Acts of Conscience Steven J. Taylor, 2009-07-10 In the mid to late 1940s a group of young men rattled the psychiatric establishment by beaming a public spotlight on the squalid conditions and brutality in our nation's mental hospitals and training schools for people with psychiatric and intellectual disabilities Bringing the abuses to the attention of newspapers and magazines across the country they led a reform effort to change public attitudes and to improve the training and status

of institutional staff Prominent Americans such as Eleanor Roosevelt ACLU founder Roger Baldwin author Pearl S Buck actress Helen Hayes and African American activist Mary McLeod Bethune supported the efforts of the young men These young men were among the 12 000 World War II conscientious objectors who chose to perform civilian public service as an alternative to fighting in what is widely regarded as America s good war Three thousand of these men volunteered to work at state institutions where they discovered appalling conditions Acting on conscience a second time they challenged America s treatment of its citizens with severe disabilities Acts of Conscience brings to light the extra ordinary efforts of these courageous men drawing upon extensive archival research interviews and personal correspondence The World War II conscientious objectors were not the first to expose public institutions and they would not be the last What distinguishes them from reformers of other eras is that their activities have faded from the professional and popular memory Taylor s moving account is an indispensable contribution to the historical record *Special Olympics* Florian Kiuppis, Daniela Schwarz, 2023-11-07 This book brings together academic work on Special Olympics and specifically on the social inclusion of people with intellectual disabilities in various sport contexts and other areas of life by ways of both empirical research and theoretically informed papers Inclusion in sport is a topic that is mostly explored in connection with the participation of people with disabilities in general In public debates on inclusion and sport in the global society participation is predominantly discussed in a normative way e g in connection with the campaign The Revolution is Inclusion by Special Olympics describing it as an all out effort to end discrimination against people with intellectual disabilities With this international collection the authors seek to contribute to an interdisciplinary understanding of Special Olympics in Context of Inclusion Debates and establish a foundation for future scholarship The chapters in this book can contribute to a new research agenda on Special Olympics particularly participatory approaches The chapters in this book were originally published in *Sport in Society*
