Contradictions Of Terrorism Contradictions Of Terrorism:

Contradictions of Terrorism Sandra Walklate, Gabe Mythen, 2014-09-15 Over the last fifteen years there has been a significant growth in literature dealing with terrorism Nevertheless scholars within mainstream criminology have only recently begun to grapple with the problem of terrorism in a sustained fashion In this provocative book the authors provide both an exposition of the contradictions that have emerged around the regulation of terrorism and an incisive analysis of the questions that the management of terrorism poses for the discipline Focusing primarily on the processes and practices that have emerged in the United States and the United Kingdom the book provides a critical account of the political construction mediation and regulation of terrorist threat since the events of 9 11 The authors explore the ways in which new institutional modes of risk assessment based on the principle of pre emptio have impacted on individuals targeted by them Noting the dilemmas produced by the pre emptive turn the authors also elucidate more recent moves to develop the idea of resilience in counter terrorism and security policy This book will be suitable for academics and students interested in political violence terrorism geopolitics and risk as well as for practitioners and experts working in the security industries **Deadly**

Contradictions Stephen P. Reyna, 2016-08-01 As US imperialism continues to dictate foreign policy **Deadly Contradictions** is a compelling account of the American empire Stephen P Reyna argues that contemporary forms of violence exercised by American elites in the colonies client state and regions of interest have deferred imperial problems but not without raising their own set of deadly contradictions This book can be read many ways as a polemic against geopolitics as a classic social anthropological text or as a seminal analysis of twenty four US global wars during the Cold War and post Cold War eras

a variety of perspectives Pasquale De Marco provides a balanced and objective analysis of this complex issue Pasquale De Marco examines the ways in which the United States has used its power to shape the world from the Spanish American War to the War on Terror Pasquale De Marco also considers the costs of empire both to the United States and to the rest of the world Pasquale De Marco argues that the American empire is a contradiction On the one hand it has promoted democracy and human rights around the world On the other hand it has also been a source of oppression and exploitation Pasquale De Marco concludes that the United States must come to terms with its imperial past and present if it wants to create a more just and equitable world Pasquale De Marco calls for a global movement to end empire and to build a world where all people are free and equal *The Grand Contradiction* is a must read for anyone who wants to understand the American empire and its implications for the world It is a timely and provocative book that challenges us to rethink our assumptions about America's role in the world If you like this book write a review on google books

Critical Terrorism Studies since 11 September

2001 David Miller, Jessie Blackbourn, Helen Dexter, Rani Dhanda, 2016-04-08 Academic studies of terrorism grew exponentially in number after the September 11 attacks The problem was that much of this work of orthodox terrorism studies was biased often shoddily researched and was too closely identified with the power centres of Western states Its denizens were often former and sometimes current officials or officers in the military intelligence services or the security industry or were funded by them In response the project of Critical Terrorism Studies was intended to give a more rounded account of political violence in the world It focuses on neglected issues like state terrorism Western counterinsurgency propaganda and misinformation More than a decade since the founding of the critical project this book asks what has been learned It showcases leading examples of critical terrorism studies and presents an agenda for the expansion of an evidence based approach to political violence and terrorism With chapters by leading authorities such as Joseba Zulaika Michael Stohl Mary Hickman and Richard Jackson the book evaluates how far the critical project has come and where it is going next This book was published as a special issue of *Critical Studies on Terrorism*
