Doing Educational Research, 2015-01-01 In the second edition of Doing Educational Research we explore a variety of critical issues and methodologies Authors include some of the most influential voices selected from across the spectrum of career disciplines. The scholars provide detailed insights into dimensions of the research process that engage both students and experienced researchers with key concepts and recent innovations in the art of doing research The contributors adopt a stance that is practical as it introduces beginning scholars to social inquiry and innovative as it transforms the boundaries of conversations about educational research Doing Educational Research appears at a critical moment in which educational researchers are pushed to align with a pervasive scientism that embraces tenets of crypto positivism. The book addresses logics of inquiry underpinning cutting edge approaches to educational research that extend far beyond limited visions that are presented through the lenses of positivism The chapters explore a variety of methodologies including action research bricolage ethnography hermeneutics historiography media based research psychoanalysis and conversation analysis in a matrix of social theory authentic inquiry critical pedagogy and differences in epistemology ontology and axiology A diverse array of complex topics are presented in accessible forms and will compel both scholars and students Research Clive Opie, 2004-02-03 A welcome and helpful addition to the shelves of tutors and students working on masters programmes It will be most beneficial supporting students on programmes where there is a substantial research training component It offers important exemplars of using computer software in qualitative analysis Educational Review This book is aimed at Master's students who are engaging in educational research for the first time It provides teacher researchers with the additional information they need so they can go on to read further and more in depth having more confidence in the accessibility of such studies I found it does this well and is an ideal point of reference for those who are just embarking on a Master's degree A useful glossary is provided giving detailed but readable explanations of key terms and phrases Primary Practice Doing Educational Research offers a hands on guide for students engaged in educational research It provides a comprehensive and accessible introduction to the key qualitative and quantitative methods necessary for those commencing research for the first time Through a detailed yet concise explanation the reader is shown how these methods work and how their outcomes may be interpreted Providing all the essentials for the first time researcher the book includes a variety of examples and case studies to illustrate how the methods and techniques can be used in real life contexts practical guidance on time management planning research projects and writing reports a broad coverage including qualitative and quantitative methodologies data analysis using computer software ethical issues and the writing up and presentation of data This engaging book has been written by a team of leading researchers with over sixty years of cumulative experience It has a student friendly structure which will make it accessible and popular with undergraduates and postgraduates It will be an invaluable resource for both students and researchers helping them to undertake effective research in education Doing
