Mauriac's reputation as a novelist is well established; it is often forgotten that fiction forms only part of his output and that in the post-war years especially, it was principally his activities as a journalist which kept him in the public eye. His interventions in the key debates of the period helped to consolidate his position as a major intellectual alongside Jean-Paul Sartre and Albert Camus. This book examines the evolution of François Mauriac's career during the twentieth century and his gradual transformation from novelist to intellectual. Situating Mauriac and his activities firmly in their socio-cultural context, it draws in particular on the insights provided by Bourdieusian sociology to explore the mechanisms and social processes which allow Mauriac to emerge as an authoritative voice of moral conscience. In doing so, it offers new perspective on key moments in his career from his changing fortunes as a novelist in the 1930s examined here for the first time through the prism of his reception by the influential *Nouvelle Revue française* to his unlikely collaboration with the then radical *L'Express* in the 1950s. At the same time, it argues that tracing Mauriac's trajectory helps to crystallise the broader changes affecting the literary and cultural landscape in France during the twentieth century.

Rendu sur les lieux il pense se trouver dans un asile de fous l'entière maisonne est soumise à la tyrannie imbécile d'un tartuffe de province animé d'une haine inexpugnable envers le monde qui a fait de lui un rat Ce roman porté par une belle énergie comique celle de la farce ou du théâtre de marionnettes fut critiqué en 1859 par un auteur qui après dix ans de bagne et de relégation revenait dans la vie littéraire.
