Ancient Chinese Thought, Modern Chinese Power Yan Xuetong, 2013-08-25 From China's most influential foreign policy thinker a vision for a Beijing Consensus for international relations The rise of China could be the most important political development of the twenty first century What will China look like in the future What should it look like And what will China's rise mean for the rest of world This book written by China's most influential foreign policy thinker sets out a vision for the coming decades from China's point of view In the West Yan Xuetong is often regarded as a hawkish policy advisor and enemy of liberal internationalists But a very different picture emerges from this book as Yan examines the lessons of ancient Chinese political thought for the future of China and the development of a Beijing consensus in international relations Yan it becomes clear is neither a communist who believes that economic might is the key to national power nor a neoconservative who believes that China should rely on military might to get its way Rather Yan argues political leadership is the key to national power and morality is an essential part of political leadership Economic and military might are important components of national power but they are secondary to political leaders who act in accordance with moral norms and the same holds true in determining the hierarchy of the global order Providing new insights into the thinking of one of China's leading foreign policy figures this book will be essential reading for anyone interested in China's rise or in international relations

It presents a comprehensive analysis of the reverse translation trajectory, exploring the movement of Chinese literature into the core English literary domain. The book aims to explore the ideological and sociological dynamics that underlie the translation of contemporary Chinese novels. This is achieved through an examination of the translation selection process, translation paratexts, and the roles of translation agents. Case studies are employed to illustrate specific linguistic, literary, and cultural challenges within translation. It dissects the cultural and literary implications of translating genres such as women's writing, science fiction, and Internet literature. The argument presented is that the translation of peripheral literature is indispensable in shaping global literature. Beyond its literary implications, the book identifies the political significance inherent in such reverse translation endeavors. It suggests that the translation of Chinese literature holds notable political interest for the Chinese government, which aims to reshape China's image and bolster the nation's soft power through literary translation. This work will be an essential read to students and scholars of translation studies, comparative literature, and Chinese studies. **Modern Chinese Literary Thought** Kirk A. Denton, 1996 This volume presents a broad range of writings on modern Chinese literature. Of the fifty-five essays included, forty-seven are translated here for the first time, including two essays by Lu Xun. In addition, the editor has provided an extensive general introduction and shorter introductions to the five parts of the book: historical background, a synthesis of current scholarship on modern views of Chinese literature, and an original thesis on the complex formation of Chinese literary modernity. The collection reflects both the mainstream Marxist interpretation of the literary values of modern China and the marginalized views proscribed at one time or another by the leftist canon. It offers a full spectrum of modern Chinese perceptions of fundamental literary issues. **Challenges Facing Chinese Political Development** Sujian Guo, Baogang Guo, 2007-01-01 Examining the challenges of Chinese political development from a holistic perspective, each of the authors emphasizes a particular dimension of political culture, political economy, foreign policy, and environmental and social challenges. **The Logical Deduction of Chinese Traditional Political Philosophy** Shiwei Zhang, 2021-11-16 This book

The Humanities in Contemporary Chinese Contexts Evelyn T. Y. Chan, Michael O'Sullivan, 2016-10-22 This book brings together the perspectives of eminent and emerging scholars on contemporary issues relevant to the practice pedagogy and institutionalization of the humanities in the three Chinese contexts of Hong Kong Taiwan and mainland China It addresses the need to investigate how humanities discussions often exclusively drawn from and grounded in western contexts are today being played out in these three places The humanities in contemporary Chinese contexts may have different social and pedagogical roles and a consideration of them will enable people to moderate and perhaps even refute claims made in the recent re readings of the humanities As Asian universities rise in the global rankings and as east west university collaborations and partnerships become more common it is important that the nature practice and institutionalization of the humanities in Hong Kong Taiwan and mainland China are explored and described for English readers Exploring new perspectives arising from an examination of the humanities in these places this volume aims neither to establish a position of polarity which would pit western sites against Chinese ones nor to argue for universal sameness Rather the goal is to find nuanced correspondences and differences between these various backgrounds so that there is a greater understanding of the specificities of Chinese contexts This will help shed light not only on the contexts in question but also potentially on how to rearticulate the importance of the humanities in general creating an intercultural dialogue focused on the humanities As the global university strives to move the different traditions of learning closer together through international rankings rubrics and shared research agendas it is important that we explore these locations of potential cultural exchange
