Konieczna,2018-06-21 The last decade has witnessed a dramatic decline in the presence and influence of legacy news organizations This decline has led to tremendous growth in news startups which have attempted to fill the gap left by their legacy counterparts by producing the quality public service journalism upon which the health of U S democracy depends If legacy news organizations with their existing infrastructure are failing can these startups do any better This question lies at the heart of *Journalism Without Profit* Magda Konieczna explores three prominent news nonprofits the Center for Public Integrity one of the oldest and largest of its kind the Wisconsin Center for Investigative Journalism a university based watchdog news organization that relies on others to publish its work and MinnPost an online news website Through in depth study of the practices of each newsroom Konieczna isolates one common behavior that will contribute to their success the way these organizations collaborate and share stories Though this emergent behavior differentiates news nonprofits from the mainstream journalism from which they arose it also ties the two forms of journalism together as news nonprofits attempt to share stories with mainstream publications In other words the very behavior that may enable these organizations to do better than their mainstream counterparts also limits their ability to evolve much beyond them In one of the first major books to focus on nonprofit journalism Konieczna investigates the major questions that will open the field up to further study Where did nonprofit news come from and where is it going Who funds it and why Ultimately Konieczna offers a new way to think about the seismic changes in journalism that are defining the 21st century *Beyond the Fields* Randy Shaw,2008-11-17

Cesar Chavez is the most prominent Latino in United States history books and much has been written about Chavez and the United Farm Worker s heyday in the 1960s and 70s But left untold has been their ongoing impact on 21st century social justice movements *Beyond the Fields* unearths this legacy and describes how Chavez and the UFW s imprint can be found in the modern reshaping of the American labor movement the building of Latino political power the transformation of Los Angeles and California politics the fight for environmental justice and the burgeoning national movement for immigrant rights Many of the ideas tactics and strategies that Chavez and the UFW initiated or revived including the boycott the fast clergy labor partnerships and door to door voter outreach are now so commonplace that their roots in the farmworkers movement is forgotten This powerful book also describes how the UFW became the era s leading incubator of young activist

talent creating a generation of skilled alumni who went on to play critical roles in progressive campaigns UFW volunteers and staff were dedicated to furthering economic justice and many devoted their post UFW lives working for social change When Barack Obama adopted Yes We Can as his 2008 campaign theme he confirmed that the spirit of Si Se Puede has never been stronger and that it still provides the clearest roadmap for achieving greater social and economic justice in the United States

Hard Interests, Soft Illusions Natasha Hamilton-Hart, 2012-02-15 In *Hard Interests Soft Illusions* Natasha Hamilton Hart explores the belief held by foreign policy elites in much of Southeast Asia Indonesia Malaysia the Philippines Thailand Singapore and Vietnam that the United States is a relatively benign power She argues that this belief is an important factor underpinning U S preeminence in the region because beliefs inform specific foreign policy decisions and form the basis for broad orientations of alignment opposition or nonalignment Such foundational beliefs however do not simply reflect objective facts and reasoning processes Hamilton Hart argues that they are driven by both interests in this case the political and economic interests of ruling groups in Southeast Asia and illusions Hamilton Hart shows how the information landscape and standards of professional expertise within the foreign policy communities of Southeast Asia shape beliefs about the United States These opinions frequently rest on deeply biased understandings of national history that dominate perceptions of the past and underlie strategic assessments of the present and future Members of the foreign policy community rarely engage in probabilistic reasoning or effortful knowledge testing strategies This does not mean she emphasizes that the beliefs are insincere or merely instrumental rationalizations Rather cognitive and affective biases in the ways humans access and use information mean that interests influence beliefs how they do so depends on available information the social organization and practices of a professional sphere and prevailing standards for generating knowledge

Social Activism in Southeast Asia Michele Ford, 2013 *Social Activism in Southeast Asia* examines the ways in which social movements operate in a region characterized by a history of authoritarian regimes and relatively weak civil society It situates cutting edge accounts of activism around civil and political rights globalization peace the environment migrant and factory labour the rights of middle and working class women and sexual identity in an overarching framework of analysis that forefronts the importance of human rights and the state as a focus for social activism Drawing on contemporary evidence from Cambodia Indonesia Malaysia Myanmar the Philippines Singapore Thailand and Timor Leste the book explores the ways in which social movement actors engage with their international allies the community and the state in order to promote social change As well as providing detailed and nuanced analyses of particular movements in specific areas of Southeast Asia the book addresses difficult questions about the politics strategies and authenticity of social movements
