**Visual Culture in Contemporary China I** Zhou Xian, 2023-07-21. As the first volume of a two-volume set that examines the interaction between social transformation and visual culture in contemporary China, this book explores the visual construction of popular culture, avant-garde art and grassroots media culture. Drawing on an approach of Marxist historic materialism and academic resources of sociology, communication and art, this study of contemporary China's visual culture emphasizes two inter-related aspects: the visual construction of society and the social construction of the visual. It seeks to unravel how visual culture is produced and constructed as well as how it reflects the profound social transformation and reshapes people's understanding and experience of modernization. In this volume, the contributors revisit popular culture, avant-garde art and grassroots media culture in contemporary China, analyzing the visual image and representation and visual culture's role in social construction. In doing so, the book also reveals the cultural tension of contemporary China in which the visual aspect figures prominently. This book will serve as an essential read for scholars and students of China studies and cultural studies as well as all levels of readers interested in visual culture in contemporary China.

This edited volume is the first internationally available English translation of key lectures and essays delivered at Beijing's Inside Out Art Museum over the past decade. The book elevates a chorus of voices from domestic and international intellectuals, artists, curators and historians in a dialogue that reframes Chinese art from 1949 to the present. Part I offers critical academic complications of the story of Chinese art from the 1950s to the present as one singularly defined and stifled by political revolution. It traces important continuities and early examples of contemporary art practice to the Party's birth and consolidation of power from the 1920s onwards. It relates the formation of contemporary art to the historical course of intellectual practice in China from

1949 Part II proposes China as an issue requiring historical interrogation rather than an inviolable entity It questions the efficacy of Asia as a term presents case studies of independent publishers that challenged tightly crafted historical narratives and wraps up with incisive reflections on the challenges confronting creatives and historians in China today With chapters ranging from peer reviewed scholarship to cuttlingly humorous personal anecdotes its contributing authors give rare first hand accounts of navigating pertinent historical and current situations including censorship China s il liberalism and COVID 19 This book offers readers an ear to heretofore closed door conversations in leading modern and contemporary art spaces
