Englische Subsidien für Tirol und die Emigranten von 1809 Josef Hirn, 1912 *The Piozzi Letters: 1805-1810* Hester Lynch Piozzi, 1989 The British and German Worlds in an Age of Divergence (1600-1850) Niels Grüne, Stefan Ehrenpreis, 2024-07-22

The question of whether Britain is apart from or a part of Europe D Abulafia has gained significance in recent years This book reassesses an underexplored field of early modern transnational history the variety of ways in which connections between Britain and German speaking Europe shaped developments After a comprehensive introduction this book is divided into three parts cross border transfers and appropriations of knowledge coping with alterity in intergovernmental contacts and ideologising the cultural nation The topics range from the exchange of religious and political ideas over court life diplomacy and espionage to literary and philosophical debates Particular attention is paid to the media processes involved and to the practical value of knowledge about the other in different historical contexts The picture emerging from the case studies reveals an intriguing dynamic Mutual interest and ambiguous entanglements deepened precisely at a time when the British and German worlds diverged evermore from each other in terms of social and political structures This fascinating volume sheds new light on Anglo German relations and will be essential reading for students of early modern European history
