Unseen City Nathanael Johnson,2016-04-05 It all started with Nathanael Johnson s decision to teach his daughter the name of every tree they passed on their walk to day care in San Francisco This project turned into a quest to discover the secrets of the neighborhood s flora and fauna and yielded more than names and trivia Johnson developed a relationship with his nonhuman neighbors Johnson argues that learning to see the world afresh like a child shifts the way we think about nature Instead of something distant and abstract nature becomes real all at once comical annoying and beautiful This shift can add tremendous value to our lives and it might just be the first step in saving the world No matter where we live city country oceanside or mountains there are wonders that we walk past every day Unseen City widens the pinhole of our perspective by allowing us to view the world from the high altitude eyes of a turkey vulture and the distinctly low altitude eyes of a snail The narrative allows us to eavesdrop on the comically frenetic life of a squirrel and peer deep into the past with a ginkgo biloba tree Each of these organisms has something unique to tell us about our neighborhoods and chapter by chapter Unseen City takes us on a journey that is part nature lesson and part love

letter to the world's urban jungles With the right perspective a walk to the subway can be every bit as entrancing as a walk through a national park

*Rural development* Kristof Van Assche, Anna-Katharina Hornidge, 2023-09-04 This book offers a unique perspective on rural development by discussing the most influential perspectives and rendering their risks and benefits visible The authors do not present a silver bullet Rather they give students researchers community leaders politicians concerned citizens and development organizations the conceptual tools to understand how things are organized now which development path has already been taken and how things could possibly move in a different direction Van Assche and Hornidge pay special attention to the different roles of knowledge in rural development both expert knowledge in various guises and local knowledge Crafting development strategies requires understanding how new knowledge can fit in and work out in governance Drawing on experiences in five continents the authors develop a theoretical framework which elucidates how modes of governance and rural development are inextricably tied A community is much better placed to choose direction when it understands these ties

**Nature Spirituality From the Ground Up** Lupa, 2016-01-08 Nature Spirituality from the Ground Up invites you to go beyond simply exploring the symbols of nature and encourages you to bury your hands in the earth and work with the real thing This is a book on green spirituality that makes a difference empowering you to connect with totems as a part of your spiritual life Uniquely approaching totems as beings we can give to rather than take from Lupa shows how orienting yourself this way deepens your spiritual connection to the earth and helps you rejoin the community of nature And while most books on totems focus on animals Nature Spirituality from the Ground Up helps you work with interconnected ecosystems of totems plants fungi minerals waterways landforms and more
