It was here that in the last days of 2019 the first reports of a mysterious new form of pneumonia emerged. Before long an abrupt and unprecedented lockdown was declared the first of many such responses to the spread of the COVID 19 pandemic around the world. This book tells the dramatic story of the Wuhan lockdown in the voices of the city's own people. Using a vast archive of more than 6 000 diaries the sociologist Guobin Yang vividly depicts how the city coped during the crisis. He analyzes how the state managed or mismanaged the lockdown and explores how Wuhan's residents responded by taking on increasingly active roles. Yang demonstrates that citizen engagement whether public action or the civic inaction of staying at home was essential in the effort to fight the pandemic. The book features compelling stories of citizens and civic groups in their struggle against COVID 19 physicians patients volunteers government officials feminist organizers social media commentators and even aunties loudly swearing at party officials. These snapshots from the lockdown capture China at a critical moment revealing the intricacies of politics citizenship morality community and digital technology. Presenting the extraordinary experiences of ordinary people *The Wuhan Lockdown* is an unparalleled account of the first moments of the crisis that would define the age.

The Politics of Compassion Bin Xu, 2017-08-22. The 2008 Sichuan earthquake killed 87 000 people and left 5 million homeless. In response to the devastation an unprecedented wave of volunteers and civic associations streamed into Sichuan to offer help. *The Politics of Compassion* examines how civically engaged citizens acted on the ground how they understood the meaning of their actions and how the political climate shaped their actions and understandings. Using extensive data from interviews observations and textual materials Bin Xu shows that the large scale civic engagement was not just a natural outpouring of compassion but also a complex social process both enabled and constrained by the authoritarian political context. While volunteers expressed their sympathy toward the affected people suffering many avoided explicitly talking about the causes of the suffering particularly in the case of the collapse of thousands of schools Xu shows that this silence and apathy is explained by a general inability to discuss politically sensitive issues while living in a repressive state. This book is a powerful account of how the widespread death and suffering caused by the earthquake illuminates the moral political dilemma faced by Chinese citizens and provides a window into the world of civic engagement in contemporary China.

However PRC's diplomatic practice has been continuous whether it was participation in the Korean War breaking up with the former Soviet Union after a honeymoon period China's self defense war over Sino Indian border participation in the Vietnam War breakthrough in the Sino US relation or PRC's self defense war over the Sino Vietnamese border. These historical events brought the need for theoretical study in International Politics (IP). The development of China's IP research was slow and filled with complications but it signified a breakthrough from scratch. This book has filled gap by depicting a complete scroll of
