Civil Society And The Search For Justice In Russia:

Civil Society and the Search for Justice in Russia Christopher Marsh, Nikolas K. Gvosdev, 2002-01-01 More than a decade has passed since path breaking policies aimed at liberalizing post Soviet society were first introduced in Russia Today these promises of freedom equality and justice remain largely unfulfilled and Russia's political system continues to exhibit signs of the deep rooted problems that may well retard if not completely derail any possibility of future reform Against this stark background Civil Society and the Search for Justice in Russia explores the various dimensions of Russia's civil society the meaning of and search for justice the role of the Orthodox church as a principal unifier in civil society the need for new freedoms for women and ethnic minorities and the role of mass education and the free press in inculcating and articulating new civic values Expertly blending the historical with the theoretical the recent with the empirical this work offers new insight and analysis into the ability of a nascent Russian civil society to engage effectively with the twenty first century Russian state to ensure social religious and political justice [The Orthodox Church and Civil Society in Russia](#) Wallace L. Daniel, 2006-08-09 In the void left by the fall of Communism in Russia during the late twentieth century can that country establish a true civil society Many scholars have analyzed the political landscape to answer this question but in The Orthodox Church and Civil Society in Russia Wallace L. Daniel offers a unique perspective within the church are individuals who hold the values and institutional models that can be vital in determining the direction of Russia in the twenty first century Daniel tells the stories of a teacher and controversial parish priest the leader of Russia's most famous women's monastery a newspaper editor and a parish priest at Moscow University to explore thoroughly and with a human voice the transformation from Communist country to a new social order Daniel explores specific religious communities and the way they operate their efforts to rebuild parish life and the individuals who have devoted themselves to such goals This is the level Daniel shows at which the reconstruction of Russia and the revitalization of Russian society is taking place This book is written for general readers interested in the intersection between politics religion and society as well as for scholars *Post-Soviet Civil Society* Anders Uhlin, 2006-03-20 The development of civil society has varied greatly across the former Soviet Union The Baltic states have achieved a high level of integration with the West and European Union membership while some regions in Russia lag far behind Now for the first time there is a comparative study of civil society and democratization across post Soviet national borders Acknowledging the enormous variation throughout the region the book offers unique data on developments in Russia Estonia Latvia and Lithuania Applying an innovative analytical framework derived from theories of democratization civil society social movements and transnational relations the researchers have formulated broader comparisons and generalisations without neglecting the specific post Soviet context The book provides a systematic comparison across sectors as well as nations and includes chapters on NGOs the state and conflict and transnationalisation Quantitative survey data is combined with qualitative interviews and case study research to both confirm previous findings

about the weakness of post communist civil society and to qualify previous research Civil Society in Putin's Russia Elena A. Chebankova, 2013 1 Methodology Theoretical Considerations and the Structure of the Study 2 Public and Private Cycles of Socio Political Life in Russia 3 The Public Sphere and the State in Russia 4 A Kind of Society The Nature of Political Radicalism in Modern Russia 5 State Sponsored Civic Associations in Russia Systemic Integration or a War of Position 6 Foreign Sponsored Associations in Russia Themes and Problems 7 Grassroots Movements in Modern Russia A Cause for Optimism Conclusion **Civil Society, Social Change, and a New Popular Education in Russia** W. John Morgan, Irina N. Trofimova, Grigori A. Kliucharev, 2018-10-03 Civil Society Social Change and a New Popular Education in Russia is a detailed account of contemporary issues that draws upon recent survey research conducted by the Institute of Sociology Russian Academy of Sciences as well as from secondary published work in both Russian and English The book explores how social change and developments in civil society are occurring in Russia and the role played by a new popular education The right to lifelong learning is guaranteed by the Russian state as it was by the Soviet Union where formal education based on communist ideology emphasised the needs of the state over those of individuals In practice a wide range of educational needs many of which relate to coping with changing economic social and technological circumstances are being met by non governmental providers including commercial companies self help groups and community and neighbourhood clubs This book discusses how this new popular education is both an example of developing civil society and stimulates its further development However as the book points out it is also part of a growing educational divide where motivated articulate people take advantage of new opportunities while disadvantaged groups such as the unemployed and the rural poor continue to be excluded **Russia's Policy Challenges** Stephen K. Wegren, 2016-07-08 Designed for use in courses on contemporary Russia this volume explores Russia's policy dilemmas in three realms international security socio political and socio economic In each of these categories Russia faces daunting problems none of which is likely to be resolved quickly or easily Yet over the longer term the extent to which policymakers are successful in dealing with these challenges will go far in determining Russia's future place in the world how Russians will live and what kind of country Russia becomes Each expertly authored chapter outlines the nature of one major issue traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge *Religion and Politics in Russia: A Reader* Marjorie Mandelstam Balzer, 2015-01-28 Russia is not only vast it is also culturally diverse the core of an empire that spanned Eurasia In addition to the majority Russian Orthodox and various other Christian groups the Russian Federation includes large communities of Muslims Jews Buddhists and members of other religious groups some with ancient historical roots All are in a state of ferment and securing formal state recognition for specific communities is often daunting This collection provides entry into the diversity of Russia's religious communities Marjorie Mandelstam Balzer's introduction to the volume illuminates major political social and cultural anthropological trends The book is organized by

religious tradition or identity with further thematic perspectives on each set of readings The authors include ethnologists sociologists political analysts and religious leaders from many regions of the Federation They analyze the changing dynamics of religion and politics within each community and in the context of the current drive to recentralize both political and religious authority in Moscow Topical coverage extends from reassertions of Russian Orthodoxy to activities of Christian and Muslim missionaries to the revival of many other religions including indigenous shamanic ones

