Social Wellbeing and the Values of Small-scale Fisheries Derek S. Johnson, Tim G. Acott, Natasha Stacey, Julie Urquhart, 2017-08-10 This book advances discussions of values in fisheries by showing the rich theoretical insights and connections possible when value is grounded in a multi dimensional social well being approach Questions of value have long been a central if often unacknowledged concern in maritime studies and in research on fisheries Social scientists have looked at changing perceptions of value as coastal regions and fisheries have industrialized economic interconnections have deepened ecosystems have been depleted shifts in population have occurred and governance arrangements have been

transformed With a focus on the diverse ways in which small scale fisheries are valued the contributions to this volume address these and other themes through cases from numerous countries in Asia Europe and Latin America This volume provides a timely contribution to the development of new approaches that seek to capture the complexity of how fisheries can be understood beyond standard mono dimensional and often economic interpretations Each chapter makes a clear and stand alone contribution to conceptual and methodological advancement and collectively these works cover a wide range of frameworks and schools of thought Dr Sarah Coulthard Senior Lecturer in International Development Northumbria University UK The list of contributing authors is impressive and covers a wide geographical range of illustrative examples which helps to demonstrate the global value of small scale fisheries Professor J Allister McGregor Professor in Political Economy the University of Sheffield UK Agrarian Change Today Henry Bernstein,2014 Agrarian Change and Economic Development Eric Lionel Jones,Stuart Joseph Woolf,2005 **Agrarian Change and Economic Development** E.
