Deliver Us From Evil Peacekeepers Warlords And A World Of Endless Conflict:

Deliver Us From Evil William Shawcross, 2002-01-10 Reporting from war zones around the globe acclaimed journalist William Shawcross gives us an unforgettable portrait of a dangerous world and of the brave men and women ordinary and extraordinary who risk their lives to make and keep the peace The end of the Cold War was followed by a decade of regional and ethnic wars massacres and forced exiles and by constant calls for America to lead the international community as chief peace keeper The efforts of that community identified with the United Nations but often dominated by the world's wealthy nations have had mixed results In Africa the West is accused of indifference or too little too late In Cambodia the UN presides over free elections but the results are overridden In Iraq Saddam Hussein continues to defy the UN and in Bosnia and Kosovo the West acts hesitantly after terrible slaughter and ethnic cleansing Shawcross a veteran of many war zones has had broad access to global policymakers including UN secretary general Kofi Annan high American diplomats peacekeepers and humanitarian aid professionals He has traveled with them to some of the world's most horrifying killing fields *Deliver Us from Evil* is his stark on the ground report on the many crises faced by the international community and its servants as they struggle to respond around the world He brings home the price many have paid attempting to restore peace and help alleviate terrible suffering He illuminates the risks we face in a complex and dangerous world Some critics have concluded that some interventions may prolong conflict and create further casualties The lesson we learn from ruthless and vengeful warlords the world over is that goodwill without strength can make things worse Shawcross argues that recent interventions in Kosovo and East Timor for example provide reason for concern as well as hope Still the unmistakable message of the past decade is that we cannot intervene everywhere that not every wrong can be righted merely because the international community desires it or because we wish to remove images of suffering from our television screens Nor can we necessarily rebuild failed states in our image When we intervene we must be certain of our objectives sure of popular support and willing to expend the necessary resources even lives If our interventions are to be effective and humane they must last for more than the fifteen minutes of attention that the media accord to each succeeding crisis That is a tall order As Shawcross concludes In a more religious time it was only God whom we asked to deliver us from evil Now we call upon our own man made institutions for such deliverance That is sometimes to ask for miracles

Deliver Us from Evil William Shawcross, 2001 We have all seen press and television pictures of winding lines of refugees in Africa or on mountain passes in Europe and felt that something must be done In this urgent new book William Shawcross reveals what lies behind decisions by the international community to intervene in a situation on humanitarian grounds and what happens when the troops and aid agencies move in It is a story of noble aspirations and often ignoble real politik To tell the story of international peacekeeping in the last ten years Shawcross has travelled to the war zones and talked to global policy makers leading diplomats and key humanitarian aid officials in Afghanistan Angola Cambodia Bosnia Iraq Kosovo Somalia Nigeria Rwanda Sierra Leone and

