A broke private investigator. Best friends turned worst enemies. And the global manhunt neither saw coming. In 2001 thieves parked a box truck in front of an aging tycoon's factory, cut the phone lines and used an overhead crane to lift out their prize: a 1938 Talbot Lago T150C SS Teardrop coupe, the most beautiful car in the world and one of only two in existence. Then they disappeared into the night. The tycoon died. The trail went cold. End of story. Until it wasn't. In 2015 Joe Ford was a PI trying to scrape together enough money to help his daughter, who suffers from a disease causing her to go blind, when he got a tip. A mechanic in the French Alps had been burned by a thief and had a secret to share: the location of the missing Talbot Lago. The reward for finding the car would mean Joe could not only save his daughter's sight but also set his family up for life. Using skills gleaned from his mentor Chris Gardner, who taught Joe everything he knew about the business of rare luxury cars, the investigation would span a decade and involve the FBI, Interpol, a global crime ring, and a shocking betrayal. Elite racing machines, high-end thefts, and billionaires who will stop at nothing for a moment of glory. *The Million Dollar Car Detective* is unlike any heist story ever told. **The Automobile and American Life, 2d ed.** John Heitmann, 2018-08-03 Now revised and updated, this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time. It details cars' inception as a mechanical curiosity and later a plaything for the wealthy, racing, and the promotion of the industry. Henry Ford and the advent of mass production, market competition during the 1920s, the development of roads and accompanying highway culture, the effects of the Great Depression and World War II, the automotive Golden Age of the 1950s, oil crises, and the turbulent 1970s, the decline and then resurgence of the Big Three, and how American car culture has been represented in film, music, and literature. Updated notes and a select bibliography serve as valuable resources to those interested in automotive history. **Power Under Her Foot** Chris Lezotte, 2018-07-25 Since their introduction in 1964, American muscle cars have been closely associated with masculinity. In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros, and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women's admiration and passion for American muscle and reveals how restoring, showing, and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality. **Toyota MR2** Nigel Burton, 2015-04-30 *Toyota MR2* details the full start-to-finish history of Toyota's bestselling mid-engined sports car from 1984 until 2007, when production ended. Why Would Anyone Do That? Stephen C. Poulson,2016-04-19 Triathlons such as the famously arduous Ironman Triathlon and extreme mountain biking hair raising events held over exceedingly dangerous terrain are prime examples of the new lifestyle sports that have grown in recent years from oddball pursuits practiced by a handful of characters into multi million dollar industries In *Why Would Anyone Do That* sociologist Stephen C Poulson offers a fascinating exploration of these new and physically demanding sports shedding light on why some people find them so compelling Drawing on interviews with lifestyle sport competitors on his own experience as a participant on advertising for lifestyle sport equipment and on editorial content of adventure sport magazines Poulson addresses a wide range of issues He notes that these sports are often described as authentic challenges which help keep athletes sane given the demands they confront in their day to day lives But is it really beneficial to work so hard at play Is the discipline required to do these sports really an expression of freedom or do these sports actually impose extraordinary degrees of conformity upon these athletes *Why Would Anyone Do That* grapples with these questions and more generally with whether lifestyle sport should always be considered good for people Poulson also looks at what happens when a sport becomes a commodity even a sport that may have begun as a reaction against corporate and professional sport arguing that commodification inevitably plays a role in determining who plays and also how and why the sport is played It can even help provide the meaning that athletes assign to their participation in the sport Finally the book explores the intersections of race class and gender with respect to participation in lifestyle and endurance sports noting in particular that there is a near complete absence of people of color in most of these contests In addition Poulson examines how concepts of masculinity in triathlons have changed as women s roles in this sport increase
