

Books are always our best companions. The idea of writing or editing a book remains always in our mind. Our students come from various ethnic background and are very fluent in English reading, writing and speaking. English is not just a second language to them, but it is completely a foreign language to the rural background people. So, we research innovative techniques to make them familiar. This continuous research motivates us to edit a book on this topic. We can still use the potential of the book as it is not just about the "teaching" of English but focuses on "Learning" English as well. But at times it will be very helpful for all to get us.

The book making is a long process and it needs a careful study of your topic and research method, design, along with very intensive and extensive grammar research work before we start. The very first thing which struck our mind was to choose the topic which could be beneficial for students and teachers both. Our undergraduate students, who actually lack their English speaking, reading and writing standards, gave us most new topics to write. They and their problems made and we're collect opinions of our fellow colleagues on the wider perspective of the chosen topic, and edit a book on this subject. We have understood the current scenario which need to be given emphasis when we teach or learn English. Our intention is to provide the right model to enhance and learn English as a second language.