East Timor **Information Operations: Putting the "I" Back into DIME** , Advocacy and Change in International Organizations Kseniya Oksamytna, 2023-11-09 How do international organizations change Many organizations expand into new areas or abandon programmes of work Advocacy and Change in International Organizations argues that they do so not only at the collective direction of member states Advocacy is a crucial but overlooked source of change in international organizations Different actors can advocate for change national diplomats international bureaucrats external experts or civil society activists They can use one of three advocacy strategies social pressure persuasion and authority talk The success of each strategy depends on the presence of favourable conditions related to characteristics of advocates targets issues and context Institutionalization of new issues in international organizations as a multi stage process often accompanied by contestation This book demonstrates how the advocacy focused framework explains the origins of three workstreams of contemporary UN peacekeeping operations communication protection and reconstruction The issue of strategic communications was promoted by UN officials through the strategy of persuasion Protection of civilians emerged due to a partially successful social influence campaign by a coalition of elected Security Council members and a subsequent and successful persuasion efforts by Canada Quick impact projects entered peacekeepers practice as the result of authority talk by an expert panel The three issues illustrate the diversity of pathways to change in international organizations representing the top down bottom up and outside in pathways Moreover they have achieved different degrees of institutionalization in UN s policies structures and frameworks protection of civilians is the most institutionalized as evidenced by measures to hold peacekeepers accountable for non implementation while quick impact projects are the least institutionalized *Civilians in War* International Peace Academy, 2001 While recognizing the changing face of war casualties the civilian casualty rate has escalated from five percent in World War I to up to 90 percent in recent conflicts the 1949 Geneva Convention on the Protection of Civilians has not been able to reverse that trend In this project of the International Peace Academy with which the editor is affiliated a dozen essays endeavor to expand the tools available to protect civilians in times of war They address the themes of the evolving norms of international humanitarian law inducing compliance enforcing compliance and reevaluating protection by reviewing traditional assumptions and new needs to deal at the local level with unconventional belligerents like guerillas c Book News Inc Max Planck Yearbook of United Nations Law, 2001 Jochen Abr Frowein, Christiane E. Philipp, 2001-11-01 Now in its fifth year the Max Planck Yearbook of United Nations Law is becoming a much sought after forum for essays by the most distinguished professors in international law These essays cover a variety of topics related to the activities of the United Nations from the role of the Security Council to UN treaties from environmental issues to humanitarian law The Yearbook also contains essays e g on the World Bank the IAEA and the WTO Volume 5 focuses in particular on the international dispute settlement system with articles on the activities of international courts and tribunals as well as the contributions to settlement of disputes by other institutions such as the World Bank Inspection Panel

But there are also tackled subjects as the future of peace keeping the UN Transitional Administration in Kosovo and East Timor as well as human rights and their implementation This book is a must have for any academic involved in international law For more information on this yearbook please visit the website of the Max Planck Institute *The Use of Force in Humanitarian Intervention* John Janzekovic, 2017-11-30 Humanitarian intervention is a many layered and complex concept While moral society has an obligation to stop deliberate and persistent serious human rights abuse the direct use of force remains a contentious option alongside other strategies employed by the international community This study analyzes the various ethical positions particularly consequentialism welfare utilitarianism and just war theory to unravel this intricate topic Uniquely the book goes beyond previous philosophical or ethical treatments of the subject to provide a more rounded and practical reflection on the lessons learned from the revival of humanitarian intervention as a tool of conflict resolution

Challenge of Politics, 4th Edition Neal Riemer, Douglas W. Simon, Joseph Romance, 2013-02-15 So often political science is introduced to students as a segmented field The Challenge of Politics instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riemer Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people's lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of Challenge has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout

Canada's Army J. L. Granatstein, 2011-01-01 Canada's Army traces the full three hundred year history of the Canadian military from its origins in New France to the Conquest the Revolutionary War and the War of 1812 from South Africa and the two World Wars to the Korean War and contemporary peacekeeping efforts and the War in Afghanistan Granatstein points to the inevitable continuation of armed conflict around the world and makes a compelling case for Canada to maintain properly equipped and professional armed forces pub desc **The United Nations and Democracy in Africa** Zoë Wilson, 2007-11-21 This book explores UN bureaucracy and the development dysfunction it sows in four most different African countries Angola Botswana Namibia and Tanzania Wilson's original purpose for researching this book was to uncover

new solutions to some of the United Nations most vexing implementation problems Yet as research unfolded it became clear that the reasons for those problems lay tangled up in bureaucratic and philosophical quagmires of a much more fundamental nature The United Nations and Democracy in Africa is the documentation not only of these bureaucratic and philosophical absurdities that find expression through development practice but also the journey of the author from ardent defender of the UN to profound sceptic *Global Justice* Gillian Brock,2009-01-08 Gillian Brock develops a model of global justice that takes seriously the moral equality of all human beings notwithstanding their legitimate diverse identifications and affiliations She addresses concerns about implementing global justice showing how we can move from theory to feasible public policy that makes progress toward global justice **The Tragic State of the Congo** Jeanne M. Haskin,2005 In the mineral rich dirt poor Congo the promise of democratic elections now offers to ignite a glorious future for the country or a final conflagration

