opinion If our artists don't confront the question more directly and soon the Agency will only continue to infiltrate our vulnerable film and television screens and our minds Tom Hayden Los Angeles Review of Books The book makes a strong case that the CIA should not be in Hollywood at all but that if it is it cannot pick and choose which movies it wishes to support Well written and researched this study examines a subject that has not received enough scholarly or critical attention Highly recommended Choice A fascinating highly readable and original new work Incorporating effective illustrative case studies The CIA in Hollywood is definitely recommended to students of film media relations the CIA and U S interagency relations H Net Reviews

Imperial Benevolence Scott Laderman, 2018-08-14 This is a necessary and urgent read for anyone concerned about the United States endless wars Investigating multiple genres of popular culture alongside contemporary U S foreign policy and political economy *Imperial Benevolence* shows that American popular culture continuously suppresses awareness of U S imperialism while assuming American exceptionalism and innocence This is despite the fact that it is rarely a product of the state Expertly coordinated essays by prominent historians and media scholars address the ways that movies and television series such as *Zero Dark Thirty* *The Avengers* and even *The Walking Dead* as well as video games such as *Call of Duty Black Ops* have largely presented the United States as a global force for good Popular culture with few exceptions has depicted the U S as a reluctant hegemon fiercely defending human rights and protecting or expanding democracy from the barbarians determined to destroy it

Kathryn Bigelow Peter Keough, 2013-08-01 With her gripping film *The Hurt Locker* Kathryn Bigelow b 1951 made history in 2010 by becoming the first woman to win an Oscar for Best Director Since then she has also filmed history with her movie *Zero Dark Thirty* which is about the mission to kill Osama Bin Laden She is one of Hollywood s brightest stars but her roots go back four decades to the very non Hollywood avant garde art world of New York City in the 1970s Her first feature *The Loveless* reflected those academic origins but such subsequent films such as the vampire Western *Near Dark* the female vigilante movie *Blue Steel* and the surfer crime thriller *Point Break* demonstrated her determination to apply her aesthetic sensibilities to popular genre filmmaking The first volume of Bigelow s interviews ever published Peter Keough s collection covers her early success with *Near Dark* the frustrations and disappointments she endured with films such as *Strange Days* and *K 11* *The Widowmaker* and her triumph with *The Hurt Locker* In conversations ranging from the casual to the analytical Bigelow explains how her evolving ambitions and aesthetics sprang from her earliest aspirations to be a painter and conceptual artist in New York in the 1970s and then expanded to embrace Hollywood filmmaking when she was exposed to such renowned directors as John Ford Howard Hawks Don Siegel Sam Peckinpah and George Roy Hill

story The Political Thriller in Contemporary American Cinema Krešimir Bobaš, 2025-06-30 The Political Thriller in Contemporary American Cinema examines how political thriller films de construct and reflect the sociopolitical realities of the second half of the twentieth century as well as the first two decades of the twenty first century The book highlights the convergence between the cinematic narrative its underlying political discourse and the audience s perception of it Through a critical lens it analyzes how contemporary films utilize characterization narrative and suspense to examine topics of governance malfeasance and power dynamics By referring to films such as The Manchurian Candidate Zero Dark Thirty and Snowden this book traces the evolution of the political thriller questioning how its narratives mirror issues such as covert operations the erosion of democracy and governmental surveillance In turn the conspiratorial and underlying paranoid nature of these films serves as a reflection of societal anxieties and a metaphorization of the levers of power in America s modern day democracy Consequently this book serves as a contribution to the growing body of research on political cinema and the way it simultaneously reflects and shapes political life through its role as a sociocultural phenomenon In doing so it invites readers to further delve into the exploration of these films which represent complex commentaries on the structures of corporations media and the military that are predominant in contemporary American society and cinema **Memory and the Wars on Terror** Jessica Gildersleeve, Richard Gehrmann, 2017-10-24 This edited collection aims to respond to dominant perspectives on twenty first century war by exploring how the events of 9 11 and the subsequent Wars on Terror are represented and remembered outside of the US framework Existing critical coverage ignores the meaning of these events for people nations and cultures apparently peripheral to them but which have as shown in this collection been extraordinarily affected by the social political and cultural changes these wars have wrought Adopting a literary and cultural history approach the book asks how these events resonate and continue to show effects in the rest of the world with a particular focus on Australia and Britain It argues that such reflections on the impact of the Wars on Terror help us to understand what global conflict means in a contemporary context as well as what its representative motifs might tell us about how nations like Australia and Britain perceive and construct their remembered identities on the world stage in the twenty first century In its close examination of films novels memoir visual artworks media and minority communities in the years since 2001 this collection looks at the global impacts of these events and the ways they have shaped and continue to shape Britain and Australia s relation to the rest of the world **Public Trials** Lida Maxwell, 2015 There are certain moments such as the American founding or the Civil Rights Movement that we revisit again and again as instances of democratic triumph and there are other moments that haunt us as instances of democratic failure How should we view moments of democratic failure when both the law and citizens forsake justice Do such moments reveal a wholesale failure of democracy or a more contested failing pointing to what could have been and still might be Public Trials reveals the considerable stakes of how we understand democratic failure Maxwell argues against a tendency in the thinking of Plato Rousseau and contemporary

