Humanistic Wellbeing Joar Vittersø,2025-02-12 This open access book seeks to change the way we think about happiness and the good life It starts ambitiously by exploring how the biological question What is life can be integrated with the philosophical question What is good It ends with a radical idea for how scientific reasoning can include a value based theory of the good life Anchored in basic knowledge about human nature the new humanistic theory of wellbeing suggests that a life is good to the extent that it allows us to perform our humanness well The theory further defines a well performed humanness as the fulfilment of three universal human needs the need for stability the need for change and the need to and for care To reach this standpoint the author critically examines major concepts in the wellbeing literature such as values happiness life satisfaction affect hedonia eudaimonia and the good life Based on these reviews the author argues that a science of wellbeing cannot be strictly descriptive and value free A life should not be considered good only because it feels good or is thought of as good for the person living it A good life must also be committed to a universal morality Therefore the humanistic theory of wellbeing suggests that it is good to like one s life but even better to like it for the right reasons

Not by Faith Alone Roger J.R. Levesque,2002-12-11 Teens are often seen as challenging social mores They are frequently perceived to engage in activities considered by adults to be immoral including sexual behavior delinquent activities and low level forms of violence Yet the vast majority report surprisingly high levels of religiosity Ninety five percent of American teens aged 13 17 believe in God or a universal spirit and 76% believe that God observes their actions and rewards or punishes them Nearly half engage in religious practices such as praying alone or attending church or synagogue services Adolescents religious beliefs are clearly important to them Yet the law does not know how to approach adolescents religious rights and needs In Not by Faith Alone Roger J R Levesque argues that teens search for meaning does not always

serve adolescents or society well Religious doctrines and institutions are not all good with violence linked to religious beliefs for example particularly racial ethnic and sexual orientation harassment becoming an increasing concern Not by Faith Alone is the first attempt to integrate research on the place of religion in adolescent development and to discuss the relevance of that research for policies and laws which regulate religion in their lives Levesque asks how religion broadly defined influences the development of teens inner moral compasses and how we can ensure that religion and the apparent need for religious activity lead to positive outcomes for individual adolescents and for society
