Consumer Brand Relationships Theory And Practice:

Consumer-Brand Relationships Susan Fournier, Michael Breazeale, Marc Fetscherin, 2012-03-29 The creation and management of customer relationships is fundamental to the practice of marketing. Marketers have long maintained a keen interest in relationships: what they are, why they are formed, what effects they have on consumers and the marketplace, how they can be measured, and when and how they evolve and decline. While marketing research has a long tradition in the study of business relationships between manufacturers and suppliers and buyers and sellers, attention in the past decade has expanded to the relationships that form between consumers and their brands, such as products, stores, celebrities, companies, or countries. The aim of this book is to advance knowledge about consumer brand relationships by disseminating new research that pushes beyond theory to applications and practical implications of brand relationships that businesses can apply to their own marketing strategies. With contributions from an impressive array of scholars from around the world, this volume will provide students and researchers with a useful launch pad for further research in this blossoming area. *Brand Love is not Enough* Max Blackston, 2018-03-15 How would you feel about a bank that handled all of your financial needs efficiently but made you feel like a dummy? In a relationship between two people, what the other person thinks of you or what you believe they think of you exerts great influence on the quality of your relationship. The same is true for your relationship with brands. In this trailblazing book, Blackston extends his theory on consumer brand relationships introduced in the 1990s. He introduces a new construct called brand attitude, which complements the idea of brand image and introduces a typology of consumer relationships that is richer and more varied than the familiar concept of brand love. This construct describes more fully the two-way street that exists between consumers and brands and fills a crucial gap in traditional branding literature in explaining consumers' brand purchasing and usage behavior. Drawing on numerous actual examples and cases from a variety of different industries and supported by 30 years of consumer data, *Brand Love is not Enough* should be on the shelf of any serious marketer or student of branding. **Consumer Brand Relationships** M. Fetscherin, T. Heilmann, 2015-05-07 *Consumer Brand Relationships* further advances the understanding of consumers' relationships with brands. The book discusses what brand relationship means and how to measure and manage brand relationships by compiling eleven chapters written by leading experts to provide an important contribution to a better understanding of brand relationships. *Consumer Brand Relationships* Marc Fetscherin, 2019 **Advances in Brand Semiotics & Discourse Analysis** George Rossolatos, 2023-03-07 This volume addresses some of the most important conceptual, methodological, and empirical challenges and opportunities with which the sister disciplines of semiotics and discourse analysis are mutually confronted in the context of considering new avenues of cross-disciplinary application to distinctive branding research streams. In continuation of the collective volume *Handbook of Brand Semiotics* (Kassel University Press, 2015), which sought to consolidate relevant scholarship and to identify the main territories that have been established at the crossroads between

branding and semiotic research the current Advances in Brand Semiotics Discourse Analysis aims at accomplishing further strides in critical areas such as the exigency for reconsidering the aptness of existing semiotic theories in the face of the radically shifting co creative landscape of digital branding the benefits of systematically micro analyzing brand communities discourses by drawing on CAQDAS programs the combination of big data analytics with discourse theory in corpus analysis and the epistemological issues that emerge while combining discourse analysis with time hallowed marketing qualitative and quantitative research methods At the same time the volume hosts a resourceful blend of empirical studies and novel conceptual frameworks in burgeoning streams such as place heritage culinary personal and political branding

Decolonizing Marketing Theory and Practice Hasan Gilani, 2024-11-22. In academic institutions worldwide the call to decolonize the syllabus, curriculum and the entire university experience is growing louder and more urgent. Yet the conversation must extend beyond blogs, hashtags and social media trends. This book dives deep into the critical need to challenge and transform the foundations of marketing education. Addressing the urgent need for deeper conversations, this book delves into the multifaceted process of decolonizing marketing theory and practice to foster a more inclusive field. Through an insightful collection of contributions, this book critically examines the entrenched roots of colonization, capitalism and inequality, urging us to move beyond simply adding non-white authors and non-Western case studies to the curriculum. Decolonization should begin with a focus on inclusivity and equality, progressing towards the recognition and exploration of diverse contexts and paradigms. Through rigorous analysis and innovative perspectives, this book identifies key areas in marketing pedagogy that require decolonization, urging a move away from exclusionary practices and Western-centric ideologies. It identifies crucial areas where texts, knowledge and contexts need to be decolonized, advocating for a paradigm shift from a culture of exclusion and Western-centric ideologies to one that embraces inclusivity and a broad range of philosophical perspectives from the non-Western world. Aimed at researchers and academics in the field of marketing, this book offers a profound exploration of teaching and learning dynamics from a more inclusive and diverse perspective. By fostering engagement with a wider audience, it seeks to enrich the discourse around marketing education with a more nuanced and enriched perspective. *Decolonizing Marketing Theory and Practice* is an essential resource for those committed to creating a more equitable and comprehensive understanding of marketing in a global context.
