Dangerous Liaisons Blacks Gays And The Struggle For Equality

Eric Brandt

Dangerous Liaisons Blacks Gays And The Struggle For Equality:

Dangerous Liaisons Eric Brandt, 1999 *Dangerous Liaisons* provides a platform for the leading minds of both communities including thinkers who straddle both worlds to debate the volatile subject of the relationship between African Americans and homosexuals. It includes writing on minority relations by well known historians, political analysts, activists, writers and philosophers. They address such timely issues as recent high profile hate crimes against blacks and gays, racism in gay and lesbian rights organizations, homophobia in the black church, the shift in highest rate of infection of HIV from the gay community to the black community and stereotypes in books and films.

The Expanding Boundaries of Black Politics Georgia A. Persons, 2017-09-04 This volume joins the preceding volumes in this distinguished series in presenting contemporary research by leading political scientists addressing topics of interest to those concerned with African American affairs. It captures the expanding boundaries of black politics and the persistent interests of the black community at large. The anchoring symposium *The Expanding Boundaries of Black Politics* presents the scholarship of a cadre of young black political scientists actively engaged in the critical tasks of moving forward the study of black politics. Their concerns include expanding the boundaries of black politics along the lines of epistemology and methodology especially in regard to core issues and areas within this field. In an introductory essay by Todd Shaw the work of these scholars is situated within the context of temporal shifts in scholarly emphases. Overlapping issues and concerns across time as well as black political scholarship as defined in the field since its beginning are addressed. The second part of this volume entitled *Maximizing the Black Vote: Recognizing the Limits of Electoral Politics* concentrates on serious lingering social concerns. These include the policy significance of black mayors affecting the concomitant impact of the black vote, the boundaries being pushed concerning the conjunction of black theology and sexual identity, a gendered analysis of familial policies and the deepening social and economic plight of young black males including felon disfranchisement. *The Expanding Boundaries of Black Politics* carries forth the search for an understanding of the relationship between religion, the black church and black political behavior, cross racial group coalitions as concerns matters of immigration, growing multiculturalism and the impact on black politics, maximizing the impact of the black vote focusing on voting rights enforcement, the black vote in presidential elections and the voice of the Congressional Black Caucus.

Routledge International Handbook of Heterosexualities Studies James Dean, Nancy Fischer, 2019-12-19 While a majority of people identify as heterosexual if asked about their sexual identity, what does that really mean? How did identifying as straight arise particularly in relation to identifying as queer, lesbian and gay? How are individuals socialized to view themselves and others as straight even when many people are sexually fluid? How do institutions like government bodies, the educational system and the family reinforce heterosexuality? This collection introduces the field of Critical Heterosexualities Studies and key lines of inquiry within the field. Like Masculinity Studies and Whiteness Studies, Heterosexualities Studies critically examines the dominant category and identity group in order to

illuminate the taken for granted assumptions that surround heterosexual identities This critical perspective questions the idea that heterosexuality is natural normal and biologically driven A recurring question throughout this Handbook is what does it mean to say that there are multiple forms of heterosexuality The answer is provided by cases showing how straightness varies between men and women but also across different racial groups social classes and one's status as trans or cisgender Organized around key themes of inquiry including heterosexualities across the life course straight identities and their intersections the power of straightness in state politics and the changing meaning of heterosexualities in the context of sexual fluidity this collection provides readers with an introduction to Critical Heterosexualities Studies through important theoretical statements key historical studies and current empirical research Featuring both classic works and original essays written expressly for this volume this collection provides a state of the art overview of this exciting new field in sexualities studies

Contours of African American Politics Georgia A. Persons, 2017-07-05 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in *The National Political Science Review* from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organised around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilisation necessary for optimising the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics

The Delectable Negro Vincent Woodard, Dwight McBride, Justin A Joyce, E. Patrick Johnson, 2014-06-27 A groundbreaking study of the connections between homoeroticism cannibalism and cultures of

consumption in American literature and US slave culture Scholars of US and transatlantic slavery have largely ignored or dismissed accusations that Black Americans were cannibalized Vincent Woodard takes the enslaved person's claims of human consumption seriously focusing on both the literal starvation of the slave and the tropes of cannibalism on the part of the slaveholder and further draws attention to the ways in which Blacks experienced their consumption as a fundamentally homoerotic occurrence The Delectable Negro explores these connections between homoeroticism cannibalism and cultures of consumption in the context of American literature and US slave culture Utilizing many staples of African American literature and culture such as the slave narratives of Olaudah Equiano Harriet Jacobs and Frederick Douglass as well as other less circulated materials like James L Smith's slave narrative runaway slave advertisements and numerous articles from Black newspapers published in the nineteenth century Woodard traces the racial assumptions political aspirations gender codes and philosophical frameworks that dictated both European and white American arousal towards Black males and hunger for Black male flesh Woodard uses these texts to unpack how slaves struggled not only against social consumption but also against endemic mechanisms of starvation and hunger designed to break them He concludes with an examination of the controversial chain gang oral sex scene in Toni Morrison's *Beloved* suggesting that even at the end of the twentieth and beginning of the twenty first century we are still at a loss for language with which to describe Black male hunger within a plantation culture of consumption Praise for *The Delectable Negro* Winner of the 2015 LGBT Studies Award presented by the Lambda Literary Foundation A bold and brilliant book Carla L Peterson author of *Black Gotham: A Family History of African Americans in Nineteenth Century New York City* With unflinching clarity *The Delectable Negro* exposes and examines the pervasive cultural fantasies that have rendered the enslaved black body into a consumable object from the eighteenth century to the present Its powerful insights will continue to generate new lines of important inquiry for years to come *American Historical Review*

says it all Invisible Families Scholarship on lesbian and gay issues has been slow to recognize the importance of children and family among those in same sex relationships and has paid scant attention to racial minorities nor have students of African American life given much attention to Black lesbians and gay men We are left with the unfortunate impression to paraphrase the authors of *But Some of Us Are Brave* that all the lesbians and gays are White and all the Blacks are heterosexual This book stands as a significant corrective to these multiple myopias offering a nuanced account of the kinds of pressures Black women raising children with female partners encounter and revealing the creativity and resilience they bring to the struggle Ellen Lewin University of Iowa author of *Gay Fatherhood Narratives of Family and Citizenship in America* Invisible Families shakes up longstanding theoretical conceptualizations of racial identity family formation and motherhood contesting basic assumptions about black families Tightly conceptualized and highly engaging Kerry Ann Rockquemore author of *Raising Biracial Children* *Race in the Age of Obama* Donald Cunnigen, Marino A.
