**Confucian Perspectives on Learning and Self-Transformation** Roland Reichenbach, Duck-Joo Kwak, 2020-05-18 This book bridges the regions of East Asia and the West by offering a detailed and critical inquiry of educational concepts of the East Asian tradition It provides educational thinkers and practitioners with alternative resources and perspectives for their educational thinking to enrich their educational languages and to promote the recognition of educational thoughts from different cultures and traditions across a global world The key notions of Confucian and Neo Confucian philosophy directly concern the ideals processes and challenges of learning education and self transformation which can be seen as the western equivalences of liberal education including the German concept of Bildung All the topics in the book are of fundamental interest across diverse cultures giving a voice to a set of long lasting and yet differentiated cultural traditions of learning and education and thereby creating a common space for critical philosophical reflection of one's own educational tradition and practice The book is especially timely given that the vocabularies in educational discourse today have been dominantly West centred for a long time even while the whole world has become more and more diverse across races religions and cultures It offers a great opportunity to philosophers of education for their cross cultural understanding and self understanding of educational ideas and practices on both personal and institutional levels

Chinese sages to the secrets of human nature      A Brief History of the Relationship Between Confucianism, Daoism, and Buddhism Zhongjian Mou, 2023-01-01 Chinese traditions of Confucianism Daoism and Buddhism have a profoundly philosophical dimension The three traditions are frequently referred to as three paths of moral teachings In this book Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written core for their own time and place In his careful exegesis Mou lays out the differences between the more religious reading of these traditions with their defining practices that punctuate the human journey through life and the more intellectual and philosophical treatment of the texts that has and continues to produce a first order culture of annotation that become integral to the traditions themselves At the center of the alternative religious experience reflected throughout the teachings of Confucianism Daoism and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations For Mou these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality      *Dao Companion to Xuanxue* 道 (Neo-Daoism) David Chai, 2020-09-29 This comprehensive volume surveys an important but neglected period of Chinese intellectual history Xuanxue Neo Daoism It provides a holistic approach to the philosophical and religious traits of this movement via the concepts of non being being and oneness Thinkers and texts on the periphery of Xuanxue are also examined to show readers that Xuanxue did not arise in a vacuum but is the result of a long and continuous evolution of ideas from pre Qin Daoism The 25 chapters of this work survey the major philosophical figures and arguments of Xuanxue a movement from the Wei Jin dynastic period 220 420 CE of early medieval China It also examines texts and figures from the late Han dynasty whose influence on Xuanxue has yet to be made explicitly clear In order to fully capture the multifaceted nature of this movement the contributors brilliantly highlight its more socially oriented characteristics Overall this volume presents an unrivaled picture of this exciting period It details a portrait of intellectual and cultural vitality that rivals if not surpasses what was achieved during the Warring States period Readers of the Yijing Daodejing and Zhuangzi will feel right at home with the themes and arguments presented herein while students and those coming to Xuanxue for the first time will acquire a wealth of knowledge      *Historical Dictionary of Confucianism* Ronnie L. Littlejohn, 2023-11-03 Historical Dictionary of Confucianism is devoted exclusively to Confucianism the great Chinese tradition that has gathered around the teachings of Confucius Kongzi for more than 2 500 years Confucianism encompasses a broad array of moral social philosophical and religious ideas values and practices It is an ancient and immense tradition of great subtlety and complexity This work provides ready access to terms personalities movements and texts of the tradition as it has made its trek throughout East Asia especially Korea and Japan This book contains a chronology introduction and extensive bibliography The dictionary section has more than 700 cross referenced entries on terms

personalities movements and texts of the tradition Historical Dictionary of Confucianism is an excellent resource for students researchers and anyone wanting to know more about Confucianism Three Streams Philip J. Ivanhoe, 2016-09-15 Recent interest in Confucianism has a tendency to suffer from essentialism and idealism manifested in a variety of ways One example is to think of Confucianism in terms of the views attributed to one representative of the tradition such as Kongzi Confucius 551 479 BCE or Mengzi Mencius 372 289 BCE or one school or strand of the tradition most often the strand or tradition associated with Mengzi or in the later tradition that formed around the commentaries and interpretation of Zhu Xi 1130 1200 Another such tendency is to think of Confucianism in terms of its manifestations in only one country this is almost always China for the obvious reasons that China is one of the most powerful and influential states in the world today A third tendency is to present Confucianism in terms of only one period or moment in the tradition for example among ethical and political philosophers pre Qin Confucianism usually taken to be the writings attributed to Kongzi Mengzi and if we are lucky Xunzi 479 221 BCE often is taken as Confucianism These and other forms of essentialism and idealism have led to a widespread and deeply entrenched impression that Confucianism is thoroughly homogenous and monolithic these often are facts mustered to support the purportedly oppressive authoritarian and constricted nature of the tradition such impressions can be found throughout East Asia and dominate in the West This is quite deplorable for it gives us no genuine sense of the creatively rich philosophically powerful highly variegated and still very much open ended nature of the Confucian tradition This volume addresses this misconstrual and misrepresentation of Confucianism by presenting a philosophically critical account of different Confucian thinkers and schools across place China Korea and Japan and time the 10th to 19th centuries
