proliferates parasitically invading transforming and even blocking systems as in Nam June Paik's synthesized videotapes and installations and the avatar a quasi fictional form of identity available to anyone which can function as a political actor as in Melvin Van Peebles's invention of Sweet Sweetback an African American hero who appealed to a broad audience and influenced styles of Black Power activism These strategies writes Joselit remain valuable today in a world where the overlapping information circuits of television and the Internet offer different opportunities for democratic participation In Feedback Joselit analyzes such midcentury image events using the procedures and categories of art history The trope of figure ground reversal for instance is used to assess acts of representation in a variety of media including the medium of politics In a televisual world Joselit argues where democracy is conducted through images art history has the capacity to become a political science