theorists to view moments of democratic failure as indicative of the failure of democracy inasmuch as such thinking leads to a deference to authority that unintentionally encourages complicity in elite and legal failures to assure justice. In contrast what Maxwell calls lost cause narratives of democratic failure reveal the contingency of democratic failure by showing that things could have been otherwise and with public action and response might yet be. A politics of lost causes calls for democratic responsiveness to failure via practices of resistance, theatrical claims making and re-narration. Maxwell makes a powerful case for the politics of lost causes by examining public controversies over trials. She focuses on the dilemmas and diagnoses of democratic failure in four instances: Edmund Burke's speeches and writings on the Warren Hastings trial in late 18th century Britain; Emile Zola's writings on the Dreyfus Affair in late 19th century France; Hannah Arendt's writings on the Eichmann trial in 1960's Israel; and Kathryn Bigelow's recent narration of the lack of trials of alleged terrorist detainees in *Zero Dark Thirty*. Maxwell marshals her subtle, historically grounded readings of these texts to show the dangers of despairing of democracy altogether as well as the necessity of re-narrating instances of democratic failure so as to cultivate public responsiveness to such failures in the future.

War on Terror and American Film McSweeney Terence
McSweeney, 2016-02-16 This compelling, theoretically informed and up to date exploration of contemporary American cinema charts the evolution of the impact of 9/11 on Hollywood film from *Black Hawk Down* (2001) through *Batman Begins* (2005), *United 93* (2006) to *Olympus Has Fallen* (2013). Through a vibrant analysis of a range of genres and films which in turn reveal a strikingly diverse array of social, historical and political perspectives, this book explores the impact of 9/11 and the war on terror on American cinema in the first decade of the new millennium and beyond.

September 11, 2001 as a Cultural Trauma Christine Muller, 2017-01-20 This book investigates the September 11, 2001 attacks as a case study of cultural trauma as well as how the use of widely distributed, easily accessible forms of popular culture can similarly focalize evaluation of other moments of acute and profoundly troubling historical change. The attacks confounded the traditionally dominant narrative of the American Dream which has persistently and pervasively featured optimism and belief in a just world that affirms and rewards self-determination. This shattering of a worldview fundamental to mainstream experience and cultural understanding in the United States has manifested as a cultural trauma throughout popular culture in the first decade of the twenty-first century. Popular press, oral histories, literary fiction, television and film are among the multiple ubiquitous sites evidencing preoccupations with existential crisis, vulnerability and moral ambivalence with fate, no-win scenarios and anti-heroes now pervading commonly told and readily accessible stories. Christine Muller examines how popular culture affords sites for culturally traumatic events to manifest and how readers, viewers and other audiences negotiate their fallout.

