Henry James and the "Aliens" Gert Buelens,2021-12-28 Henry James and the Aliens intervenes substantially in current debates in James studies most notably in the key areas of cultural studies ethnic studies and queer studies Focusing throughout on questions of identity and most prominently on how the latter is given shape in the very form of the late style the book finds that James s response to the ethnic other can be grasped neither as an attempt to police supervise and master the other nor as a politics of non identical surrender to that other Instead there is a continuum of identity akin to the criminal continuity that James registers throughout the American scene in which self and other native and alien subject and object adopt alternate roles of control and submission Both are at times in possession of the American scene and possessed by that scene Jamesian sexual identity too proves to be constantly reconstituted in transitive processes of signification that make it impossible to fix the I or the other within a fixed framework be that framework a heterosexual or a homosexual one The eroticism that strikingly informs the late James can therefore only be captured if at all under the rubric of the queer *The Writings of Mark Twain [pseud.]: How to tell a story and other essays* Mark Twain,1900 **A Civil, Commercial, Political, and Literary History of Spain and Portugal** Wyndham Beawes,1793 **The Strangers Book** Lloyd Pratt,2016 The Strangers Book explores how various nineteenth century African American writers radically reframed the terms of humanism by redefining what it meant to be a stranger Rejecting the idea that humans have easy access to a common reserve of

experiences and emotions they countered the notion that a person can use a supposed knowledge of human nature to claim full understanding of any other person's life. Instead they posited that being a stranger, unknown and unknowable, was an essential part of the human condition. Affirming the unknown and unknowable differences between people as individuals and in groups laid the groundwork for an ethical and democratic society in which all persons could find a place. If everyone is a stranger, then no individual or class can lay claim to the characteristics that define who gets to be a human in political and public arenas. Lloyd Pratt focuses on nineteenth-century African American writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans. Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845, he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity. Instead they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences.
