

2. EXPORT COMPLIANCE MANUAL

Astro-Med, Inc. and its affiliates and subsidiaries are firmly committed to strict adherence to all U.S. export control laws and regulations including the Export Administration Regulations (EAR) and International Traffic in Arms Regulations (ITAR) as well as other regulations relating to international dealings. In this regard, Astro-Med is committed to full compliance with all applicable export requirements pursuant to U.S. law including, but not limited to, those laws administered and enforced by the U.S. Department of Homeland Security, U.S. Department of State, the U.S. Department of Commerce, Bureau of Industry and Security, as well as the U.S. Department of Treasury, Office of Foreign Asset Control. Under no circumstances should the export of ITAR or EAR-controlled technical data, software, or commodities take place contrary to U.S. export control laws and regulations.

Administrative, civil, and criminal penalties exist for violations of export control laws and may be imposed against the Company and/or individual employees. Because of potential serious consequences associated with failing to comply with U.S. export control laws and regulations, all employees must be aware of their obligations for full compliance.

In accordance with the various U.S. laws and regulations, Astro-Med has established and implemented an export compliance policy and procedures to comply with the policy and U.S. export controls and regulations. Astro-Med's compliance policy and procedures are detailed in this Manual.

Astro-Med's Export Compliance Manual should be used not only as an educational tool, but also as a practical guide in the course of day-to-day order processing and any licensing management for all departments involved.

Compliance with the U.S. Export Laws is every employee's job, and each employee involved in international transactions should use this Manual to become educated with respect to his or her responsibilities. Deviation from compliance could jeopardize our Company's ability to export products. Failure to comply may result in disciplinary action by Astro-Med.

- This Export Compliance Manual will be maintained and distributed by the Export Compliance Manager (and is posted on the Company's Intranet site and available to all employees).
- The Manual is revised as necessary, due primarily to regulatory changes or changes in Astro-Med's export process.
- Human Resources will provide all new employees, at time of hire, with a copy of the "Regulatory Compliance Commitment" issued by Gregory Woods, CEO of Astro-Med, Inc.

Preventing Black Market Trade in Nuclear Technology Matthew Bunn, Martin B. Malin, William C. Potter, Leonard S. Spector, 2018-06-21 Every nuclear weapons program for decades has relied extensively on illicit imports of nuclear related technologies This book offers the most detailed public account of how states procure what they need to build nuclear weapons what is currently being done to stop them and how global efforts to prevent such trade could be strengthened While illicit nuclear trade can never be stopped completely effective steps to block illicit purchases of nuclear technology have sometimes succeeded in slowing nuclear weapons programs and increasing their costs giving diplomacy more chance to work Hence this book argues preventing illicit transfers wherever possible is a key element of an effective global non proliferation strategy

Advanced Corporate Compliance Workshop, 2009 *Export Control*

Law and Regulations Handbook Yann Aubin, Arnaud Idiart, 2007 Export control laws and regulations are the legal framework for countries around the globe to ensure world peace and stability and their importance in international trade is growing. The reasons behind this growth lie in the evolution of technology, the fact that increasing amounts of goods and services are subject to controls, such goods and services representing a very large segment of world trade, and the increasing threat linked to terrorism. Consequently, export control laws and regulations have become extremely important for those involved in the international trade of goods and services with a direct or even indirect military use. Export control laws and regulations are complex, difficult to understand, and constantly evolving. Infringements can lead to very serious sanctions, civil, administrative, or criminal, and not to be minimized, the risk of serious damage to the corporate image of one or more parties to a questionable transaction. Yann Aubin and Arnaud Idiart are involved in such issues on a day to day basis in their respective capacities as lawyer and export compliance officer within the European Aeronautics Defence and Space Company EADS. They have gathered contributions from expert practitioners, EADS and Thales, as well as Hogan and Hartson LLP and university scholars, Paris 11 Law School, Institute of Space and Telecommunications Law IDEST, faculty and advanced students, to make the Export Control Handbook as useful as possible. The Export Control Handbook provides a practical examination of the export import control regimes of defense and dual use goods and services of a number of selected jurisdictions around the world: China, European Union, France, Germany, India, Italy, Japan, Russian Federation, Spain, United Kingdom, United States. The Handbook contains a very useful appendix including, among other things, compliance procedures and standard country specific application or related forms. The aim of each country specific chapter of the Handbook is to provide actionable information designed to guide foreign entities wishing to undertake production in the jurisdiction, e.g. through a local subcontractor or a local subsidiary, which could be a joint venture, in order to subsequently export that product anywhere in the world. The Export Control Handbook is invaluable to any international trade professional, lawyer, compliance officer, etc. or entity with a need to know the specific requirements to be followed in the jurisdiction in question for the efficient and legally compliant import or export of controlled military or dual use goods or services.

Export Control Law and Regulations Handbook Yann

Aubin, Arnaud Idiart, 2016-05-15 The importance of export control laws and regulations in international trade continues to grow, not only because of the increase in world trade and technology dispersion, but also due to concerns surrounding national and regional stability and the risk of terrorism. Accordingly, familiarity with export control laws and regulations around the world has become extremely important for those involved in the international trade of dual use or military goods, technology, and services. In this preeminent handbook, now in its third edition, two experienced professionals have gathered contributions from expert practitioners and academics. The third edition adds three new country chapters: Brazil, Israel, and Sweden, and a new separate chapter on sanctions and embargoes. In addition to chapters on the international regime in general, the book provides a practical overview of the export import control regimes covering defence and dual use goods and

services in fourteen key jurisdictions Country reports each follow the same structure for easy comparison Issues and topics covered include the following and much more import export legal and regulatory requirements for controlled goods and services sanctions for breach of such requirements civil administrative or criminal licence application processes arms dual use and other products embargo including chemical and biological materials and technology and enforcement measures The Handbook also makes available through an online application all important standard export control related forms templates and other related documents all of which readers can use to draft their own documents The Handbook is invaluable to any professional such as lawyers compliance key players procurement logistics finance and customs practitioners working in relation to an organisation with a need to know the specific requirements to be followed for the efficient and legally compliant import or export of controlled military or dual use goods technologies or services *InfoWorld* ,1995-09-11 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *Facilities Development Manual* Wisconsin.
