Social Policy in the European Union Karen M. Anderson, 2015-03-26 Social policy has become an increasingly prominent component of the European Union's policy making responsibilities Today for example a highly developed body of law regulates equal treatment in social security and coordinates national security schemes national health services have opened up to patients and service providers from other states and rules govern the translation of educational and vocational certificates across member states This state of affairs is all the more remarkable given the relatively limited resources at the EU's disposal and the initial intentions of its founders During negotiations for the Treaty of Rome in the 1950s social policy was viewed as the exclusive provenance of the member states There were to be provisions to facilitate labour mobility within the common market but until the 1970s social policy making at the EU level was modest However plans for the internal market moved social policy on the EU's decision making agenda The Social Chapter was adopted in 1989 and the Single European Act expanded EU competencies in social policy The Treaties of Maastricht Amsterdam and Nice all expanded competencies further so that by the time the heads of government met in Lisbon in 2007 to sign the EU's latest treaty the extent of supranational control over important aspects of social policy making was quite impressive This important book provides a full account of the evolution of social policy in the EU and of its current reach It examines the reasons for the increased role of the EU in the area in spite of formidable obstacles and details its effects in member states where social

provision is often the biggest item in government budgets and a crucial issue in national elections Drawing on research done on welfare states around the world and on European integration this book provides a distinctive and sophisticated account of social policy in Europe showing how it must now be understood in the context of multi level governance in which EU institutions play a pivotal role

Sakellariopoulos,Jos Berghman,2004 This volume is the revised Report which an international team of experts have prepared for the Greek Ministry of Labour and Social Security in the context of the Greek Presidency of the European Union and presented in the international conference The Modernisation of the European Social Model EU Policies and Practices on 24 25 May 2003 at Ioannina Greece The book focuses on the Open Method of Coordination OMC its relation to other policy tools used in the European Social Policy and its

significance for the formation of a new European Social Model The chapters follow the emergence the evolution and analyze the constituent elements of the OMC in the fields of Social Inclusion and Pensions since the Lisbon Summit During the Portuguese Presidency OMC encountered a cautious response The OMC idea made substantial progress during the Belgian Presidency In the Ioannina conference the OMC had full recognition as a tool for the implementation of European Social Policy Everyone agreed that important social issues were dealt with more effectively through the OMC especially when the latter is consolidated after the inclusion of the Charter of the fundamental Rights in the new European Treaty This progress is sufficiently reflected in the present volume where it is concluded that through OMC the European Social Model gained a new momentum in terms of effectiveness and legitimacy *Too Sick to Work?* Stamatia Devetzi, Sara Stendahl, 2011-01-01

Revised versions of papers presented in June 2010 at a workshop in Fulda Germany **Social Europe, the Road not Taken** Aurélie Dianara Andry, 2022-10-20 This book examines the European Left's attempt to think and give shape to an alternative type of European integration a social Europe during the long 1970s Based on fresh archival material it shows that the western European Left in particular social democratic parties trade unions and to a lesser extent Eurocommunist parties formulated a project to turn capitalist Europe into a workers Europe This project favoured coordinated measures for wealth redistribution market regulation a democratisation of the economy and of European institutions upward harmonisation of social and fiscal systems more inclusive welfare regimes guaranteed employment economic and social planning with greater consideration for the environment increased public spending to meet collective needs greater control of capital flows and multinational corporations a reduction in working time and a fairer international economic order favouring the global south During the pivotal years following 1968 deeply marked by labour militancy new social movements economic crisis and the unmaking of the postwar compromise a window of opportunity opened in which European integration could have taken different roads The defeat of social Europe was a result of a decade long social conflict which ended with the affirmation of a neoliberal Europe Investigating this forgotten struggle and the reasons of its defeat can be useful not just to scholars and students eager to understand the historical evolution of European integration the European Left and European capitalism but also to anyone interested in building alternative European and global futures Changing Welfare States Anton

Hemerijck, 2013 *Changing Welfare States* is a major new examination of the wave of social reform that has swept across Europe over the past two decades In a comparative fashion it analyses reform trajectories and political destinations in an era of rapid socioeconomic restructuring including the critical impact of the global financial crisis on welfare state futures The book argues that the overall scope of social reform across the member states of the European Union varies widely In some cases welfare state change has been accompanied by deep social conflicts while in other instances unpopular social reforms received broad consent from opposition parties trade unions and employer organizations The analysis reveals trajectories of welfare reform in many countries that are more proactive and reconstructive than is often argued in academic research and

the media Alongside retrenchments there have been deliberate attempts often given impetus by intensified European economic integration to rebuild social programs and institutions and thereby accommodate welfare policy repertoires to the new economic and social realities of the 21st century Welfare state change is work in progress leading to patchwork mixes of old and new policies and institutions on the lookout perhaps for greater coherence Unsurprisingly that search process remains incomplete resulting from the institutionally bounded and contingent adaptation to the challenges of economic globalization fiscal austerity family and gender change adverse demography and changing political cleavages
