that were expected to follow from dedicated praxis On the basis of historical contextualization and textual analysis it is demonstrated that in its formative and incipient organized phases Quanzhen was a Daoist religious community consisting of a few renunciants dedicated to religious praxis The study proper is followed by a complete annotated translation of a text attributed to the founder which represents one of only two early Quanzhen texts translated to date Subsequent appendices address issues of dating and contents of the early textual corpus as well as technical Quanzhen religious terminology **The**

Ronnie L. Littlejohn, 2009-03-16 The way that can be told is not the eternal Way the name that can be named is not the eternal Name So begins the first verse of the mysterious Dao De Jing foundation text of the ancient Chinese religion of Daoism Often attributed to semi mythical sage Laozi the origins of this enigmatic document which probably came into being in the third century BCE are actually unknown But the tenets of Daoism laid down in the Dao De Jing and in later texts like the Yi Jing or Book of Changes continue to exert considerable fascination particularly in the West where in recent years they have been popularised by writers such as the novelist Ursula K LeGuin In this fresh and engaging introduction to Daoism Ronnie L Littlejohn discusses the central facets of a tradition which can sometimes seem as elusive as the slippery notion of Dao itself The author shows that fundamental to Daoism is the notion of Wu wei or non action a paradoxical idea emphasising alignment of the self with the harmony of the universe a universe in continual flux and change This flux is expressed by the famous symbol of Dao the taiji representing yin and yang eternally correlating in the form of a harmonious circle Exploring the great subtleties of this ancient religion Littlejohn traces its development and encounters with Buddhism its expression in art and literature its fight for survival during the Cultural Revolution and its manifestations in modern day China and beyond

Introducing Daoism Livia Kohn, 2009 **Historical Dictionary of Daoism** Ronnie L. Littlejohn, 2019-11-29 Daoism is the oldest indigenous philosophic spiritual tradition of China and one of the most ancient of the world's spiritual structures The name Daoism comes from the term dao which means a way or a road through the field or woods to one's village It is also

means the way to do something such as how a master craftsman carves wood makes a bell or even butchers an ox But dao is also a nominative in the history of Daoism referring to the energizing process that permeates and animates all of reality and moves it along However both text and practice in this tradition insist that dao itself cannot be described in words it is not God in the sense of Western philosophy or religion Daoism has no supreme being even if there is an extensive grammar about nominally self conscious entities and powers for which the Chinese use the word spirit shen For example the highest powers of Daoism are variously called Taishang Laojun the deified Laozi the Celestial Worthy of Primordial Beginning Yuanshi tianzun the Jade Emperor Yuhuang Shangdi or the Perfected Warrior Zhenwu But these are expressions of dao in specific shen they are not identical to Dao except in the most unique case when Laozi the putative founder of Daoism and author of its major work Daodejing is said to be one with the dao Historical Dictionary of Daoism contains a chronology an introduction appendixes an extensive bibliography and more than 400 cross referenced entries related to the Chinese belief and worldview known as Daoism including dozens of Daoist terms names and practices This book is an excellent resource for students researchers and anyone wanting to know more about Daoism *The Emergence of Daoism* Gil Raz, 2012-03-15 At

the core of Daoism are ancient ideas concerning the Way the fundamental process of existence the Dao Humans as individuals and as a society should be aligned with the Dao in order to attain the fullness of life and its potential This book presents the history of early Daoism tracing the development of the tradition between the first and the fifth centuries CE This book discusses the emergence of several Daoist movements during this period including the relatively well known Way of the Celestial Master that appeared in the second century and the Upper Clarity and the Numinous Treasure lineages that appeared in the fourth century These labels are very difficult to determine socially and they obscure the social reality of early medieval China that included many more lineages This book argues that these lineages should be understood as narrowly defined associations of masters and disciples and it goes on to describe these diverse social groupings as communities of practice Shedding new light on a complex and multifaceted phenomenon the formation of Daoism as a new religion in early medieval China this book presents a major step forward in Daoist Studies **The Oxford Handbook of Religious**

Daoism in Japan Jeffrey L. Richey, 2015-05-01 Like an ancient river Daoist traditions introduced from China once flowed powerfully through the Japanese religious landscape forever altering its topography and ecology Daoism's presence in Japan still may be discerned in its abiding influence on astrology divination festivals literature politics and popular culture not to mention Buddhism and Shintō Despite this legacy few English language studies of Daoism's influence on Japanese religious culture have been published Daoism in Japan provides an exploration of the particular pathways by which Daoist traditions entered Japan from continental East Asia After addressing basic issues in both Daoist Studies and the study of Japanese religions including the problems of defining Daoism and Japanese the book looks at the influence of Daoism on ancient medieval and modern Japan in turn To do so the volume is arranged both chronologically and topically according to the following three broad divisions Arrivals c 5th 8th centuries CE Assimilations 794 1868 and Apparitions 1600s present The book demonstrates how Chinese influence on Japanese religious culture ironically proved to be crucial in establishing traditions that usually are seen as authentically even quintessentially Japanese Touching on multiple facets of Japanese cultural history and religious traditions this book is a fascinating contribution for students and scholars of Japanese Culture History and Religions as well as Daoist Studies

Facets of Qing Daoism Monica Esposito, 2016-03-11 As China is rapidly reemerging as the world's dominant economic powerhouse that it had been until the mid eighteenth century interest in its religions and philosophies is on the rise Just as the history and culture of Western civilizations can hardly be grasped without a measure of knowledge about Christianity an understanding of Chinese civilization and its history seems impossible without some comprehension of Daoism Though it has long been clear that modern Daoism has its roots in Daoist movements of the Qing dynasty 1644 1911 research on premodern Daoism had been largely neglected Published in six languages Italian French English German Chinese and Japanese the pioneering studies by Monica Esposito 1962 2011 on Qing Daoism have been instrumental in

kindling keen scholarly interest both in the West and in China and Japan This book presents corrected and augmented versions of three of Dr Esposito's seminal articles that had originally been published in English Daoism in the Qing The Longmen School and its Controversial History and Longmen Daoism in Qing China Doctrinal Ideal and Local Reality along with English versions of two articles that had hitherto only been available in Japanese and Chinese Beheading the Red Dragon The Heart of Feminine Alchemy and An Example of Daoist and Tantric Interaction during the Qing Dynasty The Longmen xinzong In addition this volume contains a bibliography of all her publications and a detailed index

Power of Place James Robson, 2020-03-17 Throughout Chinese history mountains have been integral components of the religious landscape They have been considered divine or numinous sites the abodes of deities the preferred locations for temples and monasteries and destinations for pilgrims Early in Chinese history a set of five mountains were co-opted into the imperial cult and declared sacred peaks yue demarcating and protecting the boundaries of the Chinese imperium The Southern Sacred Peak or Nanyue is of interest to scholars not the least because the title has been awarded to several different mountains over the years The dynamic nature of Nanyue raises a significant theoretical issue of the mobility of sacred space and the nature of the struggles involved in such moves Another facet of Nanyue is the multiple meanings assigned to this place political religious and cultural Of particular interest is the negotiation of this space by Daoists and Buddhists The history of their interaction leads to questions about the nature of the divisions between these two religious traditions James Robson's analysis of these topics demonstrates the value of local studies and the emerging field of Buddh Daoist studies in research on Chinese religion
