Class 29 The Making Of U S Navy Seals:

Class-29 John Carl Roat,2008-12-10 Throughout training I kept having the thought WELL ALL THEY CAN DO IS KILL ME It seemed to help SEALs are the world's toughest soldiers Working in squads and platoons that make up SEAL teams they are trained in everything from underwater demolition to high altitude parachute drops Now John Carl Roat graduate of Class 29 one of the earliest SEAL training classes has written the only book devoted to the training of that exclusive warrior force With unflinching honesty Roat describes the brutal six month program that took young men well beyond the endurance limits even of gifted athletes and created warriors who could proudly take their places in the teams It was a program so demanding that by the end of Hell Week the third week of the course the original class of one hundred and thirty four physically fit young men had been sliced to sixty two After retelling his own class's experience Roat visits today's SEAL program and reveals how the program has changed over the last thirty five years to include more classroom training and better and more sophisticated equipment without at all lowering the physical demands SEAL training is still the best and the toughest training in the world

Fighting Elites John C. Fredriksen,2011-12-12 From Army Rangers to Green Berets to the U S Navy SEAL team that killed Osama bin Laden this book explains what makes Special Forces special covering the rich and varied history of elite formations in American military history and describing their recruitment intense training and equipment in depth Most civilians have only a vague idea of what the U S Special Forces are all about who they are how they differ from our normal military forces what they've accomplished throughout our history and how they operate today Fighting Elites A History of U S Special Forces examines the rich and varied history of U S Special Forces identifies their contributions to specific conflicts from colonial times forward and highlights their present operational excellence In this first ever reference guide to U S Special Forces military historian John C Fredriksen provides a carefully balanced presentation describing all units in their own detailed section that discusses their origins recruitment training tactics and equipment and defining military engagements if known The text also contains 20 biographical entries of noted personalities associated with special purpose activities

The Education of Lieutenant Kerrey Gregory L. Vistica,2024-05-01 The Education of Lieutenant Kerrey is an incredible story and a modern morality tale about a man of compassion and promise trapped by a horrible secret On the night of February 25 1969 an inexperienced 25 year old lieutenant Bob Kerrey led a commando raid on an isolated hamlet called Thanh Phong in Vietnam's Mekong Delta While witnesses and official records give varying accounts one thing is certain around midnight

Kerrey and his men killed nearly two dozen unarmed women and children What happened that night and why It s a terrible secret that Kerrey has borne for more than thirty years Kerrey went on to do heroic things in Vietnam and later as a politician Since World War II he is only Medal of Honor winner to sit as a member of Congress In many ways Kerrey s life following that tragic mission has been a struggle for redemption So is Bob Kerrey a war hero or war criminal Gregory L Vistica who uncovered the Thanh Phong atrocities in a widely praised cover story for The New York Times Magazine searches the entire span of Kerrey s life to answer that question From his rural boyhood in Nebraska to his gut wrenching Navy SEAL training to his aborted run for President Kerrey s life will become a vehicle for understanding the Vietnam generation shaped in the 50s and sharpened by the tumultuous 60s ***Legitimate Targets?*** Janina Dill,2014-11-13 Based on an innovative theory of international law Janina Dill s book investigates the effectiveness of international humanitarian law IHL in regulating the conduct of warfare Through a comprehensive examination of the IHL defining a legitimate target of attack Dill reveals a controversy among legal and military professionals about the logic according to which belligerents ought to balance humanitarian and military imperatives the logics of sufficiency or efficiency Law prescribes the former but increased recourse to international law in US air warfare has led to targeting in accordance with the logic of efficiency The logic of sufficiency is morally less problematic yet neither logic satisfies contemporary expectations of effective IHL or legitimate warfare Those expectations demand that hostilities follow a logic of liability which proves impracticable This book proposes changes to international law but concludes that according to widely shared normative beliefs on the twenty first century battlefield there are no truly legitimate targets
