Monroe Stowe, 2015-07-12 Excerpt from English Grammar Schools in the Reign of Queen Elizabeth The history of English secondary education in the sixteenth century reveals two movements one of destruction the other of reconstruction The former movement reached its climax in the destruction of the monasteries guilds and chantries since with these there perished a very large number of the institutions of English secondary education But before this climax had been reached the latter movement had exhibited itself in the foundation of such schools as St Paul s and the City Grammar School of Bristol While the former movement was spending itself the latter continued to grow Close upon the destruction of the monasteries and their schools followed the refoundation of the cathedrals and the cathedral schools by Henry VIII while simultaneously with the destruction of the guild and chantry schools occurred the foundation of increasing numbers of independent schools It is with these independent schools as they existed in the reign of Elizabeth that the present study is concerned since it is hoped that through the study of the facts concerning their foundation and support their government their teaching staff their curricula and the school life of their pupils there may result not only a description of the schools as they existed at that period but also the discovery of at least some of the chief characteristics of the education and educational institutions of this reconstructive movement in the English secondary education of the Elizabethan period About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Great Schools of England: an account of the foundation, endowments, and discipline of the chief seminaries of learning in England ... With illustrations Howard Staunton,1869 *The Oxford History of Classical Reception in English Literature* Patrick Cheney,Philip Hardie,2015-10-29 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading *The Public Schools Year Book* ,1920 *Parliamentary Papers* Great Britain.
