[The Lifelong Learning Journey of Health Professionals: Continuing Education and Professional Development](#) Filipe, Helena Prior, Lopez, Mildred Vanessa, 2024-03-06. Health professionals grapple with a critical challenge: the traditional Continuous Medical Education (CME) model falls short of fostering the unique skills and self-directed learning required for a dynamic career. As medical practitioners navigate a world of new epidemiological models, technologies and strategies, the need for a transformative solution becomes evident. *The Lifelong Learning Journey of Health Professionals: Continuing Education and Professional Development* is a book that not only identifies the limitations of existing education models but also provides a comprehensive solution for ushering in a new era of lifelong learning. This compelling book advocates for a paradigm shift towards Continuous Professional Development (CPD), a contemporary concept that embraces non-traditional learning formats. It dismantles the inadequacies of credit-based training by emphasizing the importance of self-direction and self-assessment for adult learners. From core principles for designing a robust CPD system to exploring successful models, alternative credentials and the role of learning communities, the book offers a holistic approach to reshaping medical education.
