Mr Thomas Frog

Little Tommy Tadpole
began to weep and wail,
For little Tommy Tadpole
had lost his little tail;

And his mother didn't know him
as he wept upon a log.
For he wasn't Tommy Tadpole,
but Mr Thomas Frog.

Re-Envisioning Education Rajni Shankar-Brown, 2022-09-01 With increasing diversity and widening disparities in the United States and globally there are significant challenges and opportunities throughout the educational landscape Today s educational stakeholders particularly public school administrators and teachers must re envision education and collectively build equity centered systems structures and practices Confronting systemic inequality in education can be a daunting task but it is nonetheless imperative Connecting theory to practice this book aims to promote inclusive educational excellence and will offer valuable insights and inspiration to a wide range of educational stakeholders Affirming diversity and advancing social justice requires dismantling oppressive customs and structures inside and outside of the classroom fostering an equitable school culture building inclusive learning environments and increasing collective efficacy though best practice Creating healthier schools and communities requires authentically investing in and supporting historically and socially marginalized students and families Rooted in social justice and weaving together diverse voices from the field of education this edited volume will examine equity focused pre K 12 pedagogical practices and showcase high impact initiatives Educators play a vital role in ensuring positive student outcomes and success but often report feeling inadequately prepared for current challenges Unfortunately growing challenges are contributing to turnover rates and shortages as well as perpetuating social inequities among pre K 12 students instead of dismantling them A research study by the National Association of Secondary School Principals NASSP and the Learning Policy Institute LPI reveals that public schools with higher percentages of low income students and students of color are more likely to experience administrative and teacher turnover which compounds equity issues affecting already vulnerable students This edited volume will provide educational stakeholders i e school administrators teachers service providers parents guardians nonprofit leaders community members with a deeper understanding of pedagogical practices that affirm diversity and promote social justice while offering a current view of educational inequalities juxtaposed with an urgent call to

action School districts across the United States must recognize inequalities and provide increasingly diverse students with needed support and resources particularly as social disparities continue to widen and adversely impact millions of students Through a collection of diverse voices from the field of education university educators pre K 12 district leaders schools administrators and teachers Nonprofit leaders serving children and youth this book will illuminate current social inequalities impacting pre K 16 students establish the need to affirm diversity and advance social justice share practical examples of transformative initiatives including mindful school family community partnerships feature evidence based pedagogical practices and provide an array of helpful resources for 21st century educational stakeholders *Growing Up in the People's Republic* W. Ye, 2005-12-10 In a conversational style and in chronological sequence Ye Weili and Ma Xiaodong recount their earlier lives in China from the 1950s to the 1980s a particularly eventful period that included the catastrophic Cultural Revolution Using their own stories as two case studies they examine the making of a significant yet barely understood generation in recent Chinese history They also reflect upon the mixed legacy of the early decades of the People's Republic of China PRC In doing so the book strives for a balance between critical scrutiny of a complex era and the sweeping rejection of that era that recent victim literature embraces Ultimately Ye and Ma intend to reconnect themselves to a piece of land and a period of history that have given them a sense of who they are Their stories contain intertwining layers of personal generational and historical experiences Unlike other memoirs that were written soon after the events of the Cultural Revolution Ye and Ma's narratives have been put together some twenty years later allowing for more critical distance The passage of time has allowed them to consider important issues that other accounts omit such as the impact of gender during this period of radical change in Chinese women's lives *Voices of Diversity* Mary C. Sengstock, 2009-03-05 The 21st century sees an increasing number of cultural minorities in the United States Particularly the rise in multi cultural or mixed heritage families is on the rise As with many trends just as the amount of diversity increases so does the level of resistance in groups that oppose this diversity While this problem exists through life for persons from multicultural backgrounds the tension is particularly acute for children whose identities and socialization experiences are still in formation With parents from different cultural backgrounds as well as school and community experiences giving that might question their diverse heritage children are likely to experience distressing confusion How can they come to terms with this conflict and how can family and community help them to resolve it Combining case studies and interviews this work particularly focuses on multi cultural families as a yet untapped source of information about inter culture contact *Voices of Diversity* Multiculturalism in America will be both a resource for researchers and practitioners as well as a practical guide to families dealing with these issues every day