Living with Terror, Working with Trauma Danielle Knafo,2004 This book addresses the ways that mental health practitioners can assist survivors of terrorism Drawing upon the experience of leading practitioners and renowned experts throughout the world this edited volume explores the most innovative methods currently employed to help people heal and even grow from traumatic experiences It argues for a multi dimensional approach to understanding and treating the effects of terror related trauma **The Palgrave Handbook of Peacebuilding in Africa** Tony Karbo,Kudrat Virk,2018-01-30 This handbook offers a critical assessment of the African agenda for conflict prevention peacemaking peacekeeping and peacebuilding the challenges and opportunities facing Africa s regional organisations in their efforts towards building sustainable peace on the continent and the role of external actors including the United Nations Britain France and South Asian troop contributing countries In so doing it revisits the late Ali Mazrui s concept of Pax Africana calling on Africans to take responsibility for peace and security on their own continent The creation of the African Union in 2002 was an important step towards realising this ambition and has led to the development of a new continental architecture for more robust conflict management But as the volume s authors show the quest for Pax Africana faces challenges Combining thematic analyses and case studies this book will be of interest to both scholars and policymakers working on peace security and governance issues in Africa **The Law Reports of the Special Court for Sierra Leone** Charles Chernor Jalloh,Simon Meisenberg,2021-09-27 The Special Court for Sierra Leone was established through signature of a bilateral treaty between the United Nations and the Government of Sierra Leone in early 2002 making it the third modern ad hoc international criminal tribunal It has tried various persons including former Liberian President Charles Ghankay Taylor for serious violations of international humanitarian law committed during the latter half of the Sierra Leonean armed conflict It completed its work in December 2013 A new Residual Special Court for Sierra Leone based in Freetown and with offices in The Hague has been created to carry out its essential residual functions This volume which consists of three books and a CD ROM and is edited by two legal experts on the Sierra Leone Court completes the set of edited Law Reports started in 2012

Together the Law Reports fill the gap of a single and authoritative reference source of the tribunal's jurisprudence. The law reports are intended for national and international judges, lawyers, academics, students, and other researchers, as well as transitional justice practitioners in courts, tribunals, and truth commissions, and anyone seeking an accurate record of the trials conducted by the Special Court for Sierra Leone. Humanitarian Business Thomas G. Weiss, 2013-04-24. With some 50 million people living under duress and threatened by wars and disasters in 2012, the demand for relief worldwide has reached unprecedented levels. Humanitarianism is now a multi-billion dollar enterprise, and aid agencies are obliged to respond to a range of economic forces in order to stay in business. In his customarily hard-hitting analysis, Thomas G. Weiss offers penetrating insights into the complexities and challenges of the contemporary humanitarian marketplace. In addition to changing political and military conditions that generate demand for aid, private suppliers have changed too. Today's political economy places aid agencies side by side with for-profit businesses, including private military and security companies, in a marketplace that also is linked to global trade networks in illicit arms, natural resources, and drugs. This witch's brew is simmering in the cauldron of wars that are often protracted and always costly to civilians who are the very targets of violence. While belligerents put a price tag on access to victims, aid agencies pursue branding in a competition for scarce resources relative to the staggering needs. As marketization encroaches on traditional humanitarianism, it seems everything may have a price from access and principles to moral authority and lives.

Global Order and Global Disorder Keith Suter, 2003-05-30. Is the world entering a period of breakdown or breakthrough? As Suter makes clear, globalization is reducing the role of national governments, but it is not yet clear what will follow the current world order. He explains the process of globalization and uses the technique of scenario planning to examine alternative forms of global order and disorder. The current world order is ending. The old order has been based on nation-states or countries with centralized national governments. As Keith Suter makes clear, the process of globalization, which is now the most important factor in world politics, is undermining that world order and leading to world disorder. Globalization is the process of the erosion of the nation-state as the basic unit of world politics, the declining power of national governments, and the reduced significance of national boundaries. Global change is running ahead of governments' abilities to manage it. Economics is only a part of that process. Suter also deals with other vital concerns: war, crime, environment, and health. Therefore, while Suter examines the growth and impact of transnational corporations, he also takes in many other matters that comprise globalization. The process of globalization is not reversible. Therefore, there has to be a search for a new order rather than vain efforts to patch up the system of the nation-states. Suter concludes by exploring

alternatives to the current world order using the technique of scenario planning A provocative analysis that will be of interest to scholars students researchers and the general public concerned with international relations law and economic issues **A**

