Vanishing Grace Philip Yancey,2018-06-05 In a time of division and discord Christians have come to be seen not as bearers of good news and love but of judgement and intolerance How did we get here And what can we do about it With a reporter s eye and a compassionate heart Philip Yancey bestselling author of What s So Amazing About Grace suggests practical ways in which we can live as salt and light within a society that is radically changing What can we learn from those who shun church but consider themselves spiritual How do people like artists pilgrims and activists model for us a more compelling path to faith than our usual concept of evangelism Can the good news once spoiled ever sound good again In Vanishing Grace Yancey tackles challenging and timely questions and offers a discerning look at what contributes to the rising hostility toward Christians acknowledging the ways that Christians themselves have contributed to this hostility and

Routledge Revivals: God, Literature and Process Thought (2002) Darren Middleton, 2018-02-01 Originally published in 2002 God Literature and Process Thought looks at the use of God in writing as a part of the creative advance immersed in the processes of reality and affected by events in the world This edited collection outlines and promotes the novel view that there is much to be gained when those who value the insights of process thought

encounter the many and varied writers of literature and literary theory It also celebrates the notion of process poesis a fresh way of reflecting theologically and philosophically that takes account of literary forms and promises to transform creatively the very structure of process thought today **Dreaming the Future** Ken Ausubel,2012 In a collection of short witty poignant even humorous essays Ausubel tracks the big ideas emerging trends and game changing developments of our time He guides us through our watershed moment showing how it s possible to emerge from a world where corporations are citizens the gap between rich and poor is cavernous and biodiversity and the climate are under assault and create a world where we take our cues from nature and focus on justice equity diversity democracy and peace The Empathic Civilization Jeremy Rifkin,2009-12-31 One of the leading big picture thinkers of our day Utne Reader delivers his boldest work in this erudite tough minded and far reaching manifesto Never has the world seemed so completely united in the form of communication commerce and culture and so savagely torn apart in the form of war financial meltdown global warming and even the migration of diseases No matter how much we put our minds to the task of meeting the challenges of a rapidly globalizing world the human race seems to continually come up short unable to muster the collective mental resources to truly think globally and act locally In his most ambitious book to date bestselling social critic Jeremy Rifkin shows that this disconnect between our vision for the world and our ability to realize that vision lies in the current state of human consciousness The very way our brains are structured disposes us to a way of feeling thinking and acting in the world that is no longer entirely relevant to the new environments we have created for ourselves The human made environment is rapidly morphing into a global space yet our existing modes of consciousness are structured for earlier eras of history which are just as quickly fading away Humanity Rifkin argues finds itself on the cusp of its greatest experiment to date refashioning human consciousness so that human beings can mutually live and flourish in the new globalizing society In essence this shift in consciousness is based upon reaching out to others But to resist this change in human relations and modes of thinking Rifkin contends would spell ineptness and disaster in facing the new challenges around us As the forces of globalization accelerate deepen and become ever more complex the older faith based and rational forms of consciousness are likely to become stressed and even dangerous as they attempt to navigate a world increasingly beyond their reach and control Indeed the emergence of this empathetic consciousness has implications for the future that will likely be as profound and far reaching as when Enlightenment philosophers upended faith based consciousness with the canon of reason *More Matter* John Updike,2009-02-19 In this collection of nonfiction pieces John Updike gathers his responses to nearly two hundred invitations into print each an opportunity to make something beautiful to find within oneself a treasure that would otherwise remain buried Introductions reviews and humorous essays paragraphs on New York religion and lust here is more matter commissioned by an age that as the author remarks in his Preface calls for real stuff not for the obliquities and tenuosities of fiction Still the novelist s shaping hand his gift for telling detail can be detected in many of these literary considerations

Books by Edith Wharton Dawn Powell John Cheever and Vladimir Nabokov are incisively treated as are biographies of Isaac Newton Abraham Lincoln Queen Elizabeth II and Helen Keller As George Steiner observed Updike writes with a solicitous almost tender intelligence The critic and the poet in him are at no odds with the novelist the same sharpness of apprehension bears on the object in each of Updike s modes A Mango Tree Is My Friend Jiban Mukhopadhyay,2024-04-26 Is it possible for a boy to make friends with an old mango tree Oh Yes it is possible Read this book You will be thrilled to find Amal who is in his early teens become the close friend of an old mango tree called Major They live in the same campus They interact mentally This blue sky story explores the vast world of living plants and trees and their defining characteristics similar to those of us It is not just the product of imagination it is based on scientific research the latest technological innovations authenticated facts and so on The book discusses the contribution of extra ordinary simple folks and also it lucidly discusses the supreme importance given to trees in all major religions The story ends with a message that trees can live jolly well without us but we cannot live without trees Therefore we should not neglect ignore or harm them we must take care of them and love them as our fellow beings Even otherwise trees are beautiful we should love and befriend them This will give us relaxation and peace of mind Disaster and Memory Wheeler W. Dixon,1999 Using the media s coverage of the death of Princess Diana as a starting point the author draws on the effects of new technologies the role of the star system the nature of public surveillance and the development of media conglomerates to explain why Hollywood has become so repetitive Discussing films such as Titanic the author argues that current films replay the same plotlines with greater wizardry and less humanity than those of fifty years ago and that our culture is fascinated with images of disaster **The Road Within** James O'Reilly,Sean O'Reilly,Tim O'Reilly,2011-12-27 The Road Within is a book of transformation of lessons learned maps drawn and burned and spiritual blessings bestowed by that great and hard teacher travel Learn what mystics and saints have always known that wondrous things await people who are in touch with themselves with the world and with God Authors featured in this very different kind of travel book include Annie Dillard Huston Smith Natalie Goldberg Andrew Harvey Barry Lopez and Bill Buford **Ethics and Selfhood** James R. Mensch,2012-02-01 According to James R Mensch a minimal requirement for ethics is that of guarding against genocide In deciding which races are to live and which to die genocide takes up a standpoint outside of humanity To guard against this Mensch argues that we must attain the critical distance required for ethical judgment without assuming a superhuman position His description of how to attain this distance constitutes a genuinely new reading of the possibility of a phenomenological ethics one that involves reassessing what it means to be a self Selfhood according to Mensch involves both embodiment and the self separation brought about by our encounter with others the very others who provide us with the experiential context needed for moral judgment Buttreassing his position with documented accounts of those who hid Jews during the Holocaust Mensch shows how the self separation that occurs in empathy opens the space within which moral judgment can occur and obligation can find its expression He

includes a reading of the major moral philosophers Plato Aristotle Kant Mill Arendt Levinas even as he develops a phenomenological account of the necessity of reading literature to understand the full extent of ethical responsibility Mensch's work offers an original and provocative approach to a topic of fundamental importance
