Contracts Cases Discussion And Problems Third Edition Aspen Casebooks:

Contracts Brian A. Blum, Amy C. Bushaw, 2012 *Contracts Cases Discussion and Problems* is known for its strikingly clear straightforward text that illuminates cases as well as concepts and theory. Carefully edited modern engaging cases are presented in context along with classic older cases. Insightful questions draw attention to difficult and crucial aspects of the law and prompt vigorous class discussion. Manageable problems supplement cases and introduce topics taught most effectively through problems. The casebook's traditional organization begins with formation and then corresponds to the sequence followed by the Restatement 2nd of Contracts and treatises. Its concise efficient presentation results in an optimum length for the course. Transactional issues such as drafting, client counseling and negotiation are emphasized through the use of questions and small exercises throughout the text. Strengthening the text's focus on contemporary methods of contracting, modern issues in standard contracts are explored along with contracts entered into electronically. International and comparative material offers alternative approaches for students to consider such as those taken by the United Nations Convention on Contracts for the International Sale of Goods (CISG) and the UNIDROIT Principles of International Commercial Contracts. The Third Edition introduces new cases, updated discussion and challenging problems that tackle issues arising from the growing use of electronic media in the formation and performance of contracts. Fresh cases, problems and text throughout the book provide new perspectives on contemporary approaches to the law. A focus on and full treatment of Revised Article 1 and Current Article 2 respond to the widespread enactment of the Article 1 revisions. Recognizing the failure of the proposed revisions of Article 2, the Third Edition no longer refers to revised Article 2. By responding to adopters' suggestions and by reorganizing for clarity, the Third Edition has greatly enhanced its teaching effectiveness.

Alternative Dispute Resolution in Energy Industries Mustafa Oğuz Tuna, 2022-04-03 The disputes that arise between host states and investors in the energy sector put a high number of valuable and vital projects in the countries at risk Investment treaty arbitration mechanisms as the traditional remedy have provided a solution to these problems for decades However as the number of disputes increases the sufficiency of arbitration in responding to disputes became questionable in addition to the long lasting and costly cases Accordingly ADR mechanisms outside the arbitration cannon have triggered growing interest among practitioners Despite the attraction and the apparent benefits of ADR such as being cheaper faster and with better outcomes compared to arbitration there are also hurdles in front that hinder the application of ADR This has

lead to the underuse of ADR in appropriate contexts This study has been conducted to research the gap for the applicability of the ADR methods for investment disputes in the energy sector with the doctrinal analysis of the existing literature either promoting or opposing ADR Its findings provide guidance for alternative dispute resolution practitioners on when to use ADR how to use ADR and on what disputes ADR to be used to resolve conflicts in International Energy Investment