Bed for the Night David Rieff, 2013-06-04 Timely and controversial A Bed for the Night reveals how humanitarian organizations trying to bring relief in an ever more violent and dangerous world are often betrayed and misused and have increasingly lost sight of their purpose Humanitarian relief workers writes David Rieff are the last of the just And in the Bosnias the Rwandas and the Afghanistans of this world humanitarianism remains the vocation of helping people when they most desperately need help when they have lost or stand at risk of losing everything they have including their lives Although humanitarianism s accomplishments have been tremendous including saving countless lives the lesson of the past ten years of civil wars and ethnic cleansing is that it can do only so much to alleviate suffering Aid workers have discovered that while trying to do good their efforts may also cause harm Drawing on firsthand reporting from hot war zones around the world Bosnia Rwanda Congo Kosovo Sudan and most recently Afghanistan Rieff describes how the International Committee of the Red Cross Doctors Without Borders the International Rescue Committee CARE Oxfam and other humanitarian organizations have moved from their founding principle of political neutrality which gave them access to victims of wars to encouraging the international community to take action to stop civil wars and ethnic cleansing This advocacy has come at a high price By calling for intervention whether by the United Nations or by coalitions of the willing humanitarian organizations risk being seen as taking sides in a conflict and thus jeopardizing their access to victims And by overreaching the humanitarian movement has allowed itself to be hijacked by the major powers at times becoming a fig leaf for actions those powers wish to take for their own interests or for the major powers inaction Rieff concludes that if humanitarian organizations are to do what they do best alleviate suffering they must reclaim their independence Except for relief workers themselves no one has looked at humanitarian action as seriously or as unflinchingly or has had such unparalleled access to its inner workings as Rieff who has traveled and lived with aid workers over many years and four continents A cogent hard hitting report from the front lines A Bed for the Night shows what international aid organizations must do if they are to continue to care for the victims of humanitarian disasters Peace Operations After 11 September 2001 Thierry Tardy, 2004-07-31 This book explores the possible consequences of the events of 11 September 2001 and of the fight against terrorism the way peace operations are perceived and conducted and the way that states international organizations such as NATO or the EU and non state actors consider these operations The 11 September attacks illustrate the widening of the security agenda the persistence of instability and the need to deal with it in both a preventive and a curative way The events have had a major impact on US foreign and defence policies on security policies on the hierarchy of priorities and US views of peace operations around the world This book shows that these different elements mean that the international environment of peace operations is likely to be modified while the local environment has remained largely unchanged *The Price of Indifference* Arthur C.

Helton, 2002-03-07 Refugee policy has failed frequently over the past decade resulting in instability terrible hardships and loss of life This book is the first effort to review systematically the recent past and re design policy to give fresh answers to old problems Specific recommendations are made to re conceive refugee policy to be more proactive and comprehensive as well as to re organize how policy is formulated within and among governments Refugee policy has not kept pace with new realities in international and humanitarian affairs Recent policy failures have resulted in instability terrible hardships and massive loss of life This book systematically analyzes refugee policy responses over the past decade and calls for specific reforms to make policy more proactive and comprehensive Refugee policy must be more than the administration of misery Responses should be calculated to help prevent or mitigate future humanitarian catastrophes More international cooperation is needed in advance of crises Humanitarian structures within governments notably the United States as well as the wide variety of international institutions involved in humanitarian action must be re oriented to cope with new challenges