Disappearing War Christina Hellmich, 2017-02-03 The battles fought in the name of the war on terror have re-ignited questions about the changing nature of war and the experience of war for those geographically distant from its real world consequences. What is missing from our highly mediated experience of war? What are the intentional and

unintentional processes of erasure through which the distortion happens What are their consequences Cinema is a key site at which questions about our highly mediated experience of war can be addressed or more significantly elided Looking at a range of films that have provoked debate from award winning features like Zero Dark Thirty and American Sniper to documentaries like Kill List and Dirty Wars as well as at the work of visual artists like Harun Farocki and Omer Fast this book examines the practices of erasure in the cinematic representation of recent military interventions Drawing on representations of war related death dying and bodily damage this provocative collection addresses what's missing in existing scholarly responses to modern warfare in film studies as well as in politics and international relations **The**

Defeated and the Dead Mark Percy, 2024-07-01 How do we teach about war How can social studies teachers empower students to understand how wars are started how they are fought and how they are ended Films about war are featured in nearly all social studies classrooms across the US with practically every American teenager watching at least one historical film during their time in middle and high school Without the mandatory class viewing most of these movies would not have been seen by them otherwise Film is the medium through which most Americans learn about their national past But a passive viewing of a movie about war does little to help students learn to be critical thinkers about their country's choices In *The Defeated and the Dead Teaching About War Through Film* Dr Mark Percy outlines strategies and resources for teachers to incorporate movies about war into their classes in an effective thoughtful manner Employing elements of the Just War doctrine the basis for most international law and treaties this book highlights how teachers can make use of widely used films like *Saving Private Ryan* *Platoon* and *Glory* as well as other movies that span our nation's history from the American Revolution to modern conflicts By focusing on critical frameworks like Just War as well as featuring films both about war and the avoidance of war *The Defeated and the Dead* offers social studies teachers a valuable tool to approach difficult contentious topics in their classrooms

Invisibilities of Political Torture Jung Berenike Jung, 2020-06-18 Examines the ways in which moving images can help us better understand factual political torture Examines role of images and film in misunderstanding of torture Offers synergised knowledge through comparative angle exploring differences and continuities of torture cases which were documented to vastly different extents Includes key popular movies independent films as well as serial television Combines serious film analysis with ethical political questions and historically and theoretically informed research Expands on the latest developments of comparative media scholarship and integrates the nostalgic material and affective e turn e Academic work on the subject of torture tends to mirror public debates on its presumed utility to focus on its historically correct representation or on profilmic structures of identification This book moves beyond these ideologically charged questions to explore how contemporary films have responded to a growing popular distrust in visual evidence when referencing factual cases of torture Two case studies the United States around 2004 and Chile from 1973 until the end of the dictatorship provide either an abundance or lack of such visual evidence Drawing on films and television series such as

Zero Dark Thirty 2012 NO 2012 Homeland 2011 and Los 80 2008 14 amongst many others this book analyses the visible components of torture but also its invisibilities By casting a wider net on the definition of torture the author promotes a radical theoretical reframing of our concept of torture and suggests that audiovisual products can help broaden our comprehension of torture as an event which includes collective and emotional dimensions and long term social effects

The Mind-Game Film Thomas Elsaesser, 2021-03-28 This book represents the culmination of Thomas Elsaesser's intense and passionate thinking about the Hollywood mind game film from the previous two decades In order to answer what the mind game film is why they exist and how they function Elsaesser maps the industrial institutional challenges and constraints facing Hollywood and the broader philosophic horizon within which American cinema thrives today He demonstrates how the Persistence of Hollywood continues as it has adapted to include new twists and turns as well as revisions of past concerns as film moves through the 21st century Through examples such as Minority Report Mulholland Drive Source Code and Back to the Future Elsaesser explores how mind game films challenge us and play games with our perception of reality creating skepticism and self doubt He also highlights the mind game film's tendency to intervene in a complex fashion in the political moment by questioning the dominant power's intent to program both body and mind alike Prescient and compelling The Mind Game Film will appeal to students scholars and enthusiasts of media studies film studies philosophy and politics

Poetics of Politics Sebastian M. Herrmann, Carolin Alice Hofmann, Katja Kanzler, Stefan Schubert, Frank Usbeck, 2015-04-22 This volume proposes the poetics of politics as an analytic angle to interrogate contemporary cultural production in the United States As recent scholarship has observed American literature and culture around the turn of the millennium while still deeply informed by the textual self consciousness of postmodernism are marked by a rekindled interest in matters of social concern This revived interest in politics is frequently read as a grand epochal transition Sidestepping such a logic of periodization this book points to the interplay between the textual and the political as a dynamic always locally specific that affords unique insights into the characteristics of the contemporary moment The sixteen case studies in this book explore this interplay across a wide range of media genres and modes Together they make visible a broad cultural concern with negotiating social relevance and textual self awareness that permeates and structures contemporary US popular culture
