work that transform your life How to dissolve and release stress tension and emotional reactivity from your life How to work through trauma using internal work If you re tired of living a reactive life and you want to go deeper in your magical practice and get better results this book will show you how to apply internal work to your life Internal Martial Arts Nei-gong Bill Bodri, John Newton, 2011 In many old martial arts films you often see a master capable of extraordinary supernormal feats such as being able to move with the speed of wind throw incredibly heavy objects destroy them with a strike stride over water or even fly through the air Are such things possible The Chinese Taoists say yes if the master practiced special exercises to cultivate their inner energy or yang chi qi These practices to cultivate inner power are called nei gong or the internal martial arts and are related to the mastery of the kundalini energies cited in Indian yogic and Buddhist literature which also explains the various superpowers that become possible with its cultivation Many people today want to be able to attain such supernormal skills or they simply want to understand why and how these skills were cultivated so they might be duplicated as best possible Some practitioners of Tai Chi Chuan Hsing Yi Ba Gua Zhang Five Animals Aikido Karate Judo Northern Shaolin and other Kung Fu Wushu traditions have alternatively damaged their bodies from their practice or have reached a training plateau and want some sure methods to break their current limits and bring their martial arts skills to the next level This book explains the major practices on how to properly cultivate nei gong safely to achieve all these objectives The information provided because of its advance nature was usually considered the high secrets of martial arts lineages made available only to the top students who also practiced breathing methods and meditation It explains how to cultivate the mythical martial arts through the initial practice of qi gong and then inner nei gong exercises involving anapana pranayama one pointed visualization kasina meditations and sexual cultivation It provides training information applicable to Iron Palm Iron Shirt or Dim Mak techniques which though incredible in themselves still fall far short of the special supernormal achievements possible after a martial arts student successfully opens up their chakras and chi channels in particular their sushumna central channel and the macrocosmic chi circulation within the body This is the only book in English offering detailed instructions on how to cultivate the Taoist concept of shen which is the stage of awareness attained after cultivating your chi to a high level For purposes of attaining inner gong fu kung fu it also teaches how to cultivate the Six Yogas of Naropa and the Tibetan tantric mantras for opening up the body s central chi channel In terms of specific long term nei gong methods it stresses visualization and anapana practices which are explained in conjunction with more advanced techniques for dissolving inner energy blockages Rather than just focusing on internal martial arts kung fu the authors go even a step further also bring forth many rarely discussed modern training principles for peak athletic performance that can be applied to martial arts and provide practical information on various vitamin mineral supplements detoxification routines and bodywork therapies that can help heal martial arts injuries and lead to improved skills even if the nei gong route of internal martial arts energies and gong fu is not mastered This is a truly unique book quite different than what s normally available

for the martial arts tradition because it provides full materials on topics rarely covered elsewhere and reveals not one two or three but a plethora of inner training practices even for qi gong along with what are normally considered their secret training details *The Four Dignities* Cain Carroll, 2014-09-21 Based on the author's long experience of Yogic and Daoist traditions this book explores the embodiment of spiritual practice in the most basic functions of daily life The author shows how to bring the consciousness to bear on the body in lying sitting standing and walking with transformational consequences

Empty Cloud - The Autobiography Of The Chinese Zen Master XuYun , INTRODUCTION Long before the time of his death in 1959 at the venerable age of 120 on Mount Yun ju Jiangxi Province Master Xu yun's name was known and revered in every Chinese Buddhist temple and household having become something of a living legend in his own time His life and example has aroused the same mixture of awe and inspiration in the minds of Chinese Buddhists as does as does a Milarepa for the Tibetan Buddhist tradition remarkable in view of the fact that Xu yun lived well into our own era tangibly displaying those spiritual powers that we must otherwise divine by looking back through the mists of time to the great Chan adepts of the Tang Song and Ming Dynasties They were great men whose example still inspires many today but in many cases we have scant details as to their lives as individuals outside their recorded dialogues or talks of instruction The compelling thing about Xu yun's story which follows is that it paints a vivid portrait of one of China's greatest Buddhist figures complete with all the chiaroscuro of human and spiritual experience It is not a modern biography in the Western sense it is true but it does lay bare the innermost thoughts and feelings of Master Xu yun making him seem that much more real to us No doubt the main thing for a Buddhist is the instructional talks and Xu yun's are rich in insights but it is only natural that we should wonder about the individual human factors asking what life was like for these fascinating figures After all holy men are like mountains while their peaks of attainment may thrust into unbounded space they must rest on the broad earth like the rest of us That part of their experience how they relate to temporal conditions is an intrinsic part of their development even if the ultimate goal be to pass beyond the pale of this world In Xu yun's account we are given a fascinating glimpse into the inner life of a great Chinese Buddhist Master By the time of his passing Xu yun was justifiably recognized as the most eminent Han Chinese Buddhist in the Middle Kingdom When he gave his talks of instruction at meditation meetings and transmitted the Precepts in his final decades literally hundreds of disciples converged upon the various temples where he met and received his followers and on some occasions this number swelled to thousands Such a wave of renewed enthusiasm had not been witnessed in the Chinese monasteries since the Ming Dynasty when Master Han shan 1546 1623 appeared This eminent Master had also found the Dharma in decline and set about reconstructing the temples and reviving the teachers as would Master Xu yun some three hundred years or so later Only years before these great gatherings around Master Xu yun many of the temples which he was subsequently to use had been little more than ruined shells decrepit shadows of their former grandeur and vitality but the Master revived these along with the teachings that were their very raison d'être Not

surprisingly Xu yun soon acquired the nickname Han shan come again or Han shan returned for their careers were in many respects similar Both had shared the ordination name of De qing and both had restored the Monastery of Hui neng at Cao xi among others in their times However unlike his eminent predecessors in the Tang Song and Ming Dynasties who had frequently enjoyed official patronage and support from Emperor and State Xu yun s long life of 120 years spanned a most troublesome time both for China and Chinese Buddhism It was a period continually punctuated by both civil and international conflict with almost perpetual doubt and confusion as to China s future and security one in which general want and straitened circumstances were the order of the day Xu yun was born in 1840 around the time of the Opium Wars and by 1843 the Treaty of Nanjing had been signed with the ceding of Hong Kong to Great Britain the thin end of a wedge of foreign intervention in China s affairs that was to have fateful and long lasting repercussions Xu yun lived to see the last five reigns of the Manchu Dynasty and its eventual collapse in 1911 the formation of the new Republican era taking place in the following year With the passing of the old order much was to change in China China s new leaders were not that concerned about the fate of Buddhism and indeed many of them were inclined to regard it as a medieval superstition standing in the way of all social and economic progress The waves of modernism sweeping China at this time were not at all sympathetic towards Buddhism nor any other traditional teachings Needless to say many of the monasteries found themselves falling on hard times and many others had already been in ruins before the fall of the dynasty Government support for the Buddhist temples was scanty when not altogether absent Of course China s new leaders had other things on their minds for besides the frequent famines droughts and epidemics which ravaged China during these years there was also the growing threat of Japanese invasion The Communist Chinese were rising in the countryside soon to find sufficient strength to take on the Nationalist armies By the late 1930s Japanese troops occupied large areas of northern China It goes without saying that this unfortunate social and political climate hardly offered the best of circumstances in which to embark upon large scale renewal of the Chinese Buddhist tradition
