## **Extinction Edge The Extinction Cycle :**

*Extinction Edge* Nicholas Sansbury Smith, 2015-02-22 The dust from Dr Kate Lovato's bioweapon has settled. Projections put death counts in the billions. Her weapon was supposed to be the endgame but it turned a small percentage of those infected with the Hemorrhage Virus into something even worse. Survivors call them Variants. Irreversible epigenetic changes have transformed them into predators unlike any the human race has ever seen. And they are evolving. With the doomsday clock ticking, the fractured military plans Operation Liberty, a desperate mission designed to take back the cities and destroy the Variant threat. Master Sergeant Reed Beckham agrees to lead a strike team into New York City but first he must return to Fort Bragg to search for the only family he has left. At Plum Island, Kate discovers Central Command may have considerably underestimated the Variant population in New York. As Operation Liberty draws closer, Kate warns Beckham that Team Ghost won't just face their deadliest adversary yet; they may be heading into a trap.

**Orbs II: Stranded** Nicholas Sansbury Smith, 2016-07-19 The thrilling sequel to Nicholas Sansbury Smith's bestselling *Orbs* when one of their own is captured. Dr Sophie Winston and her team of survivors must exit the safety of their biosphere and fight off the growing horde of aliens. The Organics are still draining the oceans, raising temperatures worldwide, and the few remaining humans have been herded into farms where the water in their bodies is harvested to support the growing alien army. Humanity's last chance lies with the biospheres that the mysterious New Tech Corporation has planted across the globe. With resources dwindling and a new, more terrifying form of alien hunting humans down, not all the biospheres will make it. But there is still hope. In Sophie's biosphere, her team has managed to create a magnetic weapon that just might give the human resistance a fighting chance if they can live long enough to use it. Meanwhile, the lone survivor of another failed biosphere treks across the California desert to the ocean and is rescued by an NTC submarine that has been tracking the movements of Sophie's team and the development of their magnetic weapon. An exciting update of the classic alien invasion story, *Orbs II* weaves together horror, suspense, and science fiction in a thoroughly fresh, modern, unputdownable book.

**Orbs III: Redemption** Nicholas Sansbury Smith, 2016-08-16 There's sabotage from within and a strange virus is infecting the last human survivors of an alien invasion in Nicholas Sansbury Smith's smart and exciting third book in the bestselling *Orbs* series. With the alien armies growing stronger, Sophie's biosphere decides to join forces with the team from NTC's submarine. Using data from a surviving satellite, they discover strange alien poles at each of the world's seven highest summits, alien technology that the survivors believe may hold the key to shutting down the alien ships once and for all. But before the two teams can launch an offensive, the biosphere must deal with sabotage from within and a strange nanotechnology that has infected several of the survivors. As tensions rise, Sophie and team must decide whether their new discovery is worth abandoning the biosphere. The more the team learns, the more they realize that Earth may be beyond saving and that salvation may require leaving the planet forever. A splendid mix of horror, suspense, and science fiction, *Orbs: Redemption* upends the classic alien invasion story into an edge

we can do that might reverse this during the next 12 000 years Can we ensure this doesn't happen again during the next cycle of our Earth or will it repeat again and again with only minor changes These are the questions that I hope to if not answer give at least some direction where we can find some hope to recapture our civilization Permian Extinctions

**The Book of Vanishing Species** Beatrice Forshall, 2022-10-13

Our Earth is more beautiful and more diverse than we can possibly conceive of The Book of Vanishing Species is a stunning homage to the planet's most mysterious bizarre and wondrous creatures and plants Their stories are captivating from the eyeless and tiny dragonlike olm to the hawksbill turtle whose gender will be determined by the temperature of the sand it is born in These species may have survived for hundreds of thousands of years by cleverly adapting to their environments but their future remains far from certain The book brings to life red cranes as they dance and bow for the sheer joy of movement trees that breathe out a haze of misty atmosphere for insects that only feast on one kind of flower a deep ocean snail quietly building its shell from iron and each one of them is illuminated with an exquisite illustration As you turn the pages there emerges a network of life that stretches across and around the planet in a dazzling web of existence This is both a love letter to life on Earth and an urgent summons to protect what is precious and lovely in this world

**The Engineering of Consent** David Klooz, 2021-02-10 There are many people and many authors who believe that civilization mankind or our species has amnesia I do not believe this I believe we have been lied to since the beginning of recorded history and even before that The first half of this book is about our four previous civilizations and the out of place artifacts and knowledge that has been hidden debunked lost or forgotten such as the giant skeletons recorded in most newspapers in the 19th century recorded Indian Vimanas that flew powered by a spinning plasma engines in 7 000 BCE as well as flying Aeros in Bavaria and the Western United States It is about the Cro Magnon giants of the Atlantean civilization escaping to the area of the Caucasus Mountains Northern Africa the Canary Islands and the East Coast of the Americas during the Solar System cataclysm in 10 900 BCE It is about that same tall Atlantean Aryan Iranian race with blue eyes and red and blonde hair that migrated from the Caucasus mountains and became the ruling class from China to Egypt It is also the story of the stealing destroying hiding and perverting the occult and lost knowledge of the Brotherhood by the High priests of Egypt known as the Scarlet Council so that only they could control who could become part of their New Brotherhood That ancient knowledge was also perverted by the addition of the Jewish Kabbalah a mixture

of alchemy numerology gematria and magic as well as by the Alumbrados an emerging occult movement founded by Spanish Marranos The members were baptized Jews who secretly kept their Talmudic faith Also the Khazars Krypto Jews from near the Black Sea with their knowledge of Babylonian black magic and money magic perverted the Mysteries This confusing jumble was added to the existing Egyptian Osiris Isis Horus Cult which was the basis of Freemasonry which was infiltrated by Adam Weishaupt and his 2000 members along with the Jesuits and the Vatican This became the New Illuminati Finally it is about the control of the masses by religion and by the alchemy of social engineering to manipulate the masses through disinformation brainwashing and the fear of terror It uses mass death rituals like 9 11 and public assassination rituals such as that of JFK for shock value The use of this alchemical social engineering is used in the engineering of consent in order to protect the masses from the terror and hopelessness that the Brotherhood itself has created This culture of control can also be seen by the use of political correctness the additional attempts to limit free speech and the creation of hopelessness mistrust and eugenics by lockdowns masks quarantines and forced use of untested injections Remember the Nuremberg Code and Never Again That was a lie as well We are living it that lie
