01-09 This title represents pioneering research into an important but under researched current The three sections in the book are devoted to the Theosophical Society Theosophically influenced religious currents and the interaction between Theosophy and surrounding culture *Spells, Images, and Mandalas* Koichi Shinohara,2014-08-05 Koichi Shinohara traces the evolution of Esoteric Buddhist rituals from the simple recitation of spells in the fifth century to complex systems involving image worship mandala initiation and visualization practices in the ninth century He presents an important new reading of a seventh century Chinese text called

the Collected Dharani Sutras which shows how earlier rituals for specific deities were synthesized into a general Esoteric initiation ceremony and how for the first time the notion of an Esoteric Buddhist pantheon emerged In the Collected Dharani Sutras rituals for specific deities were typically performed around images of the deities yet Esoteric Buddhist rituals in earlier sources involved the recitation of spells rather than the use of images The first part of this study explores how such simpler rituals came to be associated with the images of specific deities and ultimately gave rise to the general Esoteric initiation ceremony described in the crucial example of the All Gathering mandala ritual in the Collected Dharani Sutras The visualization practices so important to later Esoteric Buddhist rituals were absent from this ceremony and their introduction would fundamentally change Esoteric Buddhist practice This study examines the translations of dharani sutras made by Bodhiruci in the early eighth century and later Esoteric texts such as Yixing s commentary on the Mahavairocana sutra and Amoghavajra s ritual manuals to show how incorporation of visualization greatly enriched Esoteric rituals and helped develop elaborate iconographies for the deities Over time the ritual function of images became less certain and the emphasis shifted toward visualization This study clarifies the complex relationship between images and ritual changing how we perceive Esoteric Buddhist art as well as ritual

Real and Imagined Heather Blair, 2020-05-11 During the Heian period 794 1185 the sacred mountain Kinpusen literally the Peak of Gold came to cultural prominence as a pilgrimage destination for the most powerful men in Japan the Fujiwara regents and the retired emperors Real and Imagined depicts their one hundred kilometer trek from the capital to the rocky summit as well as the imaginative landscape they navigated Kinpusen was believed to be a realm of immortals the domain of an unconventional bodhisattva and the home of an indigenous pantheon of kami These nominally private journeys to Kinpusen had political implications for both the pilgrims and the mountain While members of the aristocracy and royalty used pilgrimage to legitimate themselves and compete with one another their patronage fed rivalry among religious institutions Thus after flourishing under the Fujiwara regents Kinpusen s cult and community were rent by violent altercations with the great Nara temple K fukuji The resulting institutional reconfigurations laid the groundwork for Shugend a new movement focused on religious mountain practice that emerged around 1300 Using archival sources archaeological materials noblemen s journals sutras official histories and vernacular narratives this original study sheds new light on Kinpusen positioning it within the broader religious and political history of the Heian period

Esoteric Buddhism in China Wei Wu, 2024-03-05 During the Republican period 1912 1949 and after many Chinese Buddhists sought inspiration from non Chinese Buddhist traditions showing a particular interest in esoteric teachings What made these Buddhists dissatisfied with Chinese Buddhism and what did they think other Buddhist traditions could offer Which elements did they choose to follow and which ones did they disregard And how do their experiences recast the wider story of twentieth century pan Asian Buddhist reform movements Based on a wide range of previously unexplored Chinese sources this book explores how esoteric Buddhist traditions have shaped the Chinese religious landscape Wei Wu examines cross cultural religious transmission of ideas from Japanese and Tibetan traditions considering the various esoteric currents within Chinese Buddhist communities and how Chinese individuals and groups engaged with newly translated ideas and practices She argues that Chinese Buddhists assimilation of doctrinal ritual and institutional elements of Tibetan and Japanese esoteric Buddhism was not a simple replication but an active process of creating new meanings Their visions of Buddhism in the modern world as well as early twentieth century discourses of nation building and religious reform shaped the reception of esoteric traditions By analyzing the Chinese interpretation and strategic adaptations of esoteric Buddhism this book sheds new light on the intellectual development ritual performances and institutional formations of Chinese Buddhism in the twentieth century
