**The Postcolonial Orient** Vasant Kaiwar, 2014-05-08 In *The Postcolonial Orient* Vasant Kaiwar presents a far reaching analysis of the political economic and ideological cross currents that have shaped and informed postcolonial studies preceding and following the 1989 moment of world history The valences of the post in postcolonialism are unfolded via some key historical political postcolonial texts showing inter alia that they are replete with elements of Romantic Orientalism and the Oriental Renaissance Kaiwar mobilises a critical body of classical and contemporary Marxism to demonstrate that far richer understandings of Europe not to mention colonialism modernity and difference are possible than with a postcolonialism captive to phenomenological existentialism and post structuralism concluding that a narrative so enriched is indispensable for a transformative non Eurocentric internationalism

**Policy, Geophilosophy and Education** P. Taylor Webb, Kalervo N. Gulson, 2015-10-14 Education policy is premised on its instrumentalist approach This instrumentalism is based on narrow assumptions concerning people the subject decision making power problem solving science and methodology and knowledge epistemology *Policy Geophilosophy and Education* reconceptualises the object and hence the objectives of education policy Specifically the book illustrates how education policy positions and constitutes objects and subjects through emergent policy arrangements that simultaneously influence how policy is sensed embodied and enacted The book examines the disciplinary and multi disciplinary approaches to education policy analysis over the last sixty years and reveals how policy analysis constitutes the ontologies and epistemologies of policy In order to reconceptualise policy *Policy Geophilosophy and Education* uses ideas of spatiality affect and problematization from the disciplines of geography and philosophy The book problematizes case vignettes to illustrate the complex and often paradoxical relations between neo liberal education policy equity and

educational inequalities produced in the representational registers of race and ethnicity      Deleuze and Geophilosophy Mark Bonta, John Protevi, 2004 This is the first book to use complexity theory to open up the geophilosophy developed by Gilles Deleuze and Félix Guattari in *A Thousand Plateaus* *Anti Oedipus* and *What is Philosophy* Written by a philosopher and a geographer in a clear style with a practical orientation and interdisciplinary focus the Guide enables readers to grasp the basics of complexity theory the study of self organisation and emergence in material systems while the Glossary eases the difficulty of applying this science to Deleuze and Guattari's often perplexing terminology Deleuze and Geophilosophy is thoroughly pragmatic it asks not what the earth means but how it works It provides a common conceptual framework within which physical and human geographers can work together alongside other social scientists cultural studies practitioners and philosophers in interdisciplinary teams to explore the entangled flows lines grids and spaces of our world The book will be of interest to all those working in disciplines at the intersections of culture nature space and history anthropology art and architecture theory communication studies geography Marxism and historical materialism philosophy postcolonial theory urban studies and many other disciplines Key Features Explores a new aspect of Deleuzian thought geophilosophy geography philosophy The first part of the book explains the basics of complexity theory Half of the book is a Glossary which helps readers with Deleuze and Guattari's perplexing terminology Emphasis on bodies politic in geophilosophy and complexity theory which has never before been linked in such a way      Diasporic Marvellous Realism María Alonso Alonso, 2015-07-14 Diasporic Marvellous Realism highlights the interesting switch in perspective found in contemporary literary production where the supernatural is regarded from a diasporic perspective as marvellous rather than magical The titular term is applied to the influence of transterritorialization on the works of first and second generation immigrant writers when approaching and exploring the myths and legends of their culture of origin The texts included in this analysis show that the employment of this literary philosophy and narrative technique in contemporary literature involves a fruitful refocusing of the rhetorical gaze regarding the importance of cultural heritage as vindictory resistance to the lacunae of history and as celebratory re enfranchisement of diasporic communities in host countries such as Canada and the UK      **Digital Gambling** César Albarrán-Torres, 2018-03-28 This book develops the concept of gamble play media describing how some gambling and gambling like practices are increasingly mediated by digital technologies Digital gambling brings gambling closer to the practices and features of videogames as audio visual simulations structure users experiences By studying digital gambling from media studies videogame and cultural studies approaches this book offers a new critical perspective on the issues raised by computer mediated gambling while expanding our perspective on what media and gambling are In particular it critically analyses terrestrial mobile and online slot machines online poker and stock trading apps through a selection of case studies      *Paratextualizing Games* Benjamin Beil, Gundolf S.
