Dark Diary The First 2:

Dark Days Hugh Conway,1885 **No Holding Back** Jim Mason,2011 In 1980 John Anderson ran what experts initially considered a quixotic race for the Republican presidential nomination before switching to run as an independent He ran a unique campaign and won unprecedented support before it eventually fell apart No Holding Back tells the story of this riveting American political melodrama *The Dark Precursor* Paulo de Assis,Paolo Giudic,2017-11-14 Deleuze s and Guattari s philosophy in the field of artistic research Gilles Deleuze s intriguing concept of the dark precursor refers to intensive processes of energetic flows passing between fields of different potentials Fleetinglly used in Difference and Repetition it remained underexplored in Deleuze s subsequent work In this collection of essays numerous contributors offer perspectives on Deleuze s concept of the dark precursor as it affects artistic research providing a wide ranging panorama on the intersection between music art philosophy and scholarship The forty eight chapters in this publication present a kaleidoscopic view of different fields of knowledge and artistic practices exposing for the first time the diversity and richness of a world situated between artistic research and the philosophy of Gilles Deleuze and F lix Guattari Within different understandings of artistic research the authors composers architects performers philosophers sculptors film makers painters writers and activists map practices and invent concepts contributing to a creative expansion of horizons materials and methodologies Contributors VOLUME 1 Paulo de Assis Arno B hler Edward Campbell Diego Castro Magas Pascale Criton Zornitsa Dimitrova Lois Fitch Mike Fletcher Paolo Galli Lindsay Gianoukas Keir GoGwilt Oleg Lebedev Jimmie LeBlanc Nicolas Marty Fr d ric Mathevet Vincent Meelberg Catarina Pombo Nabais Tero Nauha Gabriel Paiuk Martin Scherzinger Einar Torfi Einarsson Steve Tromans Toshiya Ueno Susanne Valerie Audron ukauskait VOLUME 2 ric Alliez Manola Antonioli J rat Baranova Zsuzsa Baross Anna Barseghian Ian Buchanan Elena del R o Luis de Miranda Lucia D Errico Lilija Duoblien Adreis Echzehn Jae Emerling Verina Gfader Ronny Hardliz Rahma Khazam Stefan Kristensen Erin Manning John Miers Elfie Miklautz Marc Ngui Andreia Oliveira Federica Pallaver Andrej Radman Felix Rebolledo Anne Sauvagnargues Janae Sholtz Mhairi Vari Mick Wilson Elisabet Yanagisawa The Dark O' the Moon Samuel Rutherford Crockett,1902 Them Dark Days William Dusinberre,2000 Them Dark Days is a study of the callous capitalistic nature of the vast rice plantations along the southeastern coast It is essential reading for anyone whose view of slavery s horrors might be softened by the current historical emphasis on slave community and family and slave autonomy and empowerment Looking at Gowrie and Butler Island plantations in Georgia and Chicora Wood in South Carolina William Dusinberre considers a wide range of issues related to daily life and work there health economics politics dissidence coercion discipline paternalism and privilege Based on overseers letters slave testimonies and plantation records Them Dark Days offers a vivid reconstruction of slavery in action and casts a sharp new light on slave history **A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group** Paul J. Cook,2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of

successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army's self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army's institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America's national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army's history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG's creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit's failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty *Diaries* George

The Dark Side of Shakespeare: an Elizabethan Courtier, Diplomat, Spymaster, & Epic Hero W. Ron

Hess, 2003-10-29 The Dark Side of Shakespeare trilogy by W Ron Hess has been his 20 year undertaking to try to fill in many of the gaps in knowledge of Shakespeare's personality and times The first two volumes investigated wide ranging topics including the key intellectual attributes that Shakespeare exhibited in his works including the social and political events of the 1570s to early 1600s This was when Hess believes the Bard's works were being originated the earliest phases of artistry

from conception or inspiration to the first of multiple iterations of writing Hess highlights a peculiar fascination that the Bard had with the half brother of Spain's Philip II the heroic Don Juan of Austria or in 1571 the Victor of Lepanto From that fascination as determined by characters based on Don Juan in the plays e g the villain Don John in Much Ado and other matters Hess even made so bold as to propose a series of phases from the mid 1570s to mid 80s in which he feels each Shakespeare play had been originated or some early form of each play then existed if not in writing at least in the Bard's imagination Thus the creative process Hess describes is a vastly more protracted one than most Shakespeare scholars would admit to the absurd notion that the Bard would jot off the lines of a work in a few days or weeks and then immediately have it performed on the public stage or published shortly thereafter still dominates orthodox dating systems for the canon Hess draws on the works of many other scholars for using topical allusions within each work in order to set practical limits for when the origination and subsequent alterations of each play occurred In the trilogy's Volume III Hess continues to amplify a heroic knight errant personality type that Shakespeare's very pen name may have been drawn from a type which envied and transcended the brutal chivalry of Don Juan This was channeled into a patriotic anti Spanish and pro British imperial spirit particularly with regard to reforming and improving the English language so that it could rival the Greco Roman Italian and French poetic traditions one upping the best that the greats of antiquity and the Renaissance had achieved in literature In fact as vast as the story is that Hess tells in his three volumes there is a huge volume of material he is making available out of print on his webpage at <http://home.earthlink.net/beornshall/index.html> and via a Volume IV that he plans to offer on CD for a nominal cost via his e mail BeornsHall@earthlink.net Among this added material is a searchable 1 000 page Chronological listing of Everything that Hess deems relevant to Shakespeare and his age or to the providing of the canon to modern times Hess feels that discernable patterns can be detected through that chronology that help to illuminate the roles of others in the Bard's circle such as Anthony Munday and Thomas Heywood The network of 16th and 17th century Stationers printers publishers and book sellers and their often curious doings provide many of those patterns Hess invites his readers to help to continuously update the Chronology and other materials so that those can remain worthwhile research resources for all to use For the mysteries of Shakespeare and his age can only be unraveled through fully understanding the patterns within

Intelligence during World War II specifically in the context of planning control and implementation of the combined bomber offensive against Germany There are sound arguments based on official archives that the handling of much air intelligence was faulty and reasons to believe that some departments within Whitehall were influenced by parochial and personal attitudes that interfered with the selection of strategic targets and the planning of the bombing offensives In some departments within Whitehall and even the Air Ministry there was a culpable failure to understand and appreciate the operational capabilities and limitations of the RAF and USAAF bomber forces After the evacuation of the BEF the only means of destroying the Axis production of arms and munitions fell to the RAF and this was their prime objective for the rest of the war The destruction of arms factories power stations air and ship production was the underlining objective although when special targets such as the break outs of the German navy s major warships and U Boats were deemed vital the RAF were expected to react immediately Much of Britain s intelligence was gathered from the German ENIGMA signals and became known as ULTRA with a security classification of MOST SECRET Apart from the brilliant work at Bletchley Park there were other inputs from partisans throughout occupied Europe Allied agents and various forms of reconnaissance It was a new type of warfare that developed and improved as the war progressed but all too often the bomber squadrons were put into unnecessary peril through imprecise and unthinking demands from the highest levels of government