Russian Civil Society: A Critical Assessment Alfred B. Evans, Laura A. Henry, Lisa Sundstrom, 2016-07-22 A vibrant civil society characterized by the independently organized activity of people as citizens undirected by state authority is an essential support for the development of freedom democracy and prosperity Thus it has been one important indicator of the success of post communist transitions This volume undertakes a systematic analysis of the development of civil society in post Soviet Russia An introduction and two historical chapters provide background followed by chapters that analyze the Russian context and consider the roles of the media business organized crime the church the village and the Putin administration in shaping the terrain of public life Eight case studies then illustrate the range and depth of actual citizen organizations in various national and local community settings and a concluding chapter weighs the findings and distills comparisons and conclusions

Russian Society and the Orthodox Church Zoe Knox, 2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church's social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society

The Receding Shadow of the Prophet Ray

Takeyh,Nikolas K. Gvosdev,2004-06-30 The tragic events of September 11 2001 in the United States renewed fears of an Islamist wave destabilizing the countries of the Muslim world Yet the alarm raised over a previous wave of Islamism in the early 1990s which threatened to overwhelm Egypt and Algeria and spill into the Balkans and Central Asia proved to be unfounded Takeyh and Gvosdev assert that while Islamism has been successful as an oppositional ideology of wrath it has failed to provide Islamic societies with any feasible alternative to undertaking fundamental political and economic reforms By detailing the defeat of Islamist movements in the Middle East the Balkans and Central Asia over the last decade this book encourages us not to overestimate the Islamist threat in the current climate and the years to come Radical Islamists have been successful in mobilizing opposition to corrupt regimes yet they have failed to translate their utopian vision into reality Furthermore their emphasis on violence alienates and frightens the middle class and other potential allies Iran s revolution failed to create a model Islamic republic and its government is increasingly losing legitimacy to demands for genuine democracy Islamist governments in Afghanistan and Sudan relied upon violence to remain in power and ultimately collapsed Islamist movements proved unable to dislodge the existing regimes in Egypt and Algeria In the Balkans and Central Asia Islamism has had little attraction for Western oriented populations Indeed throughout the entire Islamic world former radicals are seeking a new accommodation between Islamic values and liberal democracy Takeyh and Gvosdev succinctly and accessibly explore the rise of radical Islam as well as its ultimate demise in various nations

Freedom and the Captive

Mind Wallace L. Daniel,2024-10-15 Freedom and the Captive Mind is a biography of Fr Gleb Yakunin the first Orthodox priest to adopt an ecumenical approach to Russian Orthodoxy earning him the enmity of conservative groups within the Church and gratitude from other religious denominations Father Yakunin believed the survival of the Church depended on its willingness to reform When he was suspended Yakunin continued to fight the system working to expose the persecution of religious believers in the Soviet Union After years of exile Yakunin entered politics He was criticized by religious authorities denounced by nationalist politicians and excommunicated by the Russian Orthodox Church As Wallace L Daniel demonstrates the letters Yakunin wrote and his revelations about the relationship between the Church hierarchy and the KGB stand as monuments of courage and the determination to reveal the truth about abuses of power and the authoritarian mindset that

predominated in both institutions *The Role of Civil Society in Transitional Justice* Selbi Durdiyeva, 2023-09-01 This book examines how civil society engages with transitional justice in Russia demonstrating a broad range of roles civil society can undertake while operating in a restrictive political context Based on sociolegal research the study focuses on three types of civil society groups dealing with the legacies of the Soviet repression in Russia a prominent organisation that works on recovering historical truth the International Memorial a parish of the Orthodox Church of Russia operating at a former mass execution and mass burial site the Church at Butovo and contentious groups that could hinder attempts at reckoning and promote state narratives built on the Stalinist and WWII victory myths This book explores an often overlooked case of Russia's transitional justice from below It provides insights into how even in authoritarian contexts civil society can adopt imaginative piecemeal and at times unconventional ways of seeking justice outside and in the absence of official and institutionalised transitional justice measures This book will appeal to scholars of transitional justice memory studies human rights and democratic and civil society theory as well as policymakers and practitioners in these fields and others with interests in Russian and post Soviet studies ARNOVA News ,2004 **Democracy Burning?** Nigel Raab, 2011-01-10 Nineteenth century commentators often claimed that Russia burned to the ground every thirty years In an empire whose cities were built of wood firefighters had a visible presence throughout Russia's urban centres and became politically active across the country Democracy Burning studies the political cultural and social values of volunteer firefighters and reveals the ways in which their public organizations cooperated with the authoritarian state Nigel Raab considers the important roles that nationalism regionalism militarism photography and civil society played in fire departments and challenges prevailing notions that volunteer organizations opposed the state His analysis not only provides insights into questions about a nascent civic consciousness in the years leading to revolution but also reveals new and important information about other aspects of urban life A skilled work of history and urban studies Democracy Burning forces us to rethink the way we consider large public organizations and their relation to authoritarian governments *Slavic Review* ,2005 **State against Civil Society** Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and

regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies Current Publications in Legal and Related Fields ,2003
