Personal Grief Rituals Paul Martin, 2022-10-21

Personal Grief Rituals presents a new model for how bereaved individuals can create unique expressions of mourning that are tailored to their psychological needs and grounded in memories and emotions specific to the relationship they lost This book examines cultures across the world and throughout history to shed light on how humanity has always turned to grief rituals and how custom can stifle one's pursuit of healthy and meaningful mourning Contemporary psychological research most notably attachment theory provides an in depth understanding of how each individual's subjective experience of loss varies and why complicated bereavement may emerge Richly detailed psychotherapy case studies exemplify innovative strategies for designing personal grief rituals Where one person may visit an old haunt to express sorrow another might use symbols to strengthen their connection to the deceased and still another could cast aside vestiges of the past Personal Grief Rituals is an excellent resource for professionals students studying the psychology of loss or anyone hoping to carve a new path through their own grief and mourning

**Rituals and Routines** Julie Tinson, Pete Nuttall, 2024-12-09

This contemporary book offers current perspectives on routines and rituals to extend an understanding of the scope of these concepts with a view to challenging conventional wisdom and to offer insight for practitioners Routines and rituals are part of everyday being

Routines can be useful for individuals in structuring messiness in their lives while rituals are often more spectacular in nature and typically involve a collective event. Routines and rituals can be traditional, established, new or reinvented, as well as personal, social and/or emotional. Traditionally, rituals have been characterised by formality, customs, regularity and procedure, conversely routines, public or private, have been considered less important in their significance and meaning. Employing several research methods: literature review, ethnography, netnography, autoethnography and in-depth interviews and examining a variety of contexts ranging from hen parties, clothing to collegiate tailgating and the Covid pandemic, this edited volume reveals typologies and tactics for strategic practitioner use and policy makers, as well as identifying avenues for further research. The chapters in this book were originally published as a special issue of *Journal of Marketing Management*.
